THE PARLIAMENT
 Mr. Gladstone's Address to the House of Commons, August 28. Mr. Gladstone's speech is the subject of much discussion. On the whole, however, it has fallen far short of what many expected it would have been. It is a long and somewhat tedious speech, and it is not clear that it has done much to enlighten the public mind. The Unionist papers are not so much impressed with it as the Liberal papers are. The latter regard it as a masterpiece of statesmanship, and they are sure that it will have a beneficial effect on the course of the government's policy. BIG INCOMES OF BISHOPS
 Bishop of Toronto's Income. The Bishop of Toronto, the Rev. Dr. Charles J. O'Connor, has been reported to have a net income of \$40,000 per annum. This is a very large sum, and it is not clear how it is derived. The Bishop's income is derived from various sources, including the sale of real estate, the interest on investments, and the salaries of his various offices. It is not clear how the Bishop is able to accumulate such a large fortune, and it is not clear how he is able to justify it to the public. The Bishop's income is a subject of much discussion, and it is not clear that the public has any right to know it. The Bishop is a private citizen, and he has a right to keep his affairs private. It is not the business of the public to know how much he earns, and it is not the business of the public to know how he spends it.
