

HUDSON'S BAY COMPANY'S LAND ACCOUNT  
PROVINCE OF ALBERTA

Area reserved for purposes of exchange and adjustment.....	22,786 acres
Area in whole, fractional and partly surveyed townships to which Company are entitled but not yet conveyed to them.....	<u>6,447.25 acres</u>
Total area reserved for Company in province of Alberta.....	29,233.25 acres

In addition to areas at present reserved for the Company in the three western provinces there will probably be required approximately 75,000 acres to complete the adjustment of the land account.

The Company under the proposed settlement will likely have the privilege of selecting this area from available Dominion lands in the three provinces and consequently it is not possible to say at present just what area the Company will select in the province of Alberta in connection with this balance of 75,000 acres.

---

LAND SUBSIDIES TO RAILWAYS  
PROVINCE OF ALBERTA

Area patented.....	13,048,893.46 acres
Area reserved.....	2,083 " (Approx.)
