A NEW PRESIDENT.

Uncle Sam will to-morrow celebrate his twenty-ninth inauguration of a President.

George Washington was the first man to be so honored in 1789 and three of the number have been assassinated, Lincoln in 1865, J. A. Garfield in 1881 and William McKinley in 1901.

Of the Emperors of Russia four have met a similar fate so that it will be seen that this form of murder is apt to take place with a republic at about the same ratio as with an imperial monarchy.

President Wilson is of Scotch descent and exhibits many of the mental traits of that race. Moreover he is cool, self-possessed and cock sure of himself. This does not mean that he is intolerant of the advice of others—far from it—but that after he has listened he reaches a careful conclusion and that said conclusion is Wilson's. In this respect he is stated to possess a remarkable power of mind detachment and to be able to concentrate and render a finding without regard to either precedent or the wants of interested classes. In other words his chief concern is for the plain people.

He is a Democrat and when Governor of New Jersey looked after the interests of that side, but not slavishly so. The "bosses" have no terror for him, in fact do not enter into his calculations unless he considers them to be right.

He is highly educated and a master of words both from an oratorical and written standpoint. In fact he is one of the best speakers in the United States and a noted author. Although he can talk and talk well on abstract subjects he is not pedantic, but a good mixer, and has the faculty of drawing out others without giving his own confidence until he thinks the time is ripe for him to do so.

He is not a lover of fuss and feathers, although he can ably take his part at necessary functions, and his habits are those of a clean man in thought and life. He views the duties of his new and exalted position seriously but not excitedly and when he reaches a conclusion it is final.

He first of all wishes to attain tariff reform, and a reformed currency system and then he will go after other things calculated to give popular government in the broadest possible sense.

Altogether President Wilson seems likely to prove one of the most notable and level headed occupants the White House has held for some time.

—Daily Journal, Fort William.

Dr. Osler has been frequently misrepresented with reference to the above alleged statement.

If the writer remembers correctly, it was Wilkie Collins, who in one of his novels, had a character who thought that a man was all in at forty, and should be chloroformed. It was just an author's fanciful suggestion. For Collins who died at the age of 65, did his best work long after forty.

Dr. Osler, as the guest at a dinner before leaving for England to take a high University post, playfully remarked that perhaps at his age he should have been in said chloroform class instead of accepting a new responsibility.

His evident reference to the Collins character, was misused by the newspaper reporters, who attributed the statement as his personal belief.

In a general way, it may be safely affirmed that if a man has failed to achieve success, or to have laid the lines for success by the time he is forty, his chances are not very rosy for much achievement. But men of energy and ability who have made good before forty, continue to do that long after forty, and even up to the age of Lord Strathcona, now 92; Gladstone, who was 77 when he led a successful election fight in the Old Land, Lord Roberts, who ended the Boer war when he was in the seventies, Sir Charles Tupper, the only surviving Father of Confederation, who is still vigorous, although over 90, and so on.

HYDRO ELECTRIC

The marvellous extent to which Hydro Electric has in so short a time become such a complete success, constitutes one of the most notable public ownership achievements ever recorded.

An expenditure, which unfriendly critics declared would prove a source of burdensome outlay and loss, has practically from the first, made absolutely good.

The extent of its ramifications is abundantly shown by a blue book giving details up until the end of 1911. The volume is a bulky one and consists of no fewer than 327 pages.

When it is remembered that the first lot of construction work was completed as recently as November, 1910, it can be readily realized with what vim and vigor Hon Adam Back and his associates have pushed matters. At that time the figures showed a pole mileage of 296,414 miles, and much more than that has since been inaugurated.

A pleasing feature is the circumstance that pretty nearly all places getting a taste of Hydro Electric have cried out for more of it. Here are a few random illustrations.

Place	Power For 1912 at start
Berlin	604 1,500
Guelph	248 1,000
Waterloo	167 350
Preston	134 400
Woodstock	450 1,000
London	805 2,200
Hamilton	1,062 1,500
Stratford	54 500
St. Thomas	124 800
Galt	80 400
Toronto	805 6,000
Tilsonburg	53 200

And so on right down the list.

The efficiency of the service has been remarkable and there has been very little of the adjusting such as all new plants of such a nature usually require. As a matter of fact the best of material and the best of skill, have combined to make Hydro the most perfect and most up to date electric system in the world.

