NOVA SCOTIA NEWS.

WOLFVILLE, N. S., Nov. 4.-The coal barge built by Gaspard Roy to carry coal up the Cornwallis river to Kentville has developed several cases of smallpox, and was quarantined at Kentville. The other night she was scuttled, a number of holes being bored in her, and in a short time she sank and only her deck house is to be seen. She will probably be raised and repaired.

Eleven Angora goats have been imported to Hantsport by J. W. Churchill.

Mr. Scott Robinson, formerly of Wolfville who has been engaged in newspaper work, has gone to California to settle.

Over 7,000 barrels of apples were picked this year from the fine orchards belonging to the Stacks in St. John's Point. Many orchardists in Cornwallis this year will net from three to four thousand dollars.

A. V. Pines, who has been practicing law in Wolfville for some time, has entered into partnership with W. P. Shafter, and will remove to Kentville, where he has purchased a residence.

CLERGYMAN'S CHILDREN.

Coffee Being Replaced by Postum Food Coffee.

"I am the wife of a minister. About three years ago a warm friend, an experienced mother and conscientious wife of a minister, asked me if I had ever tried giving up coffee and using Postum Food Coffee. I had been telling her of my excessive nervousness and ill health. She said: 'We drink nothing else for breakfast but Postum Food Coffee, and it is a delight and a comfort to have something that we do not have to refuse the children when they ask for it.'

"I was surprised that she would prefer the children to drink any kind of coffee, but she explained that it was a most healthful beverage and that the children thrived on it. A very little thought convinced me that for brain work one should not rely upon a stimulant such as coffee, but should have food and the very best of food.

"My first trial of Postum was a failure. The maid of all work brought to the table lukewarm, weak and altogether lacking in character. We were in despair, but decided on one more trial, we faithfully followed the directions, used four teaspoonful of the pint of water, let it boil five minutes after the real boiling began, and served it with milk cream. It was delicious and we were all won over.

"I have since sung the praises of Postum Food Coffee on many, many occasions and have induced numbers of friends to abandon coffee and use Postum, with remarkable results. The wife of a college professor said to me a short time ago that nothing had ever produced so marked a change in her husband's health as the leaving off of coffee and the use of Postum Food Coffee." Edith Smith Davis, Appleton, Wis.

SEE THAT THE FAC-SIMILE SIGNATURE OF EVERY BOTTLE OF CASTORIA. Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of INFANTS CHILDREN. Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC.

SIR CHARLES TUPPER Talks About the Fast Atlantic Service and Other Things. SYDNEY, Nov. 11.-Sir Charles Tupper has fully recovered from his slight cold of the Sunday. In an interview with the Herald tonight, Sir Charles stated that the fast Atlantic service would have been in operation in 1888 had Lord Aberdeen signed the contract he (Sir Charles) had entered into with the Allan. He saw no reason why Nova Scotia should not be as famous for iron and steel shipbuilding. Sir Charles also saw no reason why Cape Breton coal should not be marketed for the European markets, but he thought it would be more to Canada's interest that this coal and iron be utilized in the manufacture of steel rails and in the construction of the protection sentinels a question if the protection sentinels was not gaining in England. Sir Charles replied, "Decidedly it is." He cited the regulations of the British Government prohibiting the importation of live stock from Canada into England as being highly protective. Sir Charles and Lady Tupper leave here on Wednesday morning for the West.
