TORONTO'S NEW SANITARIUM. Branch of the Famous Battle Creek Hospital to Be Established.

Toronto is to have a fine new sanitarium, conducted along the same lines as the famous sanitarium at Battle Creek, Mich., the largest institution of its kind in the world. For this purpose the property out at High Park, known as Clandeboye, has been purchased. This elegant large home is admirably suited for sanitarium purposes. It is high conditions and the conditions are the conditions of the conditions are the conditions and the conditions are the conditions a poses. It is high and dry, well lighted and ventilated, has splendid views of High Park and Lake Ontario, and is altogether one of the most picturesque spots in or near Toronto. There are four acres of land in connection with the property, most of which is wooded. Clandeboye, or rather High Park Sanitarium, as it will be known in future, is just two hundred yards west of the north High Park gate, and three-quarters of a mile from Sunnyside. Bloorstreet is on the south side, and Gothic avenue on the north.