Now that marked success has been achieved with reference to industrial centres, the next two moves will be to give cheap traction power for electric roads and to extend the all round benefits to the agricultural sections. There are many labor saving devices which can be electrically used on the farm to the direct saving of much valuable time and a lessening of that class of work which to so large an extent has made the

THAT OSLEK YARN.

"This has been termed the age of the young man, and back some time previous to Osler's unjust theory that after a man is fifty he ought as well make his exit by chloroform, we have continually had it dinned at us that the twentieth century is primarily one where youthful talent and genius sways a controlling force in the world's affairs. History, however, holds ample proof that young men were always prominent at the head of leading affairs in all nations away back into the dim recesses of time."

Music and Drama

A battle of wits that is viewed with intense interest as waged by the sleuth and the crackman in O'cier 666 has made that play the most interesting production given to the American people in many years and easily the most talked about. It succeeded in creating a veritable sensation when presented in New York and Chicago a year ago where the interest aroused kept the box office busy and the theatre crowded during its record run in the Eastern and Western metropolises. "Officer 666" which will be seen here for the first time at the Grand, Tuesday, March 4th, is a jolly good farce, and the secret of its wonderful appeal may be at-

tributed to the riddle that its plot presents, the solving of which is accomplished in a perfect maze of merit and heightened by the unfolding of a charming love story that threads the three acts of Augustin MacHugh's thrilling detective story.

Marks Bros. Return.

The management of the Grand Opera House announces the return engagement of the Marks Brothers, under the management of Mr. Joe Marks and starring Miss Gracie Marks, for three nights, commencing Thursday, March 6th, and the proven popularity of the company augurs well for the patronage of all theatre-goers.

Marks Bros. have always borne a strong reputation in this City of Brantford and their repertoire for the return engagement is said to be superior to any heretofore offered.

Miss Gracie Marks, whose remarkable ability has on other occasions been a matter of pleasure to patrons of the Grand, will again take the leading role in each of the four performances, a special matinee will be played Saturday afternoon at 2.30 p.m.

The offering Thursday night will be the well and favorably known rural comedy drama "Virgie Sweetheart," taken from the book of "Peaceful Valley," the dramatization of the great writer, Sol. Smith Russell's.

For the other three plays Mr Marks promises to have a big surprise for all in the line of stock companies.

The Marks Bros, which is composed of actors and actresses of recognized worth, will be assisted in Brantford by specially artists of strong repute in the theatrical world.

Seats on sale at the box office on Monday for all plays. Prices will remain the same to all, 10c, 20c, 30c; matinee, 10c 20c, March 6th, 7th and 8th.

NOTES AND COMMENTS

Woodrow Wilson now hopes to still further row into popular favor.

London crowds are now making it difficult by mobbing the suffragettes. It's a long worm which has no turning.

Anybody who thought that because we slid through to March 1st with balmy breezes, that the winter was down and out didn't realize the hind kick of the Canadian variety.

An English scientist now comes forward with the assertion that the human chin is of no possible use. And for that matter the same thing is true of the entire makeup of some individuals.

The Toronto Globe still clings to the fatuous idea that with another speedy general election the Grifs would go back into power once more. And the ice at this period of the year is to be had for the asking!

J. Pierpont Morgan says that no such thing exists as a money trust. But then he is a multi-millionaire and doesn't have to stand things off at the corner grocery until pay day.

It would be a delicate compliment for the City Council, in return for those two Royal photographs, to send back a picture of Brantford's City Hall. The Duchess is said to be a very great admirer of antiques.

The Municipal Council of Brest, France, has decided to put a tax of six cents daily on all perambulators. It is reported that "the mothers and nurses are up in arms." So are the babies likely to be if the levy is insisted upon.

The Hamilton Herald (Independent) says it "could mention a score or more Liberals in that city" who favor the Borden policy of an immediate naval grant to John Bull. The same is true of Brantford, and in all likelihood every other centre.

A Cobourg Colonel has expressed the opinion that the only way to get the Canadian papers to support universal militarism is to walk into newspaper offices and put down \$50 for the editor. What brand of editors has that particular man of bent been in the habit of associating with?

On behalf of the Laurierites, it is announced that they still intend to obstruct the Naval Bill. It reminds one of the time when ex-Premier Ross of Ontario said he intended to "F-G-H-T." And the things that happened to him are a shame to even think of.

Indigestion for 2 Years

Few people seem to realize that chronic indigestion is a disease of the intestines rather than of the stomach. Even the doctors err in this way, as is proven by this letter.

