

In the Realms of Sport

THREE WORLD'S RECORDS WERE BROKEN AT OLYMPIC GAMES.

Harold Abrahams Won The 100 Metre Run—Paddock Won Sixty—Osborne United States, Broke Record In High Jump, Going Over 19 Feet 6 In.—New Mark In 400 Metres.

OLYMPIC STADIUM, Columbus, France, July 7.—Capturing the 100 metres title for Great Britain and depriving the United States of one of its most cherished Olympic championships, Harold Abrahams, of Cambridge University, was today's outstanding star of to-day's Olympic track and field events. He left no doubt of his superiority over the sprinters of all nations when he led Scholtz, the fleetest of the Americans, by three yards to the tape, in the Olympic record time of 10.3 seconds.

It was the third time that the Olympic bridge man made the record in two days. (100 metres equal 107.3 yds.) Robert Legendre, of Newark, N.J., in the pentathlon broke the world's record for the broad jump with 7.75 metres, equivalent to 25ft. 6in. This performance insured him first place in the event. His jump bettered by three inches the former world's mark of 25ft. 3in., held by E. O. Guardin, of Dorchester, Mass.

F. Morgan Taylor, United States, won the finals in the 400 metres hurdles. Taylor shattered the official world's record by finishing in 52.3-5 seconds.

Harold Osborne, United States, won the runner high jump with his record jump of 6ft. 6in., giving the United States a victory in another final event.

800 metres (first semi-final three to qualify)—Stallard, Great Britain, first; Wm. E. Richardson, United States, second; Martin, Switzerland, third. Time, 1 minute, 54.1-5 seconds.

800 metres, second semi-finals—Low, Great Britain, first; H. Waters, United States, second. Time, 1 minute, 56.2-5 seconds.

800 metres, third semi-finals—Ray Dodge, United States, first; S. C. Enck, United States, second; Charles Hoff, Norway, third. Time, 1 minute, 57.2-5 seconds.

5,000 metre steeplechase, first heat (three to qualify for finals)—Katz, Finland, first; Bontemps, France, second; Montague, Great Britain, third. Time, 9 minutes, 43.4 seconds. Roland Payne, Ohio State, failed to qualify.

5,000 metre steeplechase, second heat—Isola, France, first; Michael A. Devaney, United States, second; Ebb, Finland, third. Time, 9 minutes, 57.4-5 seconds.

5,000 metre steeplechase, third heat—Wills, Finland, first; Marvin Rick, United States, second; Newey, Great Britain, third. Time, 9 minutes, 59 seconds.

Final, 100 metre dash—Harold Abrahams, Great Britain, first; Jackson V. Schoz, United States, second; A. Porritt, New Zealand, third; Chester Bowman, United States, fourth; Charles W. Paddock, United States, fifth; Loren Murchnson, United States, sixth. Time, 10.3-5.

Burning high jump, (final)—Harold Osborne, United States, first 6 ft. 6 inches (a new record); Leroy Brown,

United States, second, 6 feet 4 3/4 inches; Lewden, France, third, 6 feet 2 1/2 inches; Tom Pool, United States, fourth, 6 feet 2 inches; Gasper, Hungary, fifth, 6 feet 2 inches; Jansen, Sweden, sixth, 6 feet 1 inch.

Lehtonen, Finland, first, 18 points; Sonfay, Hungary, second, 18 points; Robert Legendre, United States, third, 20 points; Unger, Sweden, fourth, 24 points; Leino, Finland, fifth, 25 points; Morton, Kaer, United States, sixth, 26 points.

LAST EVENING'S FOOTBALL.

Feldians 4 Goals; C.L.B.C. 0.

The football match between the Feldians and the C.L.B.C. teams, played at St. George's Field last night, was witnessed by a very small attendance, whilst the exhibition handed out was not one of the best, due to the wet and soggy ball and the poor condition of the field. The Feldians, playing the better football, copped the game, winning out by a score of four goals to their opponents nil.

