The Mount Forest Reform Demonstration.

We notice by the Mount Forest papers that the Committee, who have been active in getting up the Reform Demonstration there, is to come off on the 24th inst., have completed their arrangements. Invitations have been sent to the Hon. Messrs. Mackenzie, Blake, Brown, McKellar, Wood, Crooks, Gow and other leading Reformers, as also the members of both Houses of Parliament for the Counties of Wellington and Grey, and it is confidently expected that all those gentlemen will be present. The Reception Committee, accompanied by the Village Band, will meet their guests at the railway station at one o'clock, on the arrival of the train from Toronto. A procession will then be formed, and will march to the Drill Shed, where addresses will be delivered at half-past two. In the evening a dinner will be given at Coyne's Hotel. It is confidently expected that the Demonstration will be the largest and most successful ever held in that part of the Province.

Magistrates and Constables.

On reference to our report of the Inquest on Friday evening, it will be perceived that the question of jurisdiction of a County Magistrate over a Town (and who likewise happened to be a County Constable, was raised by a County Magistrate, Mr. Samuel Hodgskin, resident in the Town. We heard it asserted at the time, that by statute, *supreme* jurisdiction is vested in the Police Magistrate (where there is one) of a town, and on further investigation this morning, we find such to be the case. It follows, therefore, from the law as it at present exists, that Mr. Hodgskin had no legal jurisdiction over the constable in question,—that is, supposing the crime in question was one committed within the precincts of the Town,—and any constable standing upon his dignity, and acting on the strict letter of the law, may refuse to act at the request of any other than the Police Magistrate. We would fain hope that we possess no Constables who would so shelter themselves behind a mere technicality, as to evade what is the very duty they are appointed to perform. Still, we think it unfortunate that the words of the statute are so framed that any Constable can plead a want of competent jurisdiction as a reason why he does not feel himself called upon to execute the order of a Magistrate acting promptly in the interests of public justice. If the Police Magistrate's authority to act must first be necessary, how often may not grave offences go "unwhipped of justice," for want of the requisite legal power on the part of Magistrates to promptly arrest the offenders, and we therefore hope that the law will speedily be so amended that this anomalous state of things will cease.

The Dundas Banner says:—In a fit of desperation the London *Free Press* has come down to an article giving a description of the bedding and beds used by the members of the Ontario Government who occupy apartments in the Parliamentary Buildings. The *Free Press* thinks two in a bed too many. Our enterprising western contemporary should next tell his readers how often the members of the Government wash their faces, and whether or not they keep their toe nails properly pared and cleaned, and at the same time he might let it be known how many corns or chilblains they have on their feet.

Should the next Dominion Parliament become sick, it will have plenty of doctors to prescribe for its ailments. Here is the list of its medical advisers:—Drs. Bergin, Brouse and Grant, of Ontario; Paquet, Robitaille Fortin, St George, Fiset and Lacerte of Quebec; Tupper, Forbes and Almon, of Nova Scotia, and Schultz and Lynch of Manitoba. The only malady known, which the House is likely to suffer from, is a constitutional one requiring a total change of regime, and this was insisted on by doctors Mackenzie and Blake.

MIRACULOUS ESCAPE.—COURAGE OF AN ENGINE DRIVER.—On Friday afternoon last, Mr. William Haugh, a retired farmer living in the township of North-Est, was indicted for his life to the presence of mind and courage of an engine driver on the Grand Trunk. The engine driver, Edward Tout, was in charge of a special freight train which left here at half-past one, p.m. When approaching the crossing by the Little Lakes, he saw a man, who turned out to be Haugh, walking on the track. He whistled repeatedly to draw the man's attention to get off the track, but he did not seem to hear. When Tout saw he was not going to get off he whistled "on brakes," and did all in his power to stop, but the train could not be stopped before the cowcatcher struck the man. Tout then watched both sides of the engine to see if he would fall out. Seeing he did not fall out on either side, the driver went out on the front end of his engine, and when he got there the man was in the act of rolling off. He immediately leant over, seized him by the coat collar, and held him up until the train was stopped. He was then released from his perilous position and conveyed back to Stratford, where it was found that he had sustained but very slight injuries, though but for the succour rendered him by Mr. Tout, at great peril to himself, he must in another minute have been cut to pieces.—*Stratford Beacon*.

