YOUNG SHAH TAKEN TO IMPERIAL PALACE

Affecting Scene at Parting With Parents

Ex-Shah Accepts His Portion With Oriental Philosophy--City Little Damaged from Rifle Fire

LONDON, July 19--The Tehran correspondent of the Times describes the affecting scene at the parting of the young Shah from his parents. Both his mother and father broke down at the thought of parting with their favorite son, and offered their second son in his place. The boy wept bitterly in sympathy with his parents and at first declined to leave his mother. Finally their majesties being informed that it was the people's will and that there was no alternative, were persuaded to agree to the departure of the youthful Shah.

When the formalities were concluded, the boy still continued to weep and it required a stern admonition to the effect that crying was not allowed in the Russian Legation before he dried his eyes. Then the little man came out bravely and proceeded to the palace where his mother is free to visit him. The ex-Sultan accepts his strange position with oriental philosophy and shows no lack of personal dignity. He expresses a desire to live in the Crimea.

There is some obscurity, says the Times correspondent, about the reasons that induced Mahamed to abandon the struggle but the final result is highly honorable to him. Much credit is due the Russian and British representatives for their firmness in resisting pressure to call in the Russian troops.

The city received very little damage from the rifle fire. The twin tubes given over to traffic today connect down town New York with the New Jersey mainland a whole and with the Pennsylvania station on the Jersey shore in particular. Two weeks from today it is planned to complete this system by opening the traverse tunnel connecting the terminal of the river tunnel at the Pennsylvania station with the Erie and Lackawanna stations. The extension of the up-town line is planned from Twenty-third street to the Grand Central station in period in two or three years.

TWO MORE ADDED TO NEW YORK'S TUNNELS

McAdoo Tubes Under the Hudson Opened Today--Will Facilitate Travel.

NEW YORK, July 19--Two more of the subterranean ways by which New York is drawing closer its suburbs quickened with life today when the first electric train of steel cars whizzed through the new "McAdoo Tube" from the Church Street Terminal in New York to Jersey City. The two tunnels opened today are only a step in the plan which in a comparatively brief time will relay the New York and New Jersey from the south end of the country in fact--to the train car without leaving his train for a cab, trolley car or ferry. The opposite banks of the lower Hudson now are only three minutes apart.

HAMILTON, Ont., July 19--Arrangements are being made to extend an enthusiastic welcome to members of the Bisley team belonging to this place on their return from England in honor of the splendid showing made by the team at the big rifle meet.

TRAGIC DEATH OF ALBERT CO FARMER

MONCTON, N. B., July 19--News of the somewhat tragic death of Edward Duffy, a prominent and well-to-do farmer of Lower Coverdale, Albert County, reached the city about one o'clock this morning. It appears that Mr. Duffy, late yesterday afternoon, left his house to go after the cattle. He failed to return after quite a lengthy absence and those at the house became alarmed and search was made for him. In a field not far from the house the searchers were shocked to find Mr. Duffy's dead body. He had apparently been stricken down with heart failure. Mr. Duffy was well known in the Parish of Coverdale. He was unmarried and an unmarried sister kept house for him. He was about sixty-five years of age.

LATHAM'S DARING ATTEMPT TO FLY FROM CALAIS TO DOVER RESULTED IN FAILURE

French Aviator Started at Sunrise This Morning Under Perfect Conditions --Motor Stopped and He Fell--Man and Machine Were Both Rescued.

CALAIS, July 19--Herbert Latham, the French aviator, after waiting for over a week for a favorable opportunity to attempt a flight across the Channel from Calais to Dover, made a start this morning, but after covering about 16 miles and while at a great height the motor failed and the machine fell into the water. The French torpedo boat destroyer Harpon was close at hand when the accident occurred and rescued both Latham and his monoplane. Latham's start was made from the edge of the cliff at Sangatte under the most propitious circumstances. A stiff breeze which was blowing yesterday subsided at dusk and the clear start night indicated that perfect conditions would prevail at daybreak for the long delayed attempt.

MOOSE PLENTIFUL IN NORTHERN WOODS

Train Crew Counted Twenty One Today

Took Three Policemen, Two Constables and One Mayor to Arrest Man Who Stole Three Weddings.

MONCTON, N. B., July 19--There will be, apparently, plenty of moose for the sportsmen who invade the northern woods of New Brunswick this fall. Trappers every day report seeing moose along the line of the Intercolonial and this morning between Bathurst and Newcastle, the train crew of the Maritime express counted no less than twenty-one heads of the forest. On the Chatham branch between the Junction and the town, a large bull moose has been seen within a few miles of town for several days past.

CHICAGO, July 19--Jack Johnson after acting as umpire at a ball game here yesterday, sparred three brief rounds on the ball field with his sparring partner. That Johnson was not in condition to meet anybody outside of a lightweight for some time to come was apparent. That he will never clash with Jim Jeffries was volunteered by himself.

SACKVILLE, N. S., July 19--A gentleman who was recently a resident of Sackville, Rev. S. T. Bartlett, was one of the men who were to the fore at the monster International Epworth League convention, which has just been brought to a conclusion at Seattle, Wn. Mr. Bartlett was present in his capacity of general secretary of Methodist Sunday schools and Epworth Leagues in Canada. He was greeted on rising to address the convention by the Maple Leaf. However, the entire audience of nearly eight thousand people joining in. "The average age of the Epworth League is too old.
