Bowel Troubles

Liver pills, cathartics, mineral waters, often make Constipation worse. They merely irritate the bowels and force them to move—stop taking purgatives and the bowels become "tight" again.

"Fruit-a-tibes" are the one certain cure for Constipation

because their action is upon the liver, "Fruit-a-tives" are a liver tonic. They stimulate the secretions of bile by the liver, this bile causes the bowels to move in the natural, regular way and completely cures Constipation.

"Fruit-a-tives are fruit juices with tonics and antiseptics added. In "Fruit-a-tives" one atom of bitter replaces one atom of sweet in the fruit juices, forming a new compound which is many times more active, medicinally, than the fruit juices could possibly be. 50c. a-box — \$2.50 for 6 boxes. to Canada.

Can Consumption be Cured?

There is plenty of indisputable evidence to prove that Consumption has been cured even after the symptoms were well defined and the lungs actually involved.

On the other hand, there has always been a point beyond which the disease has been considered incurable. Until a comparatively recent date this point had a place at a very early stage of the malady, but modern scientific discovery and common-sense methods of treatment have gradually moved the hopeless point further and further back, until now the Consumptive is not "given up" until the very last stage of the disease is reached.

Nothing in recent years has done so much to improve the chances of Consumptives as the advent of

FERRO

In fact, it is claimed that, with plenty of fresh air, sun-light and comfortable surroundings, FERROL has pushed the hopeless point to the limit, that is to say, where these fail the chances of cure are very slim

FERROL does not kill the germs of Consumption mything that will do that will kill the patient), but FERROL does the work by repairing the waste tissue, enriching the blood, toning the nerves, in short, by building up the whole system and thus enabling nature to expel the disease.

The only possible chance of curing Consumption is by proper nutrition, and FERROL is the only perfect rient, because it combines in palatable and easily ested form the very essentials of life—011, Iron and

We feel some diffidence in claiming that FERROL will cure Consumption, lest we be misunderstood, but we have not the slightest hesitation in stating that it is an infallible cure for BRONCHITIS, CHRONIC COUGHS, CROUP, WHOOPING COUGH, CHRONIC RHEUMATISM, NEURALGIA, NERVOUS EXHAUSTION, SCROFULA

and all wasting diseases.

For restoring lost weight and building up the rundown system FERROL is absolutely without an equal. For Sale at CANADA DRUG AND BOOK CO., Exclusive Agents for Regins.

PERMANENT ORGANISATION FORMED-LARGE NUMBER OF DELEGATES PRESENT.

Between fifty and sixty delegates and representatives of local improvement district councils met here yesterday in convention for the purpose of forming a permanent organisation in accordance with the resolution passed in convention held at Grenfell on the 16th November last

S.Chivers-Wilson, who occupied the chair, in opening the proceedings dwelt upon the importance of such an organisation as it was proposed to form, especially in view of the statement today on the Intercolonial municipal legislation which the Gov-He spoke for over four ernment would undoubtedly introduce as the result of the investigaor variable statistics on the canais and railways. He showed that since tion made by the municipal commisand ranways. He showed had been sion which had been sitting and takexpended on the canals. There were ing evidence in different parts of the expended on the canals. There were under his department, one way and another, including all its branches and the Railway Commission, Transand the Railway Commission the Railwa ways, about 14,000 persons.

The total increase in mileage in 1906 over 1896 was 5,131 miles, with a total increase of railway subsidies during that period of \$15,360, 508.

Upon proceeding to the election of

From Saturday's Morning Leader.) provement Districts convention, animated discussions taking place on objecting that such exemption was buy at a small advance over the unfair to settlers, who were being wholesale price. mated discussions taking place on several subjects of general interest.

One of the matters which received taxed for local improvements.

The following motion, moved by R. Percy, seconeded by Mr. Mitchell, ar letter No. 21,000 of the Department was carried:

improvements in the different districts, was offered by the president, S. Chivers-Wilson, who stated that the manner in which the money was voted by the Legislature precluded that. He believed, however, that the districts should advise as to the amounts to be spent in the districts. He did not think that they should do anything antagonistic to the Government; let them rather see how things worked out, though they might perhaps go on record as doubting the feasibility of the scheme. He would like to see the Government educated up to seeing that L.I.D. councillors were the men which should be the authorities on local improvements in their districts. If the Government did this he believed it would stay in power for the next fifty years.

Mr. Gower said that so far as his

Do you feel week, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in threat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or burn, dizzy spe variable appetite, nausea at times and If you have any considerable number o the above symptoms you are suffering from biliousness, torpid liver with indigestion or dyspepsia.
