ORCHARD OPPORTUNITIES

the chief fruit sections of the province.

The book sets forth clearly the advantages the province offers to the man of moderate capital who has a preference for fruit growing, market gardening or poultry raising. It tells of the widespread interest in the province that has been awakened of late, and the forward movement that the province that has been awakened of late, and the forward movement that the late of the average of the control of the second of the control of late, and the forward movement that plied 10 mills of the average size. Only is in progress to develop its orchard industry. Ample proofs of what the province last year, one of these of small caince has done and can do do in fruit rais- pacity. ing are given, with special reference to transportation and market advantages Specific instances are given to show the The Montreal Shareholder wants to profitable return from several orchards know who it is that colors he nev's we and from the cultivation of small fruits.

Estimates of the cost of land and of orchard planting are given, and figures to though American channels and had an show the cost of living and of labor. This

show the cost of living and of labor. This book should be of much value if properly distributed among those to whom it would be likely to appeal. We quote one paragraph:—

"Even were the apple sections of the North American continent producing apples far in excess of the amount needed for home consumption, the prospects for commercial orcharding in New Brunswick would still be very bright, because of the relatively low price of land here and comparative cheapness of production, together with enormous saving in transportation rates. The apple lands of New Brunswick being 800 to 3,000 miles closer to the European markets, not only is the cost

ast year 96.4 per cent. was spruce.

The quantity of wood pulp exported in 1911 was 259,514 tons, valued at \$4,902,862, in average value of \$18.89 per ton. In 1910 the quantity exported was 328,977 tons, valued at \$5,694,896, or an average of \$17.31 per ton. There was thus an intrease in price of \$1.58 per ton in 1911. The lecline in shipments last year was to transtatlantic ports, as the American market took a little more than in the previous year. In fact the American market in 1911 took 99.1 per cent. of the mechanical pulp and 99.8 per cent. of the chemical pulp axported from Canada. It is worthy of a tot that some pulp was imported into Canada last year, in the face of a 25 per an average of silver was spruce.

The success which has attended the work of oiling certain unpaved thoroughfares in the city has induced the city engineer to continue the work upon a number of other streets and for this purpose a further order for oil will be immediately placed.

To date about eighty drums or about 7200 gallons, of California crude oil have been used, the streets first being cleaned of dust and loose materials before the oil treatment is applied. The result has been the prevention of the dust nuisance and the better preservation of the surface. After the first twenty-four hours any unpleasant features have disappeared and the odor of the oil is practically nil. Another order for 200 drums of oil will be placed immediately and the treatment of other streets proceeded with.

When the experiment was first made, two grades of oil were used, a thick oil ast year 96.4 per cent. was spruce.

"Orchard Opportunities in New Brunswick' 'is the title of a book of thirty-two ported from Quebec. The report says:pages issued by the department of agriculture at Fredericton. It is well illustrated with orchard and farm views, and canada, it would have supplied 68 mills of the average size of those in Canada. Thus 122 mills instead of 54 would have been converting in Canada are converting in Canada.

being 800 to 3,000 miles closer to the European markets, not only is the cost of transportation greatly decreased, but our apples can be placed in the consumer's hands in better condition."

CONSERVATE CONDEMNS IT

When the Times directed attention to the fact that an official volume on Canada, issued by Hon. Mr. Hazen's department, had not only shown gross ignorance but had done a great injustice to the Bay of Fundy and the port of St. John, the local Conservative organ grew very angry. The

anada last year, in the face of a 25 per two grades of oil were used, a thick oil and one of lighter variety. The latter has New Brunswick and Ontario exported proved to be the best for the purpose.

HOW LITTLE IT COSTS

One walks in sunlight; another goes
All weary in the shade;
One treads a path that is fair and smoot.
Another must pray for aid.
It costs so little, I wonder why
We give it so little thought;
A smile—kind words—a glance—a touch—
What magic with them is wrought?
—Onward.

THOMAS F. McCAFFREY

Will of Former St. John Man, Lost in Titanic, Probated in

state valued at more than \$100,000. Reference to Mr. McCaffrey's death in that awful disaster has already appeared in The Telegraph.

His will was probated last week in Vancouver. The estate was sworn to as somewhat more than \$100,000, and consists chiefly of British Columbia mining stock as well as a considerable amount of Vancouver real estate.

Beneficiaries under the will are the two sisters of the deceased, the Misses Josephine and Eva McCaffrey, who reside in Montreal, and who are also appointed executrices.

Some of the older generation will remember that about forty years ago the family lived on Fort Howe. The father was a railroad contractor, and his business kept him for the most part in the upper provences. In the family there were four sons and adaughter. The sons were Joseph Edward, Donald John, Thomas Francis and Alphonsus, and the daughter Josephine.

The family moved to Three Rivers Que.) about a year before the St. John ire. There two more children were born as and a daughter—the latter named the for several years members of the contingent to Fredericton to take part in the Old Home Week observance in the contingent to Fredericton to take part in the Old Home Week observance in the contingent to Fredericton to take part in the Old Home Week observance in the capital next month will, with a band that wonth will, accompany them, number nearly 100 men. They also hope, if the arrangements are permitted, to take along No. 1 Salvage Corps horse and wagon and to have the wagon nicely decorated.

At a meeting held last evening in No. 1 Hook & Ladder Company's rooms, Union street, at 5 o'clock on the afternoon of Tuesday. Aug. 6, and half an hour later they will march to the depot to board special cars attached to the Pacific express.

This will bring them to the capital next month will, with a band that company in constitution and wagon and to have the wagon nicely decorated.
