WORK OF THE GHOULS. Premier Giolitti confirms the King's statement that the local authorities in now have the situation well in hand. It was necessary to proclaim martial law as affording the only means of dealing effectively with the pillagers and marauders, one of whom was dis-covered with notes to the value iof 100,000 lire in his possession. For two days the setum population, however, were in command, and both dead and dying suffered at their hands. Several of them were shot at sight by rescue parties. It was only on the arrival of troops from the outside that the author-ties got the upper hand of the bandits, who even so late as Friday night en-gaged in a pitched battle with sailors and existoms officers. One man was shot in the act of tearing the rings off the fingers of a dying woman, and stories of incendiarism are also current, in which human ghouls are stated to views. NSTEAD of taking more or less risk of loss of your money in some other investment that may be pressed on you, why not place your money right on deposit in a chartered Savings Bank, and leave it there.

It is the safest form of investment in the world; and there is the indescribable feeling of satisfaction that your money is right there when you need it-and that it is earning sure dividends interest every day in the year.

Can this be said of other investments offered you? Namely:

That you get your money back at a mo-

ment's notice. That your dividend is absolutely certain,

sure and regular.

THE BANK OF HAMILTON especially invites the Savings Accounts of those conservative men and women to whom this form of investment appeals.

DOLING OUT FOOD IN REGGIO. In Messina the difficulty was compli-sted by the escape of many con-demmed prisoners. Happily in Reg-gio the promptitude of the police commissary prevented escape from the prison, and sthe only source of lawlessness was the inevitable plun-dering of food and drink from the stores. Even this has been stopped by the establishment of a regular dis-tribution of provisions. The distri-bution was effected by four commis-sions of eitizens of Reggio for the four districts into which the town has been divided. Each was accom-panied by fire police officers and twerty soldiers. NO ROOM ON THE VESSELS.
