Something more than a sensation was caused on Tuesday by the announcement that His Majesty, King Edward, was dangerously ill having undergone a surgical operation, that his life was endangered and the Coronation ceremonies and celebration appointed for to-day were indefinitely postponed. A successful Linguist.

The King is so excellent a linguist, that when he goes abroad he can adapt himself with the greatest ease and tact to the various countries he visits. His French is as good as a Frenchman's, and his German is almost as exact in its mastery of accent and idiom. This gift of languages has much to do with the King's charm as a host. He can turn from one foreign guest to into the compliment in the tongue most familiar to them.

An instance may be given of the King's readiness to grasp the humor of a situation. King Edward is highly emotional, and this fact is the key to his char-acter. It explains why he has so often done the right thing at precisely the right moment, and also why he has occasionally made great mis-takes. He is a first-rate man of business—punctual, precise, and prompt in action, He is most affec-tionate in his nature, and the most loyal of friends. He is thoroughly British in his tastes, a keen sports-man, a hater of humbug, a lover of courage.

A few words may be written concerning the Princess who was destined to become Princess of Wales. Princess Alexandra Caroline Mary Charlotte Louisa Julia was the eldest daughter of Christian IX. of Denmark by his marriage with Princess Louise, daughter of the Landgrave William of Hess-Cassel. She was born on December 1st, 1844, so was at the time of first meeting the Prince of Wales seventeen years old. at the time of first meeting the Prince of Wales seventeen vears old. It was not until the death of Frederic VII., at the end of 1863, that this Prince of Denmark became King of the gallant little country which went through so many conflicts in the nineteenth century before it was allowed to retain its independence. But in 1852 he had been recognized as the heir to the throne. A great deal of the wisdom with which he ruled Denmark was attributed to the shrewd advice of with which he ruled Denmark was attributed to the shrewd advice of his Royal cousort, whose death in September, 1898, was a great grief to all the family, and particularly to the aged King.
