TORONTO.

**66 MILES AN HOUR  
RECORD IN TORONTO**

Continued from Page 1.

Wright of the latter company said last night that it was impossible to get any more definite information, owing to the phone lines which parallel the transmission wires having broken down.

**Water Runs High.**  
Waves rolled mountain high into the Eastern gale, flooding both piers almost from end to end with every swell and splashing up the side of the buildings till the windows were glazed with spray. The piers and breakwater along the south Island shore were being hurled by the sportive waves into her hull, thus being blown off her ways. Nearly all the shed coverings over the various craft were wrecked and numerous cases of slight damage to the boats resulted.

The furious lake bombarded the shores at Balmy Beach more angrily than in years, and several of the big boats were blown down the beach. The Macassa arrived from Hamilton and Lakeside from Port Dalhousie in the morning, but did not make a return passage.

About 200 feet of the northeastern end of the new grand stand at Hamilton Point was lifted by the wind and dropped upside down on the other side of the "dips," which were undamaged by its passage over them.

**Damage at Allan Gardens.**  
One of the most striking instances of damage wrought was to be observed in Allan Gardens. After withstanding all the onslaughts of the wind during the morning, the conservatory capitulated and with a deafening crash a big stretch of framework collapsed, carrying about 200 feet of glass to ruin. Rodrick Cameron, general park superintendent, who inspected the scene of desolation, takes comfort in the fact that the structure was an ancient one, and that there is now an opportunity to replace it with something more substantial.

At the exhibition grounds there was

**THE "SAVOY"**  
(Yonge and Adelaide Sts.)

**Easter Eggs and Novelties**—A great variety, imported and domestic.

**Candies**—One of our dainty boxes of Chocolates and Bon Bons makes a delicious Easter gift.

**Ice Cream**—Sundays, Frazzles, Parfaits, Ices and Sodas.

**Japanese Tea Rooms**—Teas, Luncheons, etc.

**Good Friday**—Open all day till 11 o'clock. In the evening.

## THE WEATHER

**METEOROLOGICAL OFFICE, Toronto.**  
April 7.—(6 p.m.)—The disturbance which was west of Lake Michigan last night, developed into a severe storm, which since this morning has been moving eastward across Northern Ontario. Heavy rains have prevailed on the great lakes and the weather has been showery in both Ontario and Quebec. In Manitoba it is fair and cold.

**Minimum and maximum temperatures:**  
Toronto, 28-34; Victoria, 28-38; Vancouver, 28-32; Calgary, 18-28; Edmonton, 28-30; Moosejaw, 14-29; Qu'Appelle, 18-34; Winnipeg, 24-32; Port Arthur, 18-34; Parry Sound, 40-52; London, 40-52; Toronto, 28-30; Ottawa, 28-34; Montreal, 42-48; Quebec, 36-40; Halifax, 34-38.

**Probabilities.**  
Lower lakes and Georgian Bay—Fresh northerly winds; fair and cooler; local snow flurries.

## SIX CHILDREN INJURED IN A LONDON SCHOOL

Continued from Page 1.

ed, not seriously hurt; Jack Clarke, aged 10, battered up and bruised and has cut on face; Henry Ashley, aged 10, foot crushed by flying bricks.

The chimney at Hobbs' glass works toppled over and a loss resulted of about \$3000.

The Free Press Co.'s chimney crashed down through the roof of the boiler-house, wrecking it, and the big sign in front of the Free Press Building was torn from its fastenings as a toy in the hands of a giant. Loss \$1000.

The cornice and illuminating sign of the Purdon Hardware Co. was torn away and the damage is estimated at ten thousand dollars. Over 400 telephones are out of commission in the city.

The telegraph lines were blown down. A drilling derrick fell at the corner of Midland and Horton-streets, tearing the roof of the building at the time and the big lines. A part of the roof of the new Greene and Swift building was picked up by the mighty rush of air and scattered all over the surrounding territory. The turrets of the steeple of St. Mary's Church were blown away. Loss \$1000. The smokesack at the Grand Trunk roundhouse was blown down.

**Less Broken.**  
Some peculiar accidents were included. While unloading a load of lumber at the Sherlock, Manning Organ Co.'s works, George Hyatt was blown from a car a distance of 15 feet and sustained a broken leg. He was just commencing to unload a car of pine when the wind caught him and carried him away.

