IRON AGE

POTATO DIGGERS

Answer the farmers' big questions: How can I get my potatoes out quickly with less help and fewer horses? How can I have my tubers ready for a high-price market safely put away before freezing?

The IRON AGE Digger rolls the potatoes out in long rows ready to gather, clear of dirt, weeds and tops. It turns short into next row, or can be backed.

The staunch, powerful, and dependable No. 155 shown here will take care of the heaviest conditions. Made by specialists in potato machinery—in business over 23 years.

CASE

Kerosene Tractors

The 9-18 horse power Case is a marvel of power and efficiency, more economical and more effective than the best horse obtainable, where power can be employed on the farm.

Its range of work is almost unlimited and increased efficiency, labor saving and economy soon prove its value.

The man who is endeavoring to get the most out of his farm at a time when production means dollars, can find no better, no more profitable investment than this Case tractor. It develops 9 horse power on the drawbar for ploughing, harrowing and hauling. For belt work it may be used successfully, delivering 18 horse power to the pulley driving the thresher, the baler, husker, silo filler, or operating other farm machinery.

Seventy-six years of experience in farm machinery manufacture made it possible to develop the Case tractor to the highest standard of efficiency, economy of operation and low up-keep.

Every Case tractor develops more than rated power. Investigate the Case.

Better than any bank account, they give an actual physical comfort to riding that cannot be computed in terms of money.
