

ANNUAL DINNER OF TORONTO ENGINEERS' CLUB.

The annual dinner of the Engineers' Club, was held Thursday, January 4th, in the club's quarters on King Street and proved a very enjoyable affair to all those present. The chair was taken by Mr. F. L. Somerville, the president of the club, who proposed the toast of "Our Country," to which Dr. Galbraith, of the School of Practical Science, responded, speaking of the possibilities of Canada and the methods of encouraging immigration.

Mr. F. H. White, chief engineer of the Canada Northern Railway, who also responded to the toast, said that he was familiar with the Dominion from the Atlantic to the Pacific, and was proud of every part of it.

The toast of the "City of Toronto," was responded to by Mr. C. E. Goad, who said that Toronto might be made the most beautiful city in North America if

the plans of the Guild of Civic Art were carried out.

In response to the toast of "Sister Societies," Mr. Mackenzie spoke on of the students' societies of the School of Practical Science. He believed that too much work was being required of the teaching staff of the school, while in such fields leisure for special research was especially required.

Mr. Cecil B. Smith, representing the Canadian Society of Civil Engineers and Mr. Dillon Mills, representing the Canadian Institute, also replied to the same toast. The list of speakers was closed by Mr. J. D. Shields and Mr. C. M. Canniff, who responded to the toast of "The Ladies."

N. L. Martin, Toronto, has been appointed liquidator to wind up the affairs of the Keystone Engineering Company, Limited.

We are indebted to the United States Fidelity & Guaranty Co.,

of Baltimore, for a copy of their Surety Sayings Year Book of Proverbs and Comments for 1907. It is an excellent production and in keeping with the progressive policy of this company, whose Canadian headquarters are at 6 Colborne street, Toronto, and are in charge of Mr. A. E. Kirkpatrick.