Dr. Chase's Kidney-Liver Pills are the most effective treatment obtainable for chronic indigestion, because they awaken the action of the liver and bowels, sweep the foul impurities from the system, and set the whole digestive system in perfect working order.

Mrs. George Swain, Ashworth, Ont., writes: "My husband suffered with indigestion for two years. We tried three different doctors, but they didn't help my husband very much. As he still suffered, he began using Dr. Chase's Kidney-Liver Pills, and soon got relief. I am thankful to Dr. Chase's Kidney-Liver Pills for the cure of my husband after other treatments had failed."

Dr. Chase's Kidney-Liver Pills—one pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

SEE TOOK HER FRIEND'S ADVICE

And Dodd's Kidney Pills Cured Her Son.

Straight and Simple Statement Tells of Another Grand Cure by the Old Canadian Kidney Remedy.

SPRINGHAVEN, Yarmouth Co., N.S., March 3.—(Special)—Simple and straight to the point is the statement of Mrs. Erven C. Trefry of this place, but it tells of another grand cure by Dodd's Kidney Pills.

"My fifteen-year-old son Angus," Mrs. Trefry states, "suffered from pain in his back, headache, and a pain over his eyes.

"He was so bad he could not walk across the floor. My friends advised me to give him Dodd's Kidney Pills. "They cured him."

That young Trefry's kidneys were wrong is evidenced by the cure. Dodd's Kidney Pills only cure diseased kidneys. They never fail to do that.

The reason they cure rheumatism, backache, gravel, dropsy, Bright's disease, diabetes, and kindred diseases, is that these all spring from disordered kidneys.

If you haven't any of these diseases you haven't tried Dodd's Kidney Pills. Ask your neighbors. They'll tell you Dodd's Kidney Pills always cure them.

A Letter

City Solicitors Write Re Application at Ottawa

The following letter is on file at the City Clerk's office, in reference to Railway Commissioners and the Lake Erie and Northern Railway:

Feb. 26, 1913.

H. F. Leonard, City Clerk, Brantford:

Dear Sir,—Regarding notice from the Department of Railways and Canals of application of the Lake Erie and Northern Ry. Co. for approval of route map from Brantford to Galt, set down for hearing by the Minister on March 5th; we beg to say that the blue print enclosed with this notice should be referred to the City Engineer. This application is not to the Railway Board, but to the Minister of Railways, and is for approval only of the general route map. In our opinion it should be necessary to appear upon this application. It should be necessary to have a letter sent from the city to the Minister of Railways advising him that the City of Brantford has no objections, but is in favor of this railway being built from Brantford to Galt, but objects only to the proposed location of the line through the city of Brantford.

This blue print appears to show that the line is run on the north side of river, and along the bank of same and the letter should make it clear that this is objected to by the city of Brantford, that there should be approval of the plan which calls for a line along the northerly margins of the river of the city of Brantford.

We are further in receipt of a notice from the secretary of the Board of Railway Commissioners that the application of the Lake Erie and Northern Railway Company will be heard at a sitting at Brantford, but no date has yet been fixed. We shall receive due notice when the date of the sittings is fixed.

Yours truly,

WILKES & HENDERSON, per W. T. H.

Weak and Nervous

But Health Was Soon Restored.

The number of cases of general debility in which Hood's Sarsaparilla has proved just the medicine that was needed is very great. May E. Davidson, Orangeville, Ont., describes her case and tells what this medicine did for her, in the following testimonial: "My system was run down, my blood was impure, and I was weak and nervous. I grew thinner and paler every day. A friend advised me to take Hood's Sarsaparilla which I did. I gained rapidly and my health was soon restored."

Get Hood's Sarsaparilla today. Sold by all druggists everywhere. 100 Doses \$1.

Healthy Boys need good Bread

When little lad comes in, cheeks aflame from his romp in the open; what will more quickly reconcile him to the indoors than a big slice of bread and butter and sugar, or a bowl of bread and milk?

But for nutriment's sake have bread made of Rainbow Flour.

In wheat there is fibre, skin and a little embryo germ where sprouting starts.

All of these things should be removed in the milling of the flour.

In Rainbow Flour this elimination is carried out completely. Only the purest nutrients remain. These are ground to a surpassing fineness which ensures even baking. No other flour sold in Canada is milled with such painstaking care.

Try some.

RAINBOW FLOUR

MAKES GOOD BREAD

Sold in 7-lb., 14-lb., 24-lb., 49-lb. and 98-lb. bags and in barrels.
