GOLD 7-30 LOAN.
A profitable and secure investment.
THE Northern Pacific Railroad Company offer to the public an investment security which combines the ready negotiability, the convenience, and the high credit of a first-class Railroad Bond, with the solidity and safety of a State Mortgage on Land worth at least twice the amount loaned.
Profits. An officially reported, the gross earnings of the present Pacific Railroad (Union and Central) for 1871, the second year of through business, (December earnings estimated) reach Seventeen Millions and a Quarter. Of this, 45 per cent. is from Local business, and it is stated, fully 50 per cent. or more than nine and a half Millions are net operating expenses.
An equal total on the Northern Pacific Road will pay a dividend of more than 94 per cent on its total cost. With its great and unappreciated advantages in distance, grades, climate, and tributary fertile country, the Northern Pacific is assured of a vast and profitable business from the outset, with a large increase for the future.
The Value of Land. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lands, is \$7.10 per acre - the highest average of any grant being \$13.90, and the lowest \$3.07. With few exceptions, the average selling price of the lands of the Northern Pacific Road are admitted, by all who have seen them, to be better than 20 per cent. above those of most other grants, but sold at the general average of \$7.04 per acre, they will yield more than \$10,000 per acre and more than three times the possible cost of construction and equipment; or at the lowest average of any grant, (\$7.10), they will produce more than \$70,000 per mile. These facts regarding Pacific Railroad earnings, and the market value of also on a grand scale, shown by actual sales of settlers, show the three-fold safety of Northern Pacific Railroad Bonds.
Construction. The road is now completed across Minnesota, (255 miles); work is progressing westward through Dakota, and 65 miles are under construction on the Pacific coast. Contracts are for the construction of 55 miles more, to be finished before the 1st of July.<
