ALLIES PLAN MIGHTY DRIVE AGAINST CONSTANTINOPLE

Move Might See Immediate Conclusion of War, and is Greatly Feared in Germany

By Courier Leased Wire. New York, Oct. 2.—The Paris correspondent of the Herald cabled Sunday as follows: A mighty drive on Constantinople may bring the decision in the war before the end of the present year. The knowledge that this drive is coming is regarded as the explanation of the alarm felt in Germany, as shown by the refusal of the private bankers and moneyed classes to subscribe to the new loan, and by the speech delivered on Thursday last in the Reichstag by the chancellor of the empire with its appeal for new sacrifices. The preparations for the march on the Turkish capital have long been under way, and as there is now no longer any motive for concealment, the subject is being alluded to in rather frank manner in the press of the allies. The Prussian great general staff realized the trend of the allied campaign only when it was too late, a desperate effort was made to relieve the situation when Field Marshal Von Hindenburg was appointed to the supreme command. Russians Continue Advance Progressing on to Lemberg

More Than 4,000 Prisoners Taken — Heavy Reinforcements and Violent Attacks of the Enemy Fail to Halt the March.

London, Oct. 1.—The two-pronged advance of the Russians on Lemberg is again gathering full headway, and the Austro-German armies of Prince Leopold of Bavaria and Archduke Karl have been pushed back to the northeast and southeast of the Gallican capital the Russians have registered advances, capturing, according to the official report issued at Petrograd, more than 4,000 prisoners. Russian gains are admitted by Berlin. The two main actions are being waged in the region of the Brody-Krasne railway, about thirty miles northeast of Lemberg, and in the Brzezany sector on the Zlota Lipa River, fifty miles southeast of the city. Teutons Heavily Reinforced. In the former district the Russians have pressed forward against heavy resistance, taking about 2,000 prisoners. A Teuton position on the right bank of the Zlota Lipa was carried on the southeastern sector of the advance. This new stroke of General Brusiloff is believed to have been made to forestall the offensive contemplated by Field Marshal von Hindenburg. It puts the Teutons upon a strict defensive in the eastern theatre, following close upon the heels of tentative attacks by them which are believed to have been the first move of the contemplated "push." Poe Counter-attacks Fail. The Russian official statement says: "In the neighborhood of the Brody-Krasne railway and to the southwards our troops, by heavy fighting, are forcing their way forward, the enemy stubbornly resisting the advance. We have captured here 59 officers and 1,928 men of the rank and file. "The fighting is turning to our favor to the south of Brzezany, in the region of the heights, on the right bank of the Zlota Lipa. Here we captured part of the enemy position by assault, taking 112 officers and 2,263 men of the rank and file, as well as some machine guns. Enemy counter-attacks during the night were frustrated by our fire."

ANOTHER ZEP BROUGHT DOWN IN RAID OVER OLD COUNTRY

Ten Airships Took Part in the Attack — The Stricken Craft Fell to the Earth in Flames

By Courier Leased Wire. London, Oct. 2.—Ten Zeppelins took part in a raid last night over England. Two of them attempted to attack London. One of them was driven away and the other, as was reported last night, was destroyed. No reports of casualties have been received. Following is an official account of the raid. "Ten airships crossed the east coast last night between nine o'clock and midnight. One airship approached the north of London at about ten p.m., but was driven off by gunfire and pursued by aeroplanes. She attempted to return from the northwest, but was attacked by guns and airships at a point in the neighborhood of the London docks, shortly before midnight. "A second airship attempted to attack London from the northeast and was driven off. Bombs were dropped. No reports of casualties or damage have yet been received. The remaining airships wandered aimlessly over the eastern counties. In Lincolnshire bombs were dropped promiscuously. Most of them appear to have been dropped in open country without doing damage. The Winging of the Zep. London, Oct. 2.—A writer in a morning newspaper telling of the winging of the Zeppelin last night says: "It was about 11:30 last night when searchlights first began to watch the sky and a humming in the air indicated the presence of a Zeppelin in this district. At about a quarter to 12, heavy firing was heard. "The Zeppelin was then seen, looking like a silver pencil, and very high up. The guns continued to fire at it, but soon afterward it disappeared. Five minutes later guns burst very close to their objective. "Then a red spot glowed in the sky just as on the previous occasion a week ago. The light travelled from point to point along the back of the Zeppelin which flared up and dropping into perpendicular position to drop rather slowly. Immediately it disappeared the sky was lit up." Another writer says sparks and flames a thousand feet high illuminated the entire district with a red glow. Another correspondent states that the descent of the burning raider was swift, the whole incident being over in about fifteen seconds. A farmer, in whose field the raider came down, gave the following account of its destruction: "It was nearly midnight when I

HIS LIFE WAS SAVED

By a Revolver Presented on Behalf of the City of Brantford.

Major Nelles Ashton Tells of His Lucky Escape.