The game was delayed in starting owing to the non-appearance of a referee which proved very disappointing to those gathered around. After a rather lengthy wait Mr. W. Thistle, a spectator on the grand stand, consented to fill the breach.

LAST NIGHT'S BOXING.

Naval Men Win Four Out Of Six Contests.

The boxing match, between the best fighters in the city and those of H.M.S. Constance, took place last night in the Prince's Rink, before a large gathering of enthusiasts. The attendance was so great that every place of advantage was taken up long before the tournament was opened, while the demand for ringside seats called for extra chairs. Among those present were His Excellency the Governor, accompanied by Capt. A. B. Baird, acting A.D.C., the Prime Minister, Hon. W. S. Monroe, Padre Nangle, and many other prominent citizens. The programme of events, six in number, comprising the various class weights, were keenly contested, and proved thoroughly enjoyable to all. A feature of the performance was the clean manner in which each bout was fought.

The tournament commenced in real earnest, and the audience was treated to some clever exhibitions of the many art. The boxers from the ship proved superior in the majority of bouts, and bested the locals in four out of the six fights staged; winning one on a knockout, two on points, while Davis, the light heavyweight, was awarded the decision over Butler on a foul. Butler was disqualified by Referee Cullen for closing low with his opponent in the fourth round.

WELTERWEIGHT.
A. B. Kite (Constance) 140lbs. vs. Way (City) 130lbs.

This was a four round contest. Kite proved to be the master of the situation in all four rounds. With a solid right and deadly left-handed punch, he floored Way several times, but Way gamely came back and held on until the last round when he was sent to

FEATHERWEIGHT.
Vandersteen (Constance) 125lbs. vs. Marshall (City) 131lbs.

The featherweight bout between

the canvas for the full count. Kite landing over a left-handed punch to the right jaw.

FEATHERWEIGHT.
Hawker (Constance) 125lbs. vs. Chaney (City) 130lbs.

Honors were evenly divided in the first two rounds. In the third round, Chaney put up an excellent exhibition, delivering several well directed punches to his opponent's head and body. A terrific milling was witnessed in the final round, with the local boy holding the advantage. Chaney was awarded the bout on points.

BANTAMWEIGHT.

Bunt (Wireless Station) 117lbs. vs. James (City) 116 1/2lbs.

This was a real fireworks display. Both boxers opened up hostilities in the real earnest, and the pace did not slacken until the fourth round. At first Bunt had the better of his man and inflicted punishment, but James showed himself able to take any amount of it and gradually wore his opponent down. Bunt landed several good upper cuts during the bout, but many went wild. James was awarded the decision on points and was heartily applauded.

MIDDLEWEIGHT.

A.B. Dabbs (Constance) 139lbs. vs. Diamond (City) 150lbs.

For four rounds these men put up a merry battle for the points, and at the end the judges declared the bout a draw. In the final round Diamond slackened somewhat; while at the same time Dabbs pushed matters. The judges then awarded the decision to Dabbs. A part of the audience disapproved, but it was generally conceded that the decision was fair.

LIGHT HEAVYWEIGHT.

A.B. Davis (Constance) 170lbs. vs. Butler (City) 180lbs.

Great interest was centered in this bout, but it was most disappointing. The contestants entered the ring about even in stature, with Butler holding an advantage of 10lbs. in weight. Several well directed blows were exchanged, but Butler was inclined to clinch, and the referee was given a busy time in keeping the opponents separated. For some inexplicable reason the police stopped the fight in the first round after Davis had delivered a blow to the solarplex which made Butler groggy, but it was fairly delivered and there was nothing to justify the police's action. Eventually the fight was allowed to proceed.

