CORPUS CHRISTI

Aged Emperor of Austria Takes Part in Procession Ceremony.

A Vienna cable: Amid accompaniments of medieval pomp and ceremony the aged Emperor of Austria, King of Hungary and Bohemia, etc., Francis Joseph, took part in the yearly Corpus Christi procession in Vienna to-day. His Majesty was greeted enthusiastically by his people, but it was the universal dic-tum of the Vienese that their Emperor had aged greatly since they last saw him partake in this ceremony, two years ago, and the appearance of his Majesty suggested that this may be the last time the venerable monarch will appear as a participant in this festival of the Catholic Church. The procession started from the Hofburg, proceeded to the Cathedral of the Steffansplay, where the religious of the Steffansplatz, where the religious ceremonies were held, and then returned ceremonies were held, and then returned to the Hofburg. The ceremonies came to an end with the defiling before His Maj-esty of the troops which had taken part therein.

20TH CENTURY LIMITED RUSHED TO DESTRUCTION.

Going at the Rate of Over a Mile a Minute it Ran Into An Open Switch.

Crashed Into the Depot, Killing and Wounding Over a Score of Passengers.

The Boiler of the Engine Burst, Scattering Fire and Steam, and Rendering Rescue Impossible.

A Cleveland, Ohio, report: Later .- While travelling at the rate of seventy miles an hour the Twentieth Century Limited, the fastest long distance train in the world, ran through an open switch at Mentor, about 25 miles east of Cleveland, at 9.20 o'clock last night, causing one of the most herrible wrecks in the history of the Lake Shore road. The engine was hurled into the ditch. A part of the train was crushed on top of it, and the wreck was partly burned. The horrors of the wreck were doubled in the horrors of the fire. More than a score of people were killed and injured, and the famous train was largely demolished. The train was crowded, practically all its accommodation being taken entirely. It was behind time, and the greatest of speed was being made to make up the lost time.
