ing into Politics. Chicago, March 25 .- Chicago wheelmen, claiming to control 50,000 votes, and perhaps will give cheaper service are going into politics. They are plan ning to organize a bicycle party. The first step toward the formation of this party was taken last night at a meeting of the joint committee of the League of American Wheelmen and the Associated Cycle Clubs of Chicago. ject of the meeting is to secure laws favorable to wheelmen. The principal one demanded by the wheelmen is a state law compelling railroads to carry their bicycles free, like other baggage when accompanied by a passenger holding a first-class ticket. They insist that what is fair in New York, Ohio and Missouri should be fair in Illinois. They declare that they will have such a law or they will wage a political war against the party that balks them. The joint committee will probably meet again tonight. The political action committee of the Associated Cycle Clubs will also between the Pacific Mail and the Toyo be called into session.
