

THE WEATHER

MARITIME—Fresh to strong westerly to northwesterly winds, clearing and moderately cold.

Toronto, Nov. 15.—The disturbance which was last night over the middle Atlantic coast is now centered over Nova Scotia, and is gradually dispersing while pressure is decidedly high over the greater part of the continent. Snow has fallen again today in Quebec and snow and rain in the Maritime Provinces. No cold weather of any portance prevails on the continent.

Table with columns for location, Min, and Max. Locations include Allin, Victoria, Vancouver, Edmonton, Calgary, Prince Albert, Moosejaw, Winnipeg, Fort Arthur, Parry Sound, London, Toronto, Ottawa, Montreal, Quebec, St. John, Halifax, Lower Lawrence and Gulf.

AROUND THE CITY

The Strike at St. George. A correspondent of The Standard at St. George states that the strike of the pulp workers is still on.

Go to Fort William. Manford Scholes, who for years conducted a blacksmith shop at St. Martin, left on the Montreal train last evening with his wife and three children for Fort William, Ont., where he will reside.

Concert Last Night. Excellent vocal and instrumental selections marked the concert held in the vestry of the Leinster street Baptist church last evening. Rev. Wellington Camp, the pastor of the church, presided. A excellent programme was rendered.

Dr. Black Buys Another. Through a transaction completed by Allison and Thomas, yesterday, the freehold property, 50x125 feet, with one-family tenement and a two-family house with a store front, at 26 and 28 1/2 Clifton street, Carleton, was sold to the St. John real estate holdings of Dr. G. A. Black of Boston.

Will Invest More Here. Despite the pleasing news of a \$600 investment in Saskatoon real estate having increased to a valuation of \$1,500, a prominent St. John business man who holds the title of the property sits St. John investments precisely his whole attention, basing his judgment on a boom that he believes is sure to carry benefit.

St John Capital in Moncton. By way of diversion, a syndicate made up of St. John business men of capital, are investing in Moncton real estate. A big buy in the railroad city that is on foot involves an investment of \$100,000. The St. John men of one-third of the gross amount. The property purchased holds out as good prospects as can be found in the city and the investment is taken as an indication of the business foresight of our local men.

Stole from River Steamer. A thief boarded the river steamer Ocoee at her wharf at Indian town on Thursday evening last and succeeded in making away with our dollars, the property of one of the firemen. Although it is not known at what hour the robbery was committed, the cook of the steamer states that as he was going on board at about eleven o'clock he saw a man on the deck whom he thought was the captain. The captain, however, was in his cabin at that hour and it is probable that the man on the deck was the thief. No trace of the thief or the money has since been found.

Interesting Lecture Tomorrow. "Jesus proved for all time and for all Christendom that the origin of disease was mental and he healed it with mental medicine. He gave himself no concern about physical symptoms, but he destroyed what caused them. He cared little about what the sick man had been eating, but much about what he had been thinking. He said in so many words, 'It is not that which goeth into a man which defileth him.' You will find lots of good things like above extract in Mr. Rathvon's lecture on Christian Science, in the Opera House, tomorrow, Nov. 17, at 3 o'clock. The seats are free and no collection will be taken.

SAYS AUSTRIA IS PREPARED TO FIGHT

Former Austrian Naval Officer in City Last Night, Declares Balkan Trouble will Not End Soon.

"The end of the Balkan war is not as close as it would appear from reports," said M. Gatterer, a former officer in the Austrian army, who was at the Royal last evening returning from a hunting trip to the North Shore. The ultimate outcome of the present war is problematical, Mr. Gatterer said to The Standard, and the possibility of complications developing and involving the greater European powers is by no means past. As regards his own country, Austria, the aide-mains of Serbia for a seaport on the Adriatic is considered excessive by Austria and it is his opinion that should the former persist in claiming this as one of the fruits of the war, Austria will maintain the uncompromising stand she has taken and fight against the claim. She is thoroughly prepared to fight both on land and sea.

Premier Resuming was in the city last night and will leave for his home this morning.

HOW THE SCHOOL SAVINGS BANK SYSTEM OPERATES

Interesting Information for Parents whose Children are being Taught Thrift in Practical Manner -- How Deposits are Made -- The Records Kept.

Because the explanation of child students as regards the method of operating the penny savings system has been found inexplicable to some parents, The Standard is able this morning to give in detail the method in operation in St. John. The benefit to the students is apparent although the extra work that is placed on the teachers and principals, as well as the interference with work in the early grades may be little appreciated from the reports that are handed in at home by the scholars themselves. One thoroughly in touch with the system when seen yesterday, gave details as follows:

The saving system is in operation in four of the city schools, namely: Dufferin, St. Malachi's, Winter street, and the Albert. It began on Oct. 1. Keeping Accounts. The material supplied to each school consists of a case with the name of the school for which it is intended printed upon it, a number of small cash boxes, twilled cotton cash bags, cash books, tags, blanks, etc., for the teachers and pass books for the pupils. The time required for the work varies according to the number of depositors and you will find that instead of being able to do the work in five minutes, as has been stated, that it would require by depositors having from 20 to 40 depositors--and there are several such departments--an hour or more.

Young Depositors Troublesome. From the financial point of view it may be said that the system is a cause of great deal of trouble to the teachers and it is said that some pupils, who had savings accounts for the purpose of depositing in their school accounts. On the other hand, some pupils opened an account for a few cents the first day deposits were made and have nothing to their credit to the present time. Pupils have also lost pass books which necessitated the entry of blanks by the teachers and sending them together with 2 cents each, for another pass book. In other cases where pass books have been lost, no request has as yet been made for another. The teachers of the lower grades complain that the discipline of their rooms is materially affected on depositing days as the children's minds seem to be more on their pass book and money than on their work.

