CAPTURED GUNMAN IN MONTREAL TELLS ALL

Gives Information Which May Lead to Capture of His Companions

Montreal, March 18.—Beauchamp, captured gunman, has made a statement to Deputy Chief Charpentier in which he gave information which it is expected will lead to the capture of his two companions, who, he said, were murderers and glibly of several burglaries committed in the city during the last few weeks.

Beauchamp said it was Bourret and Uphonse Foucault who did the shooting. He pulled the revolver, he said, but the barrel stuck and he did not fire a shot. Bourret, he said, was the leading spirit in the gang and planned all the burglaries committed by them.

COOKE GETS FORTUNE

Great Wealth to Western Workman Who Was Earning \$70 a Month

Edmonton, Alta., March 18.—"Jack" Hamber was a cook for \$50 a month at a coal camp in the Poonchontas district, west of Edmonton, until the other day, at wages of \$70 a month and found today he is in a position to sign a check

for anywhere from \$400,000 to \$600,000, left him by a long-forgotten relative, who died recently in Glasgow. Hamber is in Edmonton arranging for a trip to Scotland and says he will become a mine operator upon his return to central Alberta, next summer.

The South Africa Troubles
Cape Town, South Africa, March 18.—The senate yesterday passed the bill to indemnify the government for its acts of last January under martial law. The vote was 25 to 9.

Home Face Peeling Becomes Popular

No complexion treatment yet discovered seems to have become so generally and so immediately popular as the mercurized wax process. Evidently the reason is that this method actually gets rid of a bad complexion, which can hardly be said of any other. To temporarily hide or bleach the defective skin with cosmetics, cannot compare with the effect of literally removing the skin itself. Mercurized wax takes off the offending surface skin in four-like particles, a little at a time, until there's none of it left. The new complexion thus produced exhibits a healthy glow and girlish beauty obtainable in no other way. This was, which you can get at your druggist's, is applied at night in the same way you use cold cream, and washed off next morning.

Here is one thing that actually does remove wrinkles, remove them quickly, and at trifling cost. Powdered vasoline, 1 oz., dissolved in 1/2 pt. witch hazel. Use as a face bath.

favor upon yer humble servant since herewith as follows, yer last summer's vacation landlord,

I. M. KICKIN:

We appreciate Mr. Kickin's interest in the welfare of this journal and because of the fact that he said he'd "take us on" last summer when we were looking for a boarding house in the country and adhered most truthfully to the statement we have no reason to doubt his veracity. Here is the "film" and we have hopes of receiving others from Mr. Kickin in the future.

"Hi Jebbins fooled his hens last week right slick. Gosh, but Hi's got a great brain! He went and got an ole calendar what did service some years heretofore and what he'd 'Easter Sunday' marked up fer March 15. He went and put it in the henry and disfigured me if the dern hens didn't start right in layin' an' Hi's bin gettin' eggs ever since. The trouble is there ain't no more calendars o' that year in the neighborhood, or we could all do the same, an' Hi's secret to take his out again fer fear his workin' staff 'll quit."

A version of Psalm xci, sung on Sunday evening in Edmund street Methodist church contains the following lines:—

"From the sword at noon-day wasting,
"From the noisome pestilence
"In the depth of midnight blasting,
"God shall be thy sure defence."

With the words at Courtenay Bay in full blast the assurance given in the third line was received by the congregation as peculiarly welcome and comforting.

The following has been received touching a matter of serious concern:—
St. John, March 16.

Dear Miss Jones:

I hate to write you this letter for fear of annoying you, but the time has come when I must ask your advice, and judgment on a very serious question, the contemplation of which has caused me many nights of restlessness and worry. You will understand my writing you regarding a matter of so much importance when I tell you that many homes have been upset by similar troubles. Still I feel that you should know the worst at once, for it is all sincerity it may be of great help to you.

I will not tell the troubles of my mind to any of my friends but you, for they are not to be trusted always. So in my trouble I can only go to you. I do not speak to my wife on such a subject. I know I am asking a great deal of you, but for friendship sake tell me from the fullness of your heart, do you think I will ever be as tall as Mast.

Yours Respectfully,

A READER OF THE TIMES

A visitor in the city went to inspect the construction works at Courtenay Bay the other afternoon, and was within a few hundred yards of where they were blasting, when the air was rent with a heavy explosion. As a first means of precaution the young man looked up and, whistling through the teeth, he directed the blast came what he thought was a shower of large stones. Instantly he ducked his head, expecting every minute to hear the stones dropping about him or on top of him. After a few moments waiting he gathered up enough courage to again look up and saw, not stones, but pigeons which had landed on the roof of the Municipal House after being scared away by the blast.

Two ducky little fellows were in the midst of a heated argument yesterday near the Market Ledge.

"This is Tuesday," one of the little fellows said.

"Now, 'aint," replied the other. "It's St. Patrick's Day."

No doubt Halifax enthusiasts will appreciate the old-time nursery rhyme about Humpty-Dumpty.

A despicable trick was that of Tories in the election of 1912, when a very much to be regretted scene was enacted at an open grave. The people of New Brunswick are preparing a scene—a tragedy this time—at another funeral—that of the Conservative party in the next election.

If any of the fair sex find a scold who is not willing to acknowledge his occupation, she will know that he is thinking of what happened an editor in Paris the other day.

Then Now

On January 19, in the midst of a blinding snow storm and with the temperature hovering about the zero mark, a vessel was wrecked on the Trinity Ledges, off the Nova Scotia coast at the entrance to the Bay of Fundy, some 70 miles from St. John harbor. Hardly had
