R. M. WANZER & CO.

Sewing Machine Manufacturers,

HAMILTON, ONTARIO.

After continued improvements, that have rendered the history of this old established and original Sewing Machine Manufactory of the Dominion famous from its first institution, the Company have now brought to perfection and placed in the market the Wanzer Patent Letter "A" Family Sewing Machine, an invention which combines improvements of the highest importance, which have been the study of inventors devoted to the perfecting of the Sewing Machine from its earliest intro-duction to common use. The advantages claimed for the new Letter "A" Sewing Machine are—superior accuracy of operation, durability, simplicity, convenience, and the retention of perfect utility through an indefinite period of service. The Letter "A" Family Sewing Machine is now introduced to the public, relying solely upon its superior merits as the most perfect, convenient, durable, and

75c.
Of all the living writers of English fiction, no one better understands the art of story telling than Wilkie Collins. He has a faculty of coloring the mystery of a plot, exciting terror, pity, curiosity and other passions, such as belong to few, if any of his conferees, however much they may excell him in other respects. His style, too, is singularly appropriate—less forced and artificial than the average modern novelist.—Boston Transcript.
