MAGNETIC

## BLOOD-VITALIZER

THE LATEST AND GREATEST  
DISCOVERY OF THE AGE.

The God of Nature's Gift to Man.

Old Dr. PETER FAHRNEY was of Swiss parentage, born in Lancaster Co., Pa., in the last century. Located and practiced medicine in Washington Co., Md., to the time of his death; his medicines have been in use ever since. His renowned **Blood Purge** has done more for suffering humanity than any one single medicine known, but it remained for his grandson, a physician and practical chemist, to bring this invaluable remedy to the present high degree of perfection. The extensive sale of magnetic waters taken from artesian mineral wells bored in some instances to the depth of 1,200 feet below the surface, suggested to him the propriety of using these waters as monstium in the manufacture of his medicine now known as **Dr. Peter's Vitalizer** and thus make a vegetable and harmless mineral compound such as has never been combined heretofore.

**THE VITALIZER** is compounded of over thirty different kinds of imported and indigenous Roots, Barks, Leaves, Seeds and Berries, known for centuries to possess the highest degree of medicinal properties, and will cure all diseases originating in the BLOOD, and is used for
