

Women's Smart Tailored Suits Especially Priced at from \$25 to \$35

A complete revolution of the styles of a few months ago; a wonderful showing of smart tailored suits at such popular prices as \$25.00, \$30.00 and \$35.00; these facts combine to show Madame that a charming new spring suit should be here without delay.

We've never had such a wonderful assortment of lovely suits at moderate prices as is the case this Spring.

The pretty swirling lines of the new skirts, the jaunty charm of the modish coats, both appear to splendid advantage in these special suits, for they are perfectly tailored from admirable materials.

We give our best attention to all Mail Orders, and shall be glad to send catalogues to all who will fill in and mail us this coupon.
