Montreal, Que.

Dear Mr. Rive,-

I have your letter of the 6th instant, and a very interesting letter it is. I thought it so good I read it to Senator Marcotte this morning.

Most sincerely I hope that the experience the Quebec people have gone through will open their minds to not only the political villainy of the Liberal Leaders in days gone by and right up to now, but as well the relation of the British Empire and the fact that it is a shield and a blessing to them instead of the cause of evil. There is no safety that I can see anywhere else.

Yours very truly,