Depositing System. The deposits are made by the pupils once a week--every Monday either before or after school. When a pupil makes a deposit for the first time he must first fill in an "index card" stating his name in full, day, month and year of birth, residence, name of school and date. If pupils can not do this themselves, as in case of first or second grade pupils, then the teacher must do it for them. Then done, the pupil hands his card and money to the teacher who makes the entry in her cash book, giving name of depositor, number of pass book and amount of deposit. She also enters the amount of deposit in a pass book which is given to the pupil. When subsequent deposits are made the pupil must always produce his pass book and the teacher enters the amount of deposit in her cash book and pupil's pass book. If a pupil loses his book, he can get another by paying two cents. He may also invest as small an amount as one cent at a time.

A DAY IN A BOY'S LIFE. Local Slaughter Houses will Close Next Month -- Meet Dealers Discussing Possibility of a Bg Abattoir.

How Twelve Year Old Jacob Holtzman Works for Few Cents per Day -- Charged with Stealing.

In the police court yesterday afternoon Jacob Holtzman, a twelve year old Hebrew boy, was before Magistrate Ritchie on the charge of having stolen a bundle of newspapers from E. G. Nelson's doorway on King street yesterday morning about seven o'clock. The boy's father, who is a junk collector, was in court looking after the interests of his son.

In response to questions by the magistrate the boy admitted stealing the papers. He stated that he arose from bed at 5:30 o'clock in the morning and purchased the morning papers and sold them about eight o'clock when he returned home for his breakfast. He then sent his books home with his sister while he pursued even- ing duties. He stated that he arose at 6 o'clock in the evening. After he obtained his supper he had to attend a Hebrew school where he was taught the Hebrew language and the Hebrew religion. When this was through it was time for him to go to bed.

The magistrate pointed out to the father that the boy was not getting half a chance and was being overworked by the father. His Honor pointed out that the boy should be allowed to sleep until at least seven o'clock in the morning and as he had to attend school in the evening he should not sell papers in the morning.

The father explained to the court that the boy made an average of 75 cents per day by selling papers and as he had to pay fifty cents a week for his tuition from the Rabbi he asked the court if his boy could not be allowed to sell papers in the afternoon. He stated that he wished his son to get out of bed before seven o'clock in the morning as the family had papers before breakfast.

On the father agreeing to stop the boy from selling papers in the morning and being allowed to attend from five to six o'clock in the afternoon, the youngster was allowed to go on suspended sentence of four years.

Where is Joseph Cox? The Tourist Association are in receipt of a letter from William Cox, of 125 Bengal Road, Belfast, asking for information regarding the present whereabouts of his brother, Joseph Cox, who left his home 18 months ago for St. John and intending to proceed to the west. The missing man is about 6 feet 6 inches in height, of fair complexion, and has blue eyes. His brother is anxious to have any news of his forwarded to him.

MILK WILL COST MORE ON MONDAY

Farmer Jumps Price, Dealer Follows Suit, and Consumer Pays

EIGHT CENTS PER QUART ON MONDAY

St. John Milk and Cream Dealers Association Formed--Conditions Responsible for the Higher Rate.

On Monday, Nov. 18, the price of milk in the city will be advanced to 8 cents. This action was decided on at a largely attended meeting of the milk dealers of the city last evening when an organization was formed to represent the interests of the milk dealers. The milk dealers claim they have been forced to advance the price of milk in order to satisfy the demands of the farmers who have insisted on getting higher prices. They also say that the expense of handling the milk has been increased, owing to the necessity of providing better equipment to meet the requirements of the board of health, the increase in rent, and the general increase in the cost of maintenance of horses, carriages, offices.

The farmers have demanded more for their milk because they claim that the increase in the cost of food, and labor, and other factors in production has made it impossible to sell milk at the present price and make a profit. The dealers also say that the general increase in the cost of labor has added to their expenses.

Mr. Mack has been elected in St. John for 7 cents for about seven years. At the meeting last evening the following officers of the new association were elected: President, A. E. Macaulay, secretary, J. M. Riley; treasurer, B. M. Levesque; executive, J. Hannah, C. N. Hubbard, D. Mabee, H. Mackenzie, C. Curton.

NEW OFFICE REQUIRE BY SUPERVISOR

Immigration Department Must Move Soon--Several Suggestions as to New Quarter--but Nothing Decided.

Owing to the good results which have attended the opening of an office in a central part of London by the present provincial government, the immigration officials are now urging the government to secure a new office in St. John, more suited to the purposes of the department. At present the office of the superintendent of immigration is located on the first story of a building, entered from a side street, and is a building of the old government doubtless in accordance with the habits of the officials who are commensal, the immigration officials would prefer to have a building on one of the principal streets of the city. The Merchants Bank has purchased a new building at the corner of Church and Prince William streets, and intends to put up a new building there. The government officials have to remove to their local offices, probably next spring.

Mr. Gilchrist, the superintendent of immigration, thinks that an office on Prince William street, with a show window in which displays could be made illustrating the opportunities in the province, would be an efficient means of inducing many immigrants. The new home in the winter time to attend their idea of going west and settle in New Brunswick.

Another man interested in the progress of the province, suggested to The Standard reporter that steps should be taken to open a hall on the West Side, where the immigrants could be entertained and where they would have an opportunity to see exhibits of the natural resources of the province, pictures, literature, etc. He added that it might be arranged to have moving pictures of summer scenes in the province shown in the hall, and also lectures upon the opportunities of the province.
