FURTHER AUTOMOBILE ACCIDENTS

The number of Automobile Accidents, doing both injury to life and damage to property, is increasing daily. In many cases the auto owner cannot avoid these unfortunate occurrences, but whether to blame or not, he is invariably held responsible, and often called upon to pay large sums of money, far beyond the average man's ability. No owner, therefore, can afford to operate a car without the financial backing of the Automobile Policy. OUR Policy not only indemnifies the Insured against loss from the liability imposed by law, but also provides for the Defence and all expenses of Court. The premium for this protection is but small.
