Dozen Dead In Niagara Gorge

Niagara Falls, N. Y., July 2.—The list of the trolley wreck on the Gorge Route on Sunday afternoon was practically unchanged today. There are ten known dead, three persons missing, and probably dead, and there are from 6 to 16 unknown missing. There is great disagreement over the number of passengers on the wrecked car. Meanwhile the cash register of the car has not been produced.

The Disaster

Niagara Falls, N. Y., July 1.—A belt line car on the Great Gorge route, left the rails, plunged down a twenty foot embankment and turned over in ten feet of water on the edge of the whirlpool rapids at 3.20 o'clock this afternoon.

A washout, due to recent rains, was the cause of the disaster, which occurred just below the Castlereagh bridge, and sixty feet below the point where the smooth water of the upper reaches of the Niagara river break into the turbulent waters of the whirlpool rapids.

There were more than fifty passengers on board, according to general estimates. The car was one of the open type, the seats extending from side to side with steps on both sides the full length of the car.

There was a German submarine took refuge and later was escorted out of the port by Spanish torpedo boats. The text of the decree follows:

In the good old pioneer days of this country, when drug stores were few, grandmothers' root and herb remedies were what were always depended upon to bring relief for family ailments, and some of grandmothers' root and herb remedies are now found upon the shelves of the modern drug store, and are among the best and most widely used prepared medicines.

Such is Lydia E. Pinkham's Vegetable Compound, a botanical remedy, originally prepared by Lydia E. Pinkham, of Lynn, Mass., over forty years ago, and which has brought health and happiness to more women in America than any other medicine.

Good News From Eastern Front

Russian Armies, Led by War Minister, Deliver Smashing Blow—Capture 10,000 Prisoners

Prisoners exceeding 10,000 and the capture of the village of Konichy and strongly fortified positions southwest of Brzezany are the first fruits of the new offensive movement of the Russian forces in Eastern Galicia.

North of Konichy the Russians have attacked, and fresh battles are in progress.

The Russian artillery, long inactive from lack of shells, played an important part in the defeat of the Austro-Germans at Konichy. For two days a rain of iron was thrown into the German positions and Berlin says officially that they were turned into a crater field.

The Russians not only carried three lines of German trenches and Konichy, which was strongly fortified but also advanced to the Konichy stream south of the village, which is on the Zlota Lipa river.

Around Brzezany the fighting was most bitter and Berlin claims that sixteen Russian divisions were thrown forward. The Russians carried the fortified Teuton positions at several points in face of a desperate resistance by Austrian, German and Turkish troops.

Kerensky on Job.
Petrograd, July 2.—The brilliant Russian advance, the news of which has been sent to the world, has been the entire country, was led by War Minister Kerensky in person.

British Army Headquarters in France, June 30.—Serge Basset, a distinguished French war correspondent attached to the British army, was killed yesterday by rifle fire while watching the fighting about the Lens salient.

King Alfonso has signed a decree dealing with submarines with a view to avoiding a repetition of incidents such as that at Cadix, where a German submarine took refuge and later was escorted out of the port by Spanish torpedo boats. The text of the decree follows:

In the good old pioneer days of this country, when drug stores were few, grandmothers' root and herb remedies were what were always depended upon to bring relief for family ailments, and some of grandmothers' root and herb remedies are now found upon the shelves of the modern drug store, and are among the best and most widely used prepared medicines.

NUTRATED

The Power Behind the Strong Man of Today

Dr. Ferdinand King, a New York City Physician and Medical Author, says: "There can be no strong, vigorous, iron men, nor beautiful, healthy, rosy-cheeked women without iron—Nuxated iron taken three times per day after meals, increases the strength and endurance of weak, nervous, run-down folks 100 per cent. in two weeks' time in many instances. Avoid the old forms of iron pills, which may injure the teeth, corrode the stomach, and thereby do more harm than good. Take only organic iron—Nuxated iron." It is dispensed in this city by Wasson's Drug Store and all good druggists.
