desidents of Kansas Have Desire to Return to Canada Their Former Home

(From Tuesday's Daily.) There is instruction sometimes in the hotel register, Until it was disclosed and the ore (galena and carbonates) would still remain in the parlor for the reception of Jonny Bull and his island, and some more of the world's tateholds. But Canada in the United States. Here was something to enlist he curiosity of an enquiring mind.

Facts are there was more occasion for astonishment than the paradox of

Canada in the United States," for the address which attracted the reporter's attention relegated Canada to one state of the Union. This was too much for an inquisitive mind to pass by. And did it not involve a disillusionment of the conceit that Canada was such a big territory, much bigger in fact than the whole of the States put together. The address was a rebuke to Canadian pride. So the reporter sought an introduction to A. Burkholder, whose address eccument all these mystificial peculations for enlightenment.

Mr. Burkholder is a sturdy representative of the Mennonite neonle who

tative of the Mennonite people, who have in their settlements on this continent wrought such creditable work. then wrought such creditable work, and achieved such a praiseworthy ideal and achieved such a praiseworthy ideal of good citizenship. He is visiting the they cannot borrow money from the

HERALD

There is instruction sometimes in the hotel register. Until it was disclosed on the Dominion list, for instance, the newspaperman was not aware that there was a Canada within the United States. If there was room on one side of the map or on the other for such a translation, or a geographical visit of one territory to the other, has it not been taught that Canada had room and to spare in her dominions for all Uncle Sam's possessions. An America in Canada would not be surprising. Room would still remain in the parlor for would still remain in the parlor for would still remain in the parlor for the content of the work one in the surface showings are big, and the ore (galena and carbonates) of land, 600 feet wide and several hundred miles in length, will be transferred from Canada to the onited States in Alaska as a result of the work done by a joint survey payty in that country during the past summer. The line of demarcation between the United States and Canada in the Far North is the H11 meridian, which starts from the large empty of the work of the summer at a point considerably to the north of the White river. Accuracy in the matter of fixing in gold, it is confidently to the completion of the telline was done under the direction as it is possible for the men to proceed. The fixing of the line of the 141st meridian stringency is fixed on the official states and country during the past summer. The line of demarcation between the United States and Canada in the Far North is the H11 meridian, which starts from the large empty of the work done will determine the question of the country during the past summer. The line of demarcation between the United States and Canada in the Far North is the H11 meridian, which starts from the work of the summer at a point considerably to the north of the White will be made at the country during the past summer. The line of demarcation between the United States and Canada in the Far North is the H11 meridian, which starts from the work of the summer at a point considerable.

BANKS the line was done under the direction of Governor Oglivie in 1898, the survey being made by the culmination of the moon. The method used at the time did not admit of mathematical percision, but the result was astonishingly line, was astonishingly and the completion of the completion of the calculations being may be necessary.

It was announced to-day that several of the banks which were compelled to suspend last week have about perfected their plans, for resuming completion of the completion of the telescance of the party who were engaged in the work during the summer service passed through the city perfected their plans, for resuming completion of the completion of the telescance of the party who were engaged in the work during the summer service passed through the city perfected their plans, for resuming completion of the comp

Jump in Discount Rate. Berlin, Oct. 29.-The discount rate of

the Imperial Bank of Germany was raised to-day from 5½ to 6½ per cent. It is significant of the changed situa-tion in the market here that the advance is a full one per cent. The change is directly due to the New York demand for gold, which it is feared here will lead to gold exports from Ger-many. The exchange rates of the leading countries are now above the hold point. The market had expected the German bank to await the Benk of England's action, but yesterday's gold engagements in London for New York apparently rendered immediate action

Prices in London. London, Oct. 29.—The rise in the discount rate of the Imperial Bank of Germany had a depressing effect upon the markets here. Consols early in the day declined 7-16 for the account of the years of age, and leaves a widow.

Toronto, Ont., Oct. 29.—Frank B. Polson iron the managing director of the Polson iron works, died suddently of heart failure yesterday. He was day declined 7-16 for the account of the years of age, and leaves a widow.

They will employ 150 axemen, will pay thirty-seven and a half cents an hour and will charge \$5 a week for board. The job will last until March 1st.

W. P. Anderson has 150 axems at work. They will employ 150 axemen, will pay thirty-seven and a half cents an hour and will charge \$5 a week for board. The job will last until March 1st. 82 1-16 but recovered to 82% at noon.
