## T. EATON CO.

## **Fine Canned Corn** at Six Cents a Tin

We have six hundred dozen tins of Canned Corn to sell on Friday at Six Cents a Tin. We have good reasons for doing this, and it will come as a big surprise in many The Globe loses no opportunity to belittle the proposal to establish a system of mutual preferential trade within the British Empire. It says such a system cannot be established except on the basis of absolute free trade between the Mother Country and the colonies. Mr. Chamberlain, we are told, will not entertain any propos-

TAPS FROM THE WIRES.

be undertaken along with this proposal.

The contention that this extension should not be sanctioned because it would afford an improved service to the people who live outside the city limits is ridiculous. According to this line of reasoning, we should allow none of our lines to run to the city imits, so as to make connection with the suburban lines as difficult as possible. Some of the aldermen who favor the establish-

ment of a radial trolley system, with Toronto as the hub, are, strange to say, the very ones who have opposed this extension of the Avenue-road line into the township. It is time the aldermen took a broader yiew of this question. No other city that we know of discourages the extension of street railway lines for fear such extension would advantage an outside municipality. Such progressive cities as Buffa'o, Cleveland and Detroit have an hourly and half-hourly ser. ment of a radial trolley system, with To- The New York State Senate has passed

## Ten Lost Years.

Figure it for yourself.
From the age of fifteen to that of forty-five a woman gives one-third of her time to the suffering incident to the recurring periodic function. Ten years of suffering! And this condition of things is popularly accepted as natural, and endured as a feminine disability for which there is no help! Is there no help? There is help for every woman and for almost every woman perfect healing in the use of Dr. Pierce's Favorite Prescription. It insures regularity, dries the drains which weaken women, heals inflammation and ulceration and cures female weakness. It is a temperance

marcotic.

"I was so weak I did not have breath to walk across my room." writes Miss Isabel Miller, of New Providence, Calloway Co., Ky. "My periods occurred too often and the hemorrhage would be prolonged and the loss of blood very excessive. I also had spells which the doctor said were fainting fits. I did not gain strength from one monthly period to another; was very weak and nervous all the time. Was confined to my bed for three months and the doctor told me I would never be any better. I lived in this way from sixteen years old to twenty-three. I was at last advised by a kind friend to try Dr. Pierce's Favorite Prescription, which I did, and before I had taken two bottles of it I could work all day. I took in all six bottles of the 'Favorite Prescription' and about five vials of Dr. Pierce's Pellets. I used no other medicine. I have never had a return of this trouble since."

### CUTTING-CLUFFE NUPTIALS Leads T. P. O'Connor to Discourse

on the Marriages of Americans to

London, Feb. 20 .- Mr. T. P. O'Connor, i Mainly About People, comments on the forthcoming marriage of Mr. W. Bayard Cutting, private secretary to Mr. Joseph Cutting, private secretary to Mr. Joseph H. Choate, the U. S. Ambassador, and Lady Sybyl Marjorie Cuffe, youngest daughter of the present Earl of Desart (which was announced Feb. 14) as interesting and significant as representing the union of Americans with English women of rank." The only other similar case was the wedding of Mr. Alfred E. Jessup to Lady Mildred Bowes-Lyon in 1890. Lady Mildred died in 1897. The prospective bride of Mr. Cutting is pretty and talented and writes articles and stories for the weekly papers.

Pierpont Morgan After Our Iron,

Pierpont Morgan After Our Iron.

It would seem that J. Pierpont Morgan's great iron and steel trust would extend into Canada. It is at work upon the Atkicokan iron range, west of Lake Superior. Confirmation of this has come from W. E. H. Carter, the inspection in the northwest part of Ontario.

"Along the river," he said, "the iron deposits extend, so far as is knownfor a distance of over 12 miles, to Steep Rock Lake, and they have been surveyed and taken up for the whole distance. The new Rainy River Railway passes thruthis district, and would be available for the shipment of ore. The principal deposit is that of McKellar's, where the iron ore occurs in a hill which has be receptively a tunnel of a length of 300 feet. The showing of ore so lar exposed would well repay further outlay in development. This property is now bonded to the American Wire and Steel Company is one of the great manufacturing concerns included in J. Pierpont Morgan's great steel combine. The McKellar location—has long been known as one of the lire of the showing ceased entirely.—51
