Pumps for Daintiness

Cool White Pumps for Dainty Women

Handsome Styles, Leather and Fabric, High Curved Heels, Light, Flexible Soles

There never yet has been such a "white summer" as this promises to be. There are several reasons for this. First—White is essentially cool and clean looking. Second—It is truly a patriotic practice to wear white when possible.

And there is another reason of a bit more personal note why you will be glad to wear White Pumps. There is the most charming array of handsome, summerish footwear at our stores you could hope to see. Each style daintier than the rest. Each number so priced as to make it an object for you to co-operate in making this the "Great White Summer."

### Food Campaign Drive is Urged

Women's Canadian Club Hears Plea for Saving of Foodstuffs—Nation Must Sacrifice

"We've never been asked to sacrifice and we haven't sacrificed yet, but there may be a day when we'll have to, and now is the time to get ready for it," said Mrs. Muldrew of the Canada Food Board, addressing a large meeting of the Women's Canadian Club in the Masonic Temple, Toronto.

Wheat, beef, bacon, sugar, fats, cheese and butter—these are the things we must save, said Mrs. Muldrew, and, having just returned from what Dr. Helen MacMurchy, in introducing her, spoke of as "an historic trip" in the west, she brought many inspiring stories of what the westerners are doing on behalf of production and conservation. She had not heard, she said, of a high school boy over fifteen years of age, in all the west, who had not volunteered as a soldier of the soil. Four thousand girls in the province of Manitoba had started vegetable gardens; 2,000 were raising chickens and six keeping pigs.

A Vigilance Committee.

The commercial travelers in the west have formed themselves into a vigilance committee to report any infringement of the food laws. Mrs. Muldrew said, and she told of one big uniting company with forty travelers which has sent them all on to the land for four months, with the promise to make good any loss they may suffer by way of less pay.

The most precious product in all the world, the speaker said, is white flour, and urged the saving of even a tablespoonful, or even a teaspoonful, more in each home daily.

As to what the new regulations with regard to things have meant, Mrs. Muldrew told of a Toronto firm which,

### Lemon Juice For Freckles

Girl! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of oval white, shake well, and you have a quarter pint of the best freckle and blemish and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply the bottle. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

through cutting out leeches had saved 600 pounds of sugar in a week and lost no custom.

The cleverness of the Americans in changing the names of fish to get into use was delightfully told. The dogfish, for instance, became the greyfish. A demand was created for it, and, Mrs. Muldrew added, with a twinkle in her eye:

"It's splendid, edible fish, but it's the same old dogfish."

Honor to Alberta.

"Hope for the best, but prepare for the worst," was the text taken by Mrs. Buchanan of Lethbridge, who followed Mrs. Muldrew.

"It pains me," she said, "when I know how many men, even in my own district, are seeking exemptions." If she had it to do, she declared, she would have them all go, for "the fiercer the fight the quicker the peace." They talk about production falling down, but even if the Germans came and took it, what good would it be to us?

"Al honor to Alberta," Mrs. Buchanan said. "They have held up the hands of the government in the resolution regarding exemptions."

"Nobody knows better than I how great is the need of labor," she went on. "My husband, myself and one very small boy have worked 100 acres for the past year and a half, and I can tell you there was no daylight-saving for us. We've just worked till we were ready to drop. But in what surroundings we have worked—no sound of guns, no shell holes in the fields, no dead bodies lying about, as in the fields of France."

No Talk of Time.

"Those farmers that went to Ottawa spoke a great deal about the decrease in production if their boys went to the front," Mrs. Buchanan said, returning to the attack on exemptions. "But they never said anything about the time they lost while they were there. They must have spent two days each, 5,000 of them—that means 10,000 days' work lost."

Mrs. Buchanan thought the anti-labor law should apply to "those loafers that are only playing baseball," and objected to the pages full of sports in the papers and also of some of the advertisements. She said the farmer knew his own business, and she did not think it fair that he should be asked to train

#### TURNIPS

This is the week to get Swede turnips planted. They do best in good loam soil that is retentive of moisture. Like most of the root crops, they develop best during the damp, cool fall weather and the advantage of late sowing is that they make little growth during the hot summer months. They develop a succulent tissue in the fall, however. If planted too early Swede turnips are very liable to be checked in their growth during the hot weather, developing a root containing much fibre and lacking in quality.

The turnip rows should be from 12 to 18 inches apart and three-quarters of an inch deep. They should be thinned to about three inches apart. The small white varieties are sweeter for early use. The others need frost and can be stored in the same manner as carrots and beets.

#### ROTHESAY COLLEGE BOYS PRESENT POPULAR PLAY

The Private Secretary was presented Saturday evening by the Senior Debating Society of Rotheray Collegiate School. A large number of people were present and thoroughly enjoyed the performance. The clever work of the participants was appreciated by all and the audience were generous with their applause.

The committee, W. A. Haines, L. Diago, Edsforth, Best, Teed and McCreedy are to be congratulated upon the success of their efforts. Music was furnished by the Rotheray Collegiate School orchestra under direction of Morton L. Harrison. The proceeds of the entertainment are for patriotic purposes.

The cast was as follows:—  
Mr. Marshall..... Gilbert Edsforth  
Harry Marshall..... Ralph Teed  
Mr. Cattleman..... Roy Ings  
Douglas Cattleman..... Lewis Diago  
Rev. Robt Spalding..... Richard Gorham  
Mr. Sidney Gibson..... Arthur Rowan

#### Was Suicide

Ben Guthrie, a returned soldier, committed suicide by drowning in the Amherst dock near the two weeks of wheat, pocketbook and a farewell message was found last night on the wharf by George Barkhouse. A search was made for the body and it was found in the mud a couple of miles from where he is supposed to have jumped. He was survived by his parents and one brother overseas.

#### British Prisoner Gives Account of Unbearable Inhumanity of Germans

London, May 31.—There has been intense here in the reported proposal of the United States government to Germany, through the medium of Spain, in regard to the treatment of prisoners of war, and also to learn what the ideas of U. S. A. subjects are.

As we know, thousands of columns have been written at earlier periods of the war on the subject of inhuman German cruelty to prisoners, but recently the subject has come again strongly to the front. Some papers, including the Times, are running conspicuously, as almost daily features, revealing the unendurable conditions of the German treatment of prisoners today as bad as if it were not so.

The Times of Tuesday printed the following information given by a British journalist who was for two and a half years at Ruhleben, "Giving to the fact that the prisoners receive literally no vegetables nor fats of any description, practically living only on tinned stuff, the condition into which they have fallen is appalling. In his own case, as in that of numerous others, the entire absence of these necessary food constituents caused prostration of the stomach, and owing to the body commencing to feed on its own tissues and muscles, ruptures were frequent."

#### Men Found Out

But one day Mr. Jackson of the United States embassy at Berlin, after being carefully engineered through the show pad, intended a desire to see another part of the camp, and in spite of the efforts of the German staff to prevent him he turned away from the portion which he was being shown and walked to that part of the camp which heretofore had been carefully avoided. He was greeted with cries of "Bravo, Jackson!" by the unlucky men imprisoned there, who shouted, "See, Jackson, No. 5," as the German officials again tried to get him away.

But one day Mr. Jackson of the United States embassy at Berlin, after being carefully engineered through the show pad, intended a desire to see another part of the camp, and in spite of the efforts of the German staff to prevent him he turned away from the portion which he was being shown and walked to that part of the camp which heretofore had been carefully avoided. He was greeted with cries of "Bravo, Jackson!" by the unlucky men imprisoned there, who shouted, "See, Jackson, No. 5," as the German officials again tried to get him away.