The 4-year-old son of Policeman Taylor was struck by a fence blown over and his leg was broken.

Some houses, loaded with boxes in front of the McCormick Co., were carried a full block, propelled only by the wind. The block-long fence around the McCormick Park was leveled to the ground.

To-night the telegraph companies have their lines in shape.

### SCHOOLS SUFFER AT GUELPH

Wall Blown Down and Roof Stripped—Wind at 60 Miles.

GUELPH, April 7.—(Special.)—It has been a wild and windy day in and around Guelph.

Part of the front wall of the new \$13,000 St. Patrick's ward school, was blown down this morning with a crash that frightened the children and sent a crowd of mothers to the scene to claim their children, all of whom luckily were in the school at the time and so were unhurt. Trees, fences, doors and outhouses all over the city were blown over.

A portion of the roof of the school was stripped of its heavy coating of slate this afternoon and the children were covered by a heavy sky light on the opera house building was carried high up in the air, where it seemed to soar for a moment like a bird, and then fell down on the roof of a passing street car, greatly alarming the passengers.

The tall smokestack of Stewart's planing mill and other factories have suffered, while the 18-foot brick chimney on the residence of Principal Davidson, on the Grandview street, was blown down and the cable torn off a house in another part of the city.

The physical department at the Ontario Agricultural College informed your correspondent that the velocity of the wind ranged between 40 and 60 miles an hour all day and that it blew at the rate of sixty miles steadily for almost an hour at one time this morning.

### DISASTROUS AROUND ST. KITTS

Fire Station Tower Down—Fences and Chimneys Suffer.

ST. CATHARINES, April 7.—(Special.)—The storm in this city and district caused in the aggregate thousands of dollars' damage. No fortunate escape was made. The loss is divided over all sections, chimneys being down in considerable numbers on every street.

Probably the greatest damage was the destruction of the high tower on central street. For some time it was evident, and Chief Early had the horses and trucks removed from the street. When the tower came down, the roof of the building withstood the shock and the tower tumbled away on to John Carson's blacksmith shop, close by, and the damage is considerable. A thousand dollar house in the course of construction by Thomas Irvine on Ontario-street was blown to the ground and considerable damage was caused to the skating rink at Ridley College.

In every section trees are down and many panes of glass have been broken by the wind. The roof of the big chimney being blown down and a number of barns were blown down and the injured. The loss is divided over all sections, chimneys being down in considerable numbers on every street.

**Trolley Service Demolished.**  
Power was off at Niagara Falls a short while this afternoon and the city was without trolley service, or about with Port Dalhousie, Port Huron, Thorold, Niagara Falls and Welland, for the balance of the day.

The storm caused similar damage in surrounding municipalities, the greatest loss being sustained by fallen trees and chimneys.

At Port Dalhousie a large portion of the rubber factory was carried across the old canal, and the cabin was blown down. The loss is divided over all sections, chimneys being down in considerable numbers on every street.

**Damage Around Brantford.**  
Buildings Unroofed, Trees and Fences Broken and Glass Shattered.

BRANTFORD, April 7.—(Special.)—The worst storm in the history of this city has been raging here since this morning, and has resulted in

thousands of dollars' damage. Roofs of buildings, factory chimneys, and houses with their roofs blown off, while acres of fruit trees have been devastated in the county. Since 10 o'clock this morning the wind has been blowing at a velocity of 50 miles an hour.

Only one injury is reported, Alfred Cox, a jeweler, having his face severely lashed by a flying piece of slate.

The roof of the Baptist Church in the Homeplace was blown away, also that of the Brantford Soap factory in the same district. Several barns were also demolished, including those of E. Richter and J. Burke on the outskirts of the city.

In the city over a score of plate glass windows were destroyed. The Brantford and Hamilton Radial as well as the street railway and Grand Valley Radial were tied up, owing to the Cataract wires being blown down, carrying the current to this city.

The Barber & Ellis and Ham & Nott factors were among the sufferers, their tall smokestacks being blown away. The damage is general over the entire city, fences, trees, house chimneys and signs being carried indiscriminately through the air.

Near Stromness-to-night, Grand Trunk Conductor Tippet had to stop the train on account of the roof of two freight cars being blown away.

