EMPLOYMENT FOR GRADUATES.—While no engagement is made to secure employment for graduates of the School, those who show themselves capable and industrious will, if possible, be recommended to positions for which they are qualified. It must be distinctly understood, however, that recommendations will not be given to men merely because they have been students at this School.

CERTIFICATES OF STANDING.—Employers of mining engineers and assayers are requested to note that men who have studied here can produce certificates stating clearly their standing in the School; and that no one is entitled to style himself a graduate of the School unless he has completed either a three years' or a four years' course.

EXPENSES OF A COURSE.—The following statement of expenses is made from information obtained from students who have kept account of their expenditures. The average expense for class fees is taken in this estimate:
