I had great satisfaction in concluding with the provision of the Act of 1870 for the mutual surrender of fugitive criminals. I am engaged in framing similar arrangements with other powers My Government has taken steps intended, to prepare the way for dealing more effectually with the slave trade on the east coast of Africa I have cheerfully given my assent to au Act of the Legislature of Cape Colony for the establishment in that colony of what is now generally known as responsible Government.

Gentlemen of the House of Commons : My acknowledgements are due to you for the ample provision which you have made for the varying exigencies of the Public service.

My Lords and Gentlemen : Although the wants and expectations of the country seem to outstrip every effort of Parliament in its care of legis tive improvements, I notice with gra tification the main additions which you have been enabled to make during the the Ontario Assembly, in the place o gued to provide for the more easy punishment of offence at which meeting of the yeomanry of the riding numanity and the honor of the Returning Officer, presided, empire. The Act for the localization of the army, while it strengthens the de reading the Writ, and the usual formal fensive system of the country, will lend documents, John Patterson, Esq., prosecure alike the independence of vote and member of Parliament. Although you have been unable during the present session to mature any measure directed against corrupt practices in the choice of members of the House of Commons, I observe with pleasure that the cognate ated to check existing evils, and which provides a tribunal for trying the validity of such elections. great efficiency of the training of the young throughout Scotland, in accord

OFFICE 11 CLAREMOUNT STREET. Off University Road, Dablin, 27th July, 1872. MY DEAR SIR -The numerou riends I have assisting me in obtaining arm laborers and servant girls for Canada, write to me and tell me that from the 15th of pext month they ould get a good number of firm labo ers and domestic servants if they wer ssisted to the amount of £3, leaving them to pay £1 5s, of course they giving a written engagement to pay the £3. It inside a month I get money to advance I would guarantee to send over 100 of each class mentioned, the £4 5s passage will work well I am sending som every week, but it has not yet had time o prove itself. Next spring, if they are continued, an immense number will take advantage of them. I had some difficulty convincing them that they would not have to repay £2 1s or be in any way bound when they would land in Quebec; they thought it was some-what like the Ottawa Valley Emigration Society's assistance. I am glad to have to tell you that I have got copies of letters from the emigrants of last Apr. ber of the electors of Ramsay inadvertently omitted to be placed on the voter's
list for 1871, and which I regret very
much, I deem it expedient to make some explanation about the error, I will have them inserted in the daily is a model old Christian lady, and looks which, if not satisfactory as regards the disfranchisement of the electors, may Canada complain of help, let them send birthday yet. After a long delay—a month behind the proper time—I have succeeded in making out all the cheques for the Legislative grant to the schools of this county, and forwarded them to the who were the district of 1872 would be the one used. In the meantime I was not aware that the list of 1871 showed any omissions. The first notice I had not aware that the list of 1871 showed any omissions. The first notice I had not aware that the list of 1871 showed any omissions. The first notice I had not aware that the list of 1871 showed any omissions. The first notice I had not make the caportionment, and send the chequesto the Township Treasurer, with not aware that the list of 1871 showed any omissions. The first notice I had not make any omissions being on the list was through Mr. W. Templeman, who came to my office one evening a few days previous to the nomination to ascertain it was true that Mr. Alexander Sinclair was omitted. Upon turning up the list was true that Mr. Alexander Sinclair was omitted. Upon turning up the list I, to my surprise, found it was so. I then commenced and made an examination of the assessment roll of 1871 and found there were several others also out the Trustees' order, properly drawn out, addressed, signed and sealed.—I then commenced and made an examination to the Trustees' order, properly drawn out, addressed, signed and sealed.—I then commenced and made an examination to the Trustees' order, properly drawn out, addressed, signed and sealed.—I then commenced in the townships hev the onir over the most richest, and most numbers are point over numbers, and I don't whose names, through some unforseen or the superannuation to the Superannuation to the Superannuation out, addressed, signed and sealed.—I then the most richest, and most numbers are point over numbers, and I don't whose names, through some unforseen or the list was true that the list of 1872 would be chequesto the Township Treasurer, with the case of male teachers to retain the sum of Two dollars half-yearly as their subscription to the Superannuation to the Superannuation of the properties of the properties of the properties of the cacher and the sum of Two dollars half-yearly as their subscription to the Super tame to handay ness the devours yare would be used at the said election. He trick and mutin, and egs, and wood, and very kindly turned up the law on the turkeys, and soteray; and I wood now subject and favoured me with the follow-work of apportionment, four Townships investors to pause and consider,

to send in their Reports both half-yearly and yearly, within the prescribed time, i.e., the half-yearly within ten days of the close of the schools; and the yearly to go as it is. If I could assist you in any way to make it straight I would gladly do so, but the 10th Sub. Sec., of Sec., 7 of the Election Act of 1868-9 (Ont.) says that no person shall be admitted to vote unless his name appears gence. They are also liable to be fined before the date of the writ. And Sec. 8
provides the only remedy for amending the list, and it must be done before the desire to see the law enforced in such cases of neglect, still I say that it is a just provision, and should lead Trustees, and Teachers tor, to be more punctual As some seem to be of the opinion that and careful, with their annual and t was the list of 1872 which was used, semi-annual Returns. As it has been since my appointment to the office of it was the list of 1871. Had it been the luspector, the work of apportionment of money which I could do in a week or less, if the returns from the various school sections throughout the county were sent in promptly, is extended over a month, and I am deprived of my only opportunity of a holiday in this manner Let me see more punctuality in th future. I am aware that in some few eases Teachers and Trustees have alleged as the excuse for delay, that they have not received the Blank Form of Report If such is really the case, I am at a loss to know where they go to. I mailed them this year on the Twenty first of June (addressed in each case to the Trustees), to the post office of every school section in the county, checked counted them when I put them into the post-office, so that I am postive that they were sent. . If however, in future, any Teacher, after enquiring of the Trustees or otherwise, ascertains that the report has not reached the school section. I wish him to make application to me before the school closes for the term when another one will be sent, and in no care should the Trustees allow the Teacher to go away from the section until they ee that the Report is properly made out and handed in to them, so that they may examine it, sign it, and transmit it to the Inspector within the prescribed ime. While on this subject of Reports. allow me to draw the particular attention of teachers and trustees to the annual reports to be sent in next January. No nnual report will be accepted unless very column is properly filled in, and the financial statement correct and properly balanced. The annual reports for 1871 were as a whole, very incomplete: many were returned for correction, and many more should have been I is a perfect impossibility for the lasper. or to make out the annual statistical report to the Department, unless the cachers and trustees do their work

I shall expect to find that the warning has been taken, where it has already been given, and that all interest ed in the welfare of education in this county have taken active steps towards he erection of commodious school house with convenient premises and suitable outbuildings, a credit to their respective sections, and not, what they too often are now, a standing diserace.
