LEEDS LUNCHEON CLUB

Annual Report

1925

RULES

LIST OF MEMBERS

At the Foundation Meeting of the Club it was decided that opinions on theological and political questions should not affect eligibility for membership; and that, in the choice of subjects suggested to or proposed by invited guests of the Club, topics on which strong differences of opinion may exist among the members should not be excluded.

The Club, therefore, through its Committee, extends hospitality to the representatives of various convictions, without in any degree committing members of the Club to an endorsement of the views expressed by its guests.
