irregularities and Female Derange-ments Result - Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not

ne woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret

of so many unhappy homes.

No woman can be amiable, lighthearted and happy, a joy to her husband and children, and perform the duties incumbent upon her, when she is suffering with backache, headache, nervousness, sleeplessness, bearing down pains, displacement of the womb

spinal weakness or ovarian troubles.

Irritability and snappy retorts take
the place of pleasantness, and all sunshine is driven out of the home, and lives are wrecked by woman's great enemy—womb trouble. Read this letter:

Read this letter:
Dear Mrs. Pinkham:—
"I suffered for four years with what the doctors called inflammation of the fallopian tubes, which is a most distressing female disease, undermining the constitution and sapping the life forces. If you had seen me a year ago when I had begun taking Lydia E. Pinkham's Vegetable Compound, and had noticed the sunken eyes, sallow complexion and general emaciated condition, and compared that person with me as I am to day, robust, hearty and well, you would not wender that I feel thankful to you and your wonder that I feel thankful to you and your wonderful medicine which restored me to new life and health in five months. My friends all marvel at the change it has made in me, but none can appreciate it better than I can myself."—Miss Irene Hapgood, 1022 Sandwich St., Windsor, Ont.

Claim Injunction is Ridiculous.

Maine Lumbermen Say New Brunswick Concerns Want But Gannot Have the Entire Aroostook Growth.

(Bangor News.)

The case regarding the obseruction of the St. John river by the St. John Lumber Co. is considered by the Maine lumbermen along that river as not only ridiculous, but totally uncalled for, and it is a well known fact that the New Brunswick contention will be bittery opposed. The great bone of contention in con-

nection with this method is the alleged delay in getting the logs to the lower points. As a matter of fact, the er booms are used everywhere or the river, and save a great expense in driving. They have been used for for the past 25 years, and hitherto no fault has been found with them Speaking of the delay in getting loga ten days, when it is believed he set to their respective booms, what little delay there is, is wholly immaterial to

THE EMPIRE'S NEED. at Chubb's Corner (so-called), corner

Col. Denison Writes to the **London Times**

Showing That Salisbury Had Been Impressed With Need of Better

fiscal Relations Between England and Colonies.

LONDON, May 17.—The Times today contains an interesting letter from Lieut. Col. G. T. Denison of Toronto in which the president of the British Empire League in Canada makes it very plain that for years before his death, the late Marquis of Salisbury had been impressed with the urgent need of a revision of the fiscal relations between the mother country and the outlying portions of the Empire. The letter is most valuable contribution to the literature on the fiscal issue, proving unmistakably how the great premier had studied the signs of the times and how desirous he was that some commo basis could be found by which the bonds of Empire could be strengthened and made more permanent.

TEXT OF THE LETTER.

The text of Lieut. Col. Denison's leter is as follows: "The controversy which has lately een going on in the press in Great Britain, over the question of the late Lord Salisbury's views on protection and preferential tariffs, has excited considerable interest in this country. As I am in a position to throw some light upon the premier's opinions on these questions, I would ask your permission to say a few words. I was for some years president of the Imperial Federation League in Canada and since it was merged in the British Empire League I have held the same position in that body. In 1890 I was appointed specially to represent the Can-adian League in England, for the purcose of advocating the denunciation of the German-Belgium treaties, and of urging the establishment of a system of preferential tariffs between Canada and the mother country.

FAVORED AN EMPIRE ZOLL-

VEREIN. In two interviews with Lord Salis bury I urged both points upon him as strongly as possible, and pointed out to him that our league had taken up the policy of preferential tariffs, in order to counteract the movement for commercial union or unrestricted reciprocity between the United States and Canada, which at that time was a very dangerous agitation. After hearing n arguments, Lord Salisbury said that he felt that the real way to consolidate the Empire would be by a zollverein and a kriegsverein. This was substantially our policy and I begge "Soon after the of him to say something on that line publicly, as it would be a great help on behalf of imperial unity. He did not say whether he would do so or not, Mayor's banquet at Guildhall, in November, 1890, he made a speech which attracted considerable attention, and which gave us in Canada great encouragement. He spoke of the hostile tar-

iffs, and said: "Therefore it is that we are anxious. above all things, to conserve, to unify, Dated the seventeenth day of April, to strengthen the Empire of the Queen, because it is to the trade that is carried on within the Empire of the Queen Referee in Equity for the City and that we look for the vital force of the commerce of this country.

At Hastings on the 18th of May, 1892,

HE SHOWED HIS CAUTION. We carried on a correspondence for many years, and I saw him on several occasions when I visited England. We discussed the policy of preferential tariffs, and the denunciation of the German-Belgian treaties, which were denounced by his government in Au- Is just out. It gives our terms, courses gust, 1897. His letters to me show of study and general information re-

us, but he was a statesman with great caution, and evidently would not commit himself to practical action in regard to either preference or fair trade as long as he believed that the prejudice against any taxation on articles of the first necessity was too strong to be overcome. The following extracts are taken from letters received by me from Lord THERE ARE YOUNG pope will not permit the Prince and Salisbury, and they give a clear idea of what his opinions were.
