COULD NOT SLEEP NIGHTS

**Pains and Headaches Re-
lieved by Taking Lydia E.
Pinkham's Vegetable
Compound**

Dublin, Ontario.—"I was weak and
irregular, with pains and headaches,
and could not sleep nights. I learned
about Lydia E. Pinkham's Vegetable
Compound by reading the letters in the
newspapers and tried it because I
wanted to get better. I have got good
results from it as I feel a lot stronger
and am not troubled with such bad
headaches as I used to be and am more
regular. I am gaining in weight all
the time and I tell my friends what
kind of medicine I am taking. You may
use my letter as a help to others."
Mrs. JAMES RACHO, Box 12, Dublin,
Ontario.

Halifax Nurse Recommends
Halifax, N. S.—"I am a maternity
nurse and have recommended Lydia E.
Pinkham's Vegetable Compound to
many women who were childless, also
to women who need a good tonic. I am
English and my husband is American,
and he told me of Lydia E. Pinkham
while in England. I would appreciate
a copy or two of your little books on
women's ailments. I have one which I
keep to lend. I will willingly answer
letters from any woman asking about
the Vegetable Compound."—Mrs. S. M.
COLEMAN, 24 Uniacke Street, Halifax,
Nova Scotia.

Rheumatism to To Be a Memory

After experiments extending
over a period of four years, Dr.
Gustav Paul, director of the Na-
tional Vaccination Institution of
Vienna, announced in a report to
the Medical Society that he was
able to say that through cutane-
ous injections of tuberculin he
had achieved remarkable success
in the cure of every form of
rheumatism and gout.

So convinced is he of
the method, the professor declared,
that while he could not imagine
a world without tuberculosis, he
could foresee a future without
rheumatism.

The assembled doctors listened
attentively as Prof. Paul explained
the computation of the tubercu-
lin and told how he had treated
six hundred cases.

Dr. Paul assured his audience
that it was immaterial whether
use was made of Dr. Koch's old
tuberculin, with the graduated
addition of tuberculosis bacilli
from humans and cows, with or
without the presence of staphylo-
cocci, streptococci and pneu-
monococci, so long as the doses are
given with due regard to the sus-
ceptibility of the patient and the
presence or absence of inflamma-
tion.

The professor explained that he
used an ordinary aseptic small-
pox lancet and exercised a deli-
cate touch so as not to shed blood.

The professor said first experi-
ments were made on fifty nurses
and employees of the National
Vaccination Institute following
which he treated 300 children, in-
mates of the People's Hospital for
Surgical Tuberculosis at
Grimmenstein.

We have just printed a large quan-
tity of Mill Saw Bills and can supply
them to the different mills either sta-
gely or in quantities.

WHAT IT MEANS TO REGISTER BIRTHS

This present service of collection
of vital statistics conducted under
the direction of the Department of
Health since 1920 is worth noting,
as it indicates the inclusive and al-
most complete manner by which
Vital Statistics are collected and re-
corded in every city, town and parish
in this province.

Many persons at the present time
recall the great trouble and labor,
they would have been spared had
such a service existed for, say 30 or
40 years back, instead of the past 5
or 6.

The circumstances referred to are
the difficulties experienced by those
who desire to enter the United
States. The nation referred to has
seen fit to require a formal birth
certificate from every intending im-
migrant. The loss of time and actual
money expense entailed in the pro-
curement of these necessary docu-
ments is great. It is not unusual for
one, seventy years of age to apply for
a certified copy of birth certificate.

The almost impossible nature of the
task, to the person concerned will be
readily seen, as proof must be fur-
nished before necessary certificates
can be obtained. Events which hap-
pened a short time ago, as a rule,
are quite easy to prove, and you can
find two or more persons living who
are ready and able to attest to them
at any time. Hence the proper time
to report the birth of a child is with-
in a few days, at the most of its ad-
vent. Such action on its behalf is en-
dowing it with many benefits and
privileges, and clearing from its path
in life, many disagreeable, and some
times costly obstacles.

Immigrants Total 32,449 in 3 Months

Immigration to Canada for the
three months of the present
fiscal year, that is from April 1st
to June 30, 1925, totalled 32,449 ac-
cording to a report issued by the
Department of Immigration.