In the third round, Butler landed a solid right to Davis' left jaw, who took the count of six, while almost immediately after Davis retaliated and sent Butler to his knees for the count of four. In the fourth round Davis had Butler on his knees twice for the count of three and four. The fifth round saw many clinches and after one minute had elapsed, Butler was disqualified for fouling, a decision which met with general approval. Davis was given an ovation. He has shown himself one of the cleanest and ablest exponents that we have had here for many years.

UNITED STATES STEEL.

Surplus Earnings After Dividends \$856,445.643 Since Incorporation In 1901, Or Over \$168 A Share In Common.

(BOSTON NEWS BUREAU).

BOSTON.—Since its incorporation in 1901 and to the close of 1923 the United States Steel Corporation reported surplus earnings, after dividends, of \$856,445.643, equal to over \$168 a share on its 5,038,025 common shares.

All of this surplus does not show on the balance sheet, \$162,795,509 having been expended in property and written off, thus becoming a hidden asset. Of the remaining \$693,650,123 there has been appropriated for property additions, etc., \$180,898,914, carried on the balance sheet as "appropriated surplus," the remaining \$487,751,220, with \$25,000,000 cash surplus provided at organization, a total of \$512,751,220 being carried as undivided surplus.

X Business Established in 1814. X

Wide leather belts in bright colors are worn with simple crepe frocks or sweaters.

The wrist watch is now a delicate oval affair mounted on a rather heavy chain.

Capes of plain colored chiffon are attractive worn over frocks of printed crepe.

Chinese embroidery in gold and colors is used on the skirt of a frock of black crepe.

There seems no limits to the adaptability of the favored studded rhinestone trimming.

Skirts grow steadily shorter. The extreme seems to measure fifteen inches off the ground.

A great deal of hand-embroidery and drawn work is used on voile frocks in pastel shades.

A buckle of brilliants is used to hold the drapery at one side of a dinner gown of black-satin.

The latest whim in accessories is to have them in sets, such as matching umbrellas, scarf and purse.

The vogues for beads lives—probably on account of the becoming fashion in which they are worn.

A homespun coat in a colorful pattern makes a charming suit when worn with a white flannel skirt.

A very wide belt of white kid is worn at a low waistline on a sports frock of colored silk broadcloth.

The white flannel coat, with possibly a collar of summer fur is excellent for sports and general wear.

Bands of white chain-stitching in an all-over pattern are used on the skirt of a frock of plain colored voile.

A very delightful fad in jewelry is the strand of rather large silver beads worn round twice about the neck.

A band of rhinestone and bead embroidery marks the hip-line of a rather full-skirted frock of silver tissue.

The sheer evening frock may have a short sleeveless coat about hip-length, just to give an extra flare to the top.

This \$856,445.643 surplus is represented on the asset side of the corporation's balance sheet as follows:

Added to working capital	\$316,958,378
Added to property account and other fixed and semi-fixed assets	539,477,265
Total	\$856,445,643

When the corporation was organized it had current assets of \$192,365,379 and current liabilities of \$68,141,290, making working capital \$124,224,089, according to its report to the Bureau of Corporations. Current assets as shown by the last balance sheet were \$588,595,493 and current liabilities \$137,403,026, leaving working capital of \$451,192,467, an increase of \$316,958,378.

All the \$539,477,265 added to other assets from surplus was not spent for plant construction. The corporation had reserves for sinking fund, etc., of \$119,649,102 and other assets, such as advanced mining royalties, aggregating \$73,479,487. Against these it had sundry reserves of \$163,260,621. The actual amount of surplus represented by property acquisition or construction is about \$540,000,000.

Since its organization United States Steel has spent a total of \$1,139,573,515 on new construction. Of this, as shown in the foregoing, approximately \$540,000,000 was obtained from surplus earnings, the remaining \$599,573,515 being largely from the reinvestment in the properties of depreciation funds deducted from earnings each year and to some extent by issues of corporation and subsidiary bonds.

Property expenditures of \$1,139,573,515 are equivalent to over \$224 a share on the corporation's common stock.
