CANADA'S OPPORTUNITY.

The South African war will play a most important part in the coming session of the Dominion Parliament.

In the Dominion of partition. A new and grander Empire is about to arise.

The greatest awakening of the century is upon us. Circumstances are accomplishing what no statesman nor Government has been able to bring about.

The South African war will prove to be the Bismarck of our Imperial consolidation. Do Canada's statesmen realize the mighty changes that are now in process of formation? Do they realize that Canada today is upon the verge of a great transformation?

Do they realize that it has never before appeared? Do they realize that henceforth Canada will drop its colonial swaddling clothes and appear among the nations as one of themselves? If not, it is to be hoped that the Government will get upon some eminence whence they can view the swiftly-moving panorama and get an inspiration of the new awakening.

During the coming session Canada must announce the course it proposes to take in the creation of the new and greater confederation. Fortunately public sentiment in the Dominion is all one way on this question. Canadians are heart and soul for a genuine imperial federation of the British Empire. They are willing and anxious to partake of the responsibilities and to share in the glories of Imperial unity. And Parliament will not reflect upon the course it takes in this regard.

Will it be taken part in by Mounted Troops—Pomeranian Takes 205 Horses.

Halifax, N.S., Jan. 25.—Dwellers at Willow Park military camp have had their number augmented by the arrival of No. 3 troop, "A" squadron, comprising 40 men in rank and file. This is the first detachment of "A" squadron to reach the city, and is for the present attached to Major Williams' command. There are still 100 men to be completed.

THE STOPPAGE OF HALF A DOZEN CARS.

could not do any harm, and it is just possible that such an action might force the matter into court and secure an immediate decision. The forcible condemnation of the cars would not compel the company to put on new ones in substitution. What we want and what we must secure is an order of the court enjoining the company to purchase new rolling stock. To this end the city should apply for an injunction or a mandamus. Such action might be taken concurrently with the Mayor's proposed condemnation of the cars. The Medical Health Officer should also be requisitioned to take action in this affair. The company's cattle cars could easily be proved to be a public nuisance. They are badly ventilated and do not contain one-tenth of the proper air space for the crowds that are huddled together in them. In order to get this matter to a head The World suggests that the Mayor proceed on the following lines:

1. Order half a dozen of the condemned cars off the street, as proposed.

2. Let the Medical Health Officer, or other expert, examine the cars and report on the matter to a head The World suggests that the Mayor proceed on the following lines:

3. Let the Medical Health Officer, or other expert, examine the cars and report on the matter to a head The World suggests that the Mayor proceed on the following lines:
