> eadership to St. John? Is York prepared to exchange Andrew G. Blair for George J. Colter? Is York prepared to vote for the noval of the courts to St. John?

> Is York prepared to vote for the moyal of the university? Does York prefer Stockton of St. John as leader to Blair of York?

> Let the answer be decisive. Vote the ticket solid. No plumping, no divided ballots; but a solid vote for the government and old York.

A POOR EXCHANGE.

It is well understood that one feature of the deal between the York traitors and the St. John clique is that this County is to be represented in a new government, if one is formed, by George J. Colter. Giving Mr. Colter full credit for all the abilities which his most ardent friends claim for him, it will be admitted that he would be a very poor exchange for Andrew G. Blair. Do the electors realize that this is the issue before them? The defeating of the government ticket means the defeat of the government ticket means the defeat of the govern-ment of course and the formation af a new standing the search of the sergeant-at adminstration with A. A. Stockton at one arms, he could not be found. There was end end of it and George J. Colter at the other. To place Mr. Colter in this position and that was the vote on the bill to give his father and friends a right to build a is not to disparage his abilities. He has toll bridge across the river, out of money been in public before and we speak of him from the record he made then. A man may be a very respectable sort of fellow, but be utterly unadapted to politics. Such is Mr. George Colter. We do not agree with the Telegraph that he is a political failure, for that implies that some one expected something of him, but nothing was expected of George Colter and consequently no one was disappointed. That a gentleman of his qualifications was selected to fill the office of Board of Works might rather be | what it said:

Mr. Colter administered the department for nearly a year, during which time he might have been a representative of Timbuctoo, for all the county benefited by it. When the government of which he was a member went out, Mr. Colter dropped into his original obscuriy, coming to the light only to go on record against everything Mr. Blair was trying to do for the county, except a such times as he was able to dodge a vote, as he did on one memorable occasion. When the fate of the We have I think served this county faith- been consummated has not been denied Fredericton Bridge hung in the balance fully. I ask when you deposit your bal- and cannot be truthfully denied. If the The electors of the county are asked to exlots that you should so deposit them as electors of this county throw over the change Mr. Blair for this gentleman. Is not to weaken but to strengthen us, if you government ticket on the 23rd they will there a man of them who believes that wish us to remain in power another term. place this county in the hands of the St. George Colter can carry into the House

regarded as remarkable, if accidental suc-

Let us take the record since 1883 when the old government went out.

The first great question in which the government was involved was one in which this county was especially concerned, namely, the building of the Fredericton Bridge. Now we put it to the electors squarely; if George Colter had been in Andrew G. Blair's place is it at all likely that the bridge would ever have been proposed, or if proposed that he could ever have carried it through against the tremendous opposition brought to bear against it. No gentlemen, you know perfectly well that if George Colter had remained chief commissioner, Walter McFarlane would not have been able to stay until the opposition caucus the other night was over, for would have had to leave early to cate fact that Andrew G. Blair replaced George government of this province. Is not this true? We defy successful denial

Well the bridge was built, and then came a question where the government horses J. Colter would, if he had obtained the bridge have insisted that the stables should be erected in Fredericton, whereby not only is an outlay of six thousand dol- Twenty-five lars a year kept within the reach of the consent to the horses being kept in King's

Twenty-five \$2000. Well, gentlemen, how long do throughout the county. I thank you very people of York to say if they will play "York gets everything" went up over all the province. Would Mr. Colter have been able to do this?

Scarcely had the echoes of the above cry died away, than Mr. Blair was to the front again with his project for a new departmental building. It is no longer a secret that many of his friends thought get a government office. He admits his he was taking too much of a risk in proposing this. He had secured a good deal for his county-more than any other would be provided for him at a good man had secured in the same time, and though the new building was necessary, ring the opposition which it would meet, responsibility. Just as on the occasion of the memorable attack upon Fredericton old assembly was burned, Mr. Blair then leader of the opposition, staked his whole wishes of most of his supporters, so now days very averse to offering is well known, when the subject of departmental buildknew that the St. John snake was scotched not killed - that is to say, that moval of the capital to that city was only waiting a favorable opportunity to attack have already served the constituency in this city, and by the sheer force of his influence and determination he carried through the measure to provide the new building, and thus make Fredericton for all time safe as the capital of the province. Again we ask: Would George Colter have been equal to this emergency? If Barbadoes Molasses, &c. Mr. Blair had not replaced him as York's representative in the government of the province would the departmental building have been erected?

We might speak of the railway subsilies to the N. & W. and the St. John valley road and of many common matters, which have caused the administration to be called a "York county government," but space forbids. Here are a few considerations which show the difference between the gentleman who now represents York in the government, and the gentleman whom the St. John clique wish to replace him by. The St. John gentry know what they are about. They want to get To the Heirs, Executors, Administrators or York may begin without delay. But they won't do it. York knows what she

wise, insisted on making himself, and he turned up Mr. Colter. And Mr. Gregory well to his own cherished dream of power.

PRIVATE AND CONFIDENTIAL.

George J. Colter probably does not keep a file of the Gleaner, and therefore we beg to present for his eye alone a few paragraphs out of many, taken from the columns of his new apologist and champion. On March 26, 1885, the Gleaner discussing the vote on the grant to the bridge said: This (the argument of Mr. Hanington) so impressed Mr. Colter that although up to that time he had been waiting in the lobby to see how things were going, he felt unable to give a vote for the grant and not daring to vote against it, betook

a vote which Mr. Colter did not shirk granted from the public treasury. He was on hand then, but when it was necessary for him to cast his vote for the interests of the constituency he was con Later, after hearing all that Mr. Colter had to say in his own defence the Gleaner asked, in its issue of March 28, Why did he not come to his place stand up like a man and vote for his con-

On April 15, 1886, it gave the explanation of Mr. Colter's conduct. This is When Mr. Colter left his place in the house he walked to his hotel, saying to a friend as he went out: "I have voted enough for that bridge." Then warming with this subject, it said on April 20, 1886: Let no man who values the bridge vote On April 24, 1886, it told the electors

Every vote for Colter will gladden the nemies of York. And on the same date it said A leading opposition light said he hoped to God the bridge would be carried away and Blair with it." And went on to say that this was a sample of the men who wanted to see Mr. Colter elected. Such are a very few sample plums ou of a very large pudding. The Gleaner described Mr. Colter as incapable of hold ing his position in his party, as seconding every effort made to injure York, as ut-terly unmindful of the interests of this If I have three men from this county acting in harmony with me, I am not themselves to see a policy inaugurated weight and influences which Mr. Blair politician. And it rejoiced over his defeat as over that of a man, who did not influence of St. John The which will be vitally injurious to this possesses? possess sufficient interest in his consti-tuency to stand up for it, but preferred to be a pliant tool in the hands of the op-ponents of the county; and it asked what he had ever done that the county should prefer him to Mr. Blair; which is just what people would like to know now. ossess sufficient interest in his consti