When Major Nelles Ashton, prior to his departure for the front was presented with a revolver on behalf of this municipality he little thought that the gift would be the means of saving his life. This, nevertheless proved to be the case, as will be seen by the following letter, received by the Editor of this paper:—

Sept. 11, 1916. I thought I would let you know that the revolver presented to me by the City of Brantford has done me a very good turn in saving my life.

On the 5th of September, about 7:30 p.m. I was walking along the outside of a communication trench after having reported at battalion headquarters. My company was in the first line. The trench was pretty muddy and pretty well blown to pieces, and this was my reason for going overland, when I was hit in the abdomen by a sniper and rolled into the trench. I could not understand why I was not killed or dying as it was in a very vital spot, but on examination found that the bullet had smashed the handle of the revolver into a dozen pieces, grazed my skin and given me a bruise which will lay me up for a few days. I am certainly lucky, and have got some souvenirs.

Hope to rejoin my battalion in a week or ten days. We have had a pretty strenuous time. Constant rain of shells all the time, and no dugouts in front line. However, we are all happy, and the morale of the troops is magnificent.

I understand Col. Cofquhoun has reported, but being in hospital, have not seen him yet. Major Jones had command of us during this last scrap of nine days. We had the Prussian Guards opposite us, so you can imagine we had a hot time.

What have you done? The contest is now on its way and has opened with much more activity than the contest manager had looked for, which goes to show that the candidates are taking hold of it in the proper spirit while the votes are large. One party was in the office Saturday, paying his subscription and was asked why he did not enter the contest. The reply was that he did not know that there was a contest on, which the contest manager thought very funny, as he was a regular subscriber to the paper, and when asked how it was that he did not notice it in the paper, he said that he was pretty well interested in the stock market at the present time and that he did not have much time to take

Are Torpedoed by a German Submarine on the High Seas.

By Courier Leased Wire. Christiania, Norway, Oct. 2, via London.—A German submarine has made its way into the Arctic Ocean and has torpedoed three Norwegian steamships there. The vessels torpedoed were the Sinesen, Rava and Rolf Jarl. The crews were saved. Steamship traffic over the regular route covering the northern Norwegian towns has been stopped. Since August, the Germans have sunk Norwegian boats valued at \$9,000,000. The Sinesen's gross tonnage was 1,925, and that of the Rolf Jarl 1,265. There are listed three Norwegian Steamships Ravn, all of them under 1,300 tons. THIS POOR STUDENT

Became a Multi-Millionaire with Rockefeller as a Friend.

By Courier Leased Wire. New York, Oct. 2.—How a poor student of chemistry, who came here from Germany in 1868 attracted the attention of John D. Rockefeller, became the chief chemist of the Standard Oil Company and amassed a fortune of \$10,485,228, is disclosed by an appraisal of the estate of the late Herman Frasch of this city. After attaining success as a chemist, Mr. Frasch undertook to develop a sulphur mine through the hands of four companies that were unable to make it pay. The sulphur lay 800 feet below the surface. Mr. Frasch devised a method of conveying superheated water into the mine, melting the sulphur and then pumped it out through a pipe. The appraisers estimated the value of the stock of the company owning the mine at \$12,003 a share. Mr. Frasch owned 505 shares.

GERMANS AND BULGARS COMPETE IN COMMITTING ATROCITIES

Fearful Tortures Inflicted by the Latter Rival Anything Yet Recorded in History of Balkan Warfare

London, Oct. 2.—(New York Times cable.)—The Daily Chronicle prints the following from its Bucharest correspondent: "It is more than probable that when all the horrors perpetrated by the Bulgarians and Germans at Tutrakhan are known and officially confirmed, they will rival anything yet recorded in Balkan warfare. There seemed to have been competition between the two allies as to which would inflict the most torture. The Germans did the thing systematically, by putting the living systematic prisoners in batches and shooting them in the market places and other convenient places. "A regular massacre of the Roumanian civil population was organized, the Bulgarian soldiery, aided by Bulgarian inhabitants, going from street to street killing, maiming and torturing as they went. Some of those who escaped state that among part were well dressed women and young men in light suits and straw hats, while the women incited their children to share in the revel. Knives and hatchets, anything with which torture could be inflicted were em-

ployed and teeth freely used by women. Nameless horrors were perpetrated. Limbs were lopped off, eyes gouged out, or as many wounds as possible inflicted on the helpless victims. "There is in the hospital to-day in Bucharest a raving lunatic, a lady of good Roumanian family, wife of a judge, who, hearing that the Roumanians were being massacred, rushed to the tribunal to the tribunal to save her husband. She arrived just in time to see a hatchet descend on his head and cleave his body in halves. She was found and recognized by some Roumanian officers, who brought her to the capital. "During the fighting the Bulgarian women and children followed the lines, stabbing and torturing the wounded. Bodies were found with twenty and thirty cuts and worse. There are a dozen Roumanian soldiers in hospitals bearing as many wounds, who still lived to suffer torture. More than one wounded soldier was shot in the back. "A very strict inquiry is to be made and a full report addressed to allies and neutral countries."