### ROOFS WRECKED AT FALLS

Big Factories Unroofed—Telephone Service Paralyzed.

NIAGARA FALLS, Ont., April 7.—(Special.)—For ten hours Niagara Falls has been swept by a severe wind storm which at times assumed the proportions of a cyclone. Damage to property is extensive, roofs being ripped off hotels and factories, telegraph and telephone lines are being blown down, and the roofs of the Grand Trunk roundhouse and the Niagara Falls Power Co. factory are being carried away.

The storm was the most severe in ten years and the damage is estimated at ten thousand dollars. Over 400 telephones are out of commission in the city.

Part of the roof of the new \$13,000 St. Patrick's ward school, was blown down this morning with a crash that frightened the children and sent a crowd of mothers to the scene to claim their children, all of whom luckily were in the school at the time and so were unhurt. Trees, fences, doors and outhouses all over the city were blown over.

A portion of the roof of the school was stripped of its heavy coating of slate this afternoon and the children were covered by a heavy sky light on the opera house building was carried high up in the air, where it seemed to soar for a moment like a bird, and then fell down on the roof of a passing street car, greatly alarming the passengers.

The tall smokestack of Stewart's planing mill and other factories have suffered, while the 18-foot brick chimney on the residence of Principal Davidson, on the Grandview street, was blown down and the cable torn off a house in another part of the city.

The physical department at the Ontario Agricultural College informed your correspondent that the velocity of the wind ranged between 40 and 60 miles an hour all day and that it blew at the rate of sixty miles steadily for almost an hour at one time this morning.

**BLEW TOP OFF BOX CAR**  
Great Damage and Some Narrow Escapes Around Windsor and Detroit.

WINDSOR, April 7.—(Special.)—Sweeping over the Detroit River at a velocity of 60 miles an hour, the gale today caused considerable damage to property and some narrow escapes. The roofs of many buildings were blown down and the roofs of the Grand Trunk roundhouse and the Niagara Falls Power Co. factory are being carried away.

The storm was the most severe in ten years and the damage is estimated at ten thousand dollars. Over 400 telephones are out of commission in the city.

Part of the roof of the new \$13,000 St. Patrick's ward school, was blown down this morning with a crash that frightened the children and sent a crowd of mothers to the scene to claim their children, all of whom luckily were in the school at the time and so were unhurt. ## REV. DR. ORR COMES

Continued from Page 1.

thods. The gospels go into the crucible. Much gets peeled off or pared away as excrescence. Paul was brought up as a Pharisee and a great deal of this got rid of in connection with the great apostle. If these things were done in the green tree of the New Testament, what would not be done in the dry of the Old? The early history of the Old Testament down to Kings was legend. They were told that legends are as good as history and perhaps better for presenting certain ideas, but he preferred his ideas out of fact.

Was there a tenable doctrine of a true Holy Scripture? he asked. "The claimant of the time is the replacement of Holy Scripture in the field of the living men as the truly inspired record of God's will to men in the great things of the soul," he declared.

For a satisfactory doctrine of the things necessary, Dr. Orr said, a more positive view of the structure of the Bible than prevails in many circles. Second, the acknowledgment of a supernatural revelation of God in history embodied in the Scriptures. Third, the recognition of a true supernatural inspiration in the record of the Bible.

He reviewed the theories of the structure of the Old Testament, whose history, he said, had been made to stand by the Bible as the Bible as it stood, there seemed to him evidence of a very different internal structure.

According to him, the whole making a unity. It was distinct from all other sacred books, the Koran, the Buddhist or Indian Scriptures, as being the embodiment of the great plan of Divine grace extending from the beginning of time. The history of the world was the history of God's redemptive purpose. All the books of the Old were gathered up in the fulfillment of the New Testament. There the circle completed itself in a new heaven and a new earth. There was structure, purpose, a story, a living thing.

Some would say, That is all very well, but there were facts on the other side. Dr. Orr said, "The Bible is the story of the world, the story of the human race, the story of the human mind, the story of the human soul, the story of the human body, the story of the human life, the story of the human death, the story of the human resurrection, the story of the human judgment, the story of the human glory, the story of the human kingdom, the story of the human empire, the story of the human world, the story of the human universe, the story of the human creation, the story of the human redemption, the story of the human salvation, the story of the human life, the story of the
