

New specially prepared ammunition of Dominion make was used in the Snider matches, and although the weather was anything but favorable for a test, and though some "unaccountables" were laid against it, the fact that good scores were occasionally achieved with it argued that it was superior to any previously made at Quebec. It must be confessed, however, that the prevalent judgment of its merits was unfavorable, and the weather seems to be scarcely sufficient to account for the low average of the shooting. Shortly after nine o'clock on Tuesday the Nursery stakes and extra series at 500 were opened simultaneously, and from that time forward the competitors were kept more than busy in keeping pace with the programme. Had there been more time or targets much more shooting would have been done in the extra series and Optional matches.

The following is a full detail of the prize winners and their scores:
