Special Sales.

There are two kinds.

One, the special sale, when prices are reduced for one day or one week or any stated time, after the expiration of which the goods return to the original prices.

The other, the special sale, when prices are reduced and stay reduced until the goods are sold.

All special sales at special prices at this store are of the second mentioned sort. Goods once reduced are never marked up again.

We have just started housecleaning in several departments, and would direct the attention of out of town folks to the benefit they will derive by ordering by mail.

The reduced lots are abundant enough to last two or three weeks, giving ample time to outside buyers to get their orders here in time.

Special priced goods are subject to the same conditions as regular priced goods.

"Your money back if not satisfied."
