*Repeat of last year's success*

# Year looks good for women's teams

Although the various women's varsity teams are still in their chrysalid stage, it can be said with confidence that this year should again bring success for the girls.

Top in their league last year, the gymnastics team went on to win the national championships. Only a few of the girls have graduated so we can expect to see another powerful squad.

The diving and swim team placed fourth in the Ontario-Quebec league and sent six representatives to the nationals. This year the girl to watch on the team is Kathy Lane, a former member of the Canadian diving team.

The synchronized swim team

finished second in their league, and most of the girls are back for another successful season.

Members of the ice hockey team are sharpening their skates in preparation for another exciting season. Last year the girls brought home the consolation trophy.

Marina Van de Merwe, who previously coached the University of Toronto field hockey team — last year's league champions — has accepted the challenge to bring York's team into the limelight.

Unfortunately the tennis team lost its top league players. Dellene Lackey, the team's coach, is looking for new recruits. So if you have a deadly serve or a wicked backhand

here's a chance to dazzle your friends.

This year York will be playing teams from the universities of Carleton, Laurentian, McMaster, Queen's, Guelph, Ottawa, Toronto,

Waterloo, Western, Windsor, and Ryerson Polytechnical Institute who have organized themselves into a new league — the Ontario Women's Intercollegiate Athletic Association (OWIAA).

Those avid fans who faithfully followed varsity sports last year will notice the absence of representatives from the Quebec Universities. This is due to the formation of a separate Quebec league. However, special playing privileges have been granted to McGill University along with Lakehead, Trent, and Brock, who will furnish the teams when they can.

## Hockey camp to open on new date

Yeomen Hockey coach Bill Purcell said Saturday that hockey camp will open on Oct. 4, not Oct. 11, as previously announced. The meeting will take place at 6 pm at the York Arena.

Purcell noted the Yeomen have lost many of their experienced players this year due to ineligibility but he hopes to bolster the team with other players. He said that last year's extensive schedule discouraged some from coming out. There are 20 games scheduled for the 1971-72 regular season compared with over 30 last year. Also, there are no road trips south of the border.

"Now the players won't have to worry about neglecting their studies," Purcell said, "so I hope that all the experienced hockey players on campus will contact me about trying out." Those who wish to try out can contact Purcell through the department of men's athletics at 635-3734.

During the summer, Purcell said, Steve Latinovitch, Yeomen winger, became the fourth York player to receive a Hockey Canada scholarship.

## There's no doubt in her mind

When it comes to choosing the right sanitary protection, there is no doubt in her mind. She uses Tampax tampons and has, right from the start. They were developed by a doctor, so she knows they're safe. And they give her the protection she needs.

Tampax tampons are softly compressed to give better absorption. And they're the only tampon that comes in three absorbency-sizes:

Regular, Super and Junior. Because they're internally worn, there are no bulky pads, pins or belts. So she's free to dress the way she wants and do what she wants, every day of the month.

Use Tampax tampons, without a doubt.

Right from the start...