Of this total, 16,894 came from
Great Britain, Northern Ireland and
the Irish Free State; 5,307 from the
United States, and 11,048 from other
countries, almost entirely from North-
ern Europe.

In the same three months, 9,141
Canadians who had been in the
United States for six months or
longer, and who went to that country
to settle, returned to the Dominion.
Since the department of Immigration
and colonization began to keep a re-
cord of these returning Canadians on
April 1, 1924, a total of 52,916 had
come back up to the end of last June.

Best of Men Make Mistakes

One of the difficulties that be-
set even the best intentioned
journalists is told by one of that
profession who decided to es-
tablish a newspaper in a "one
horse" town, and was informed
that a certain gallant colonel
must at all costs be propitiated.
His first number therefore con-
tained a long article full of praise
of the colonel's achievements,
but unfortunately the head line

which should have read "Our
Battle Scarred Hero," appeared
as "Our Bottle Scarred Hero,"
and an hour later the colonel,
who liked his glass was around
looking for the editor with a shot
gun. An explanation was with
difficulty effected and an apology
and correction promised. Unfor-
tunately the compositor again
slipped, and the apology explain-
ed that "Bottle Scarred Hero"
should have read "Battle Scarred
Hero." When the enterprising
journalist saw his paper he wisely
sought the railroad depot and
moved on.

Field Marshall Earl Haig in Jasper Park

DURING his recent visit to
Canada, Field Marshall Earl
Haig and the Countess Haig
spent several days at Jasper Park Lodge
in the heart of the Canadian Rocky
Mountains. During their stay there
they rode the trails, played golf on
the new course beside the lodge, and
in the words of the Field Marshall,

"had one of the most enjoyable times
of our entire visit to Canada." The
photographs which were taken at Jasper
Park Lodge show from left to right (top)
the Countess Haig, dressed in an Indian
costume; the golf ball used by the Field
Marshall when he opened the Jasper Park
Lodge course, as it was mounted on a
silver base and presented to him before
he sailed for England, and the Field
Marshall accepting a pair of buffalo
chaps from Major Fred Brewster, M.C.,
famous Rocky Mountain guide of Jasper.

The two lower photographs show the
Field Marshall riding along one of the
Jasper Park trails and the group photo-
graphed on the first tee, immediately
after the official opening of the Jasper
Park Lodge golf course. This group
from left to right shows: the Countess
Haig; Earl Haig; Mr. Stanley Thomp-
son of Toronto, famous Canadian golfer
and architect of the Jasper course,
and Mr. Walter Pratt, general manager
of the hotel system of the Canadian
National Railways.

Along the Banff-Windermere Highway

(1) Entrance to Kootenay Park
from Canadian Pacific Camp at Sla-
clair Canyon.
(2) The Banff-Windermere Road
from Sinclair Canyon.
(3) Sengaw Camp at Vermilion
Crossing.
(4) Mountain goats sampling salt
provided by Parks Department, to en-
courage them down to the border of the
Road.

This is the Banff-Windermere Highway. It really needs no introduction
for it is numbered among the most famous and most perfect Motor
highways in the world. Above are the latest pictures of some of the country
it passes through and some of the mountain goats one is sure to encounter
just outside Banff.

Here is what the "Motor News" says about it: "This wonderful highway,
wide and smooth and hard and level as any the old Romans or the modern
Americans ever built, is in the Canadian Rockies. For 114 miles it twines
its tortuous way through unbelievably magnificent mountain scenery, from
Banff, the world-famous resort in Alberta, to Lake Windermere, in British

Columbia, clinging to the brim of sheer precipices, cleaving through sheer
canyons, skirting giant mountains, spanning great rivers, overlooking giant
valleys and affording the most soul-shaking views of rivers and valleys and
mountains stretching away and away, ever so far, ever so deep, ever so
high, for ever and ever, amen."

The mountains goats and sheep, incidentally, are quite tame and little
groups of the mild-mannered creatures not infrequently make themselves
at home in the middle of the roadway and gaze wonderingly at the Lord
of Creation who wait impatiently in their cars for permission to pass.