By the arrival of the good ship *Oceanic* the literary amazons of America receive amongst them one of the most distinguished of their sisterhood. On the 26th inst. Miss Emily Faithful took heart of grass and embarked on board the *Oceanic* to commence a twelve months' tour of the States. The primary object of her journey is to inspect the factories of America with a view to gathering hints for the amelioration of the condition of the English factory-women.

THIS MORNING'S DESPATCHES

Prince Napoleon Leaves Paris.

Great Fire in Bangor.

Fatal Shooting Affair.

Fall of a Building.

A Number of Lives Lost.

Paris, Oct. 11.—Midnight.—Prince Napoleon has yielded to a peremptory order of the Government, and left Paris. Bangor, Me., Oct. 11.—11:37.—Schwartz's fine block, on west market square, is now on fire. The flames have entire possession of the block which is past being saved. The efforts of the firemen now being directed to preventing the spread of the fire to the adjoining block.

Baltimore, Oct. 11.—Samuel Barrett—who was shot last night while a torch light procession was passing through the street, died this afternoon. Louisville, Ky., Oct. 11.—A new house, being erected on Market-st, between third and fourth streets, four stories high, fell about seven o'clock this evening, crushing in the rear, part of the two houses adjoining, one occupied by Mr. J. G. Webb and the other by Mr. Henry Notti's family, consisting of himself, his wife, 5 children and a journeyman named Lewis Johns who were at supper, and were buried in the ruins. Six bodies have so far been recovered from the ruins.

London, Oct. 11.—The weather to-day on the British coast is tempestuous, and some damage to shipping is reported.

The announcement of the death of W. H. Seward is received in England with great surprise, no intimation whatever of his illness having reached there.

The *Daily News* says:—Though Mr. Seward was unpopular here by reason of his peremptory bearing, he leaves behind him a great example of vigor, energy and success.

The rumor of an autumn session of Parliament is discredited.

DR. HERMANN VON ORGES, a well-known Austrian economist, has issued a pamphlet on women's work in connection with the Vienna Industrial Exhibition, where special attention will be given to the work performed by women. At the London Exhibition were seen the products of human industry, at the Paris Exhibition the instruments of human labor, and that to be held at Vienna will show who the laborers are. Information already obtained shows that in Austria women play a much more important part in all kinds of manufactures than they have hitherto been supposed to do, and that in all departments where great bodily strength is not required their work is quite as valuable as that of men. A school has recently been opened in Vienna for the instruction of women in certain departments of work for which they are peculiarly fitted, such as the making of patterns for jewelry, dresses, and so forth, and the productions of the students will be shown at the exhibition to enable manufacturers to judge of their value.

KENNEDY IN AUSTRALIA.—The Australian correspondent of the London *Era* says:—Mr. Kennedy, the Scottish vocalist, assisted by his family—two sons and two daughters—made their debut to their first Melbourne audience on the 2nd of July at the new Temperance Hall, Russell street, and received quite an ovation. Indeed, I never witnessed any entertainment that went off so enthusiastically. I presume all the Scotch people in the colony must have been present. Of course Mr. Kennedy, sen., is the chief attraction. At a conclusion to the entertainment "Auld Lang Syne" was sung, and the audience was so thoroughly carried away by their entertainer that they all stood up—men, women and children—and sang as lustily as ever they had done on the tops of the hills of their native land.

BLOWING UP A NEWSPAPER OFFICE.—The building in which the Raleigh, N.C. *Sentinel* is printed, was nearly destroyed on Friday morning by the explosion of some powder which unknown persons placed under the press. All the type in the composing room is piled. A package of powder with a slow match was also found under the job press, but the match had gone out. The explosion occurred at one o'clock and caused great excitement. Crowds flocked to the scene of the attempt. The roof of the press room is blown to pieces, and the press completely demolished. Two men were seen to run away from the place shortly before the explosion.

On Thursday a man named Wilson, of Sarnia, a brakeman on the Sarnia branch of the G. W. Railway, was killed. He was on the top of the cars letting off brakes, the cars being in motion. His head came in contact with the bridge, breaking his skull, knocking him down between the cars.

An old gentleman named Dubord, formerly one of the members of the Canadian Parliament for Quebec, walked out some time on the morning of the tenth from a fourth story window, in a fit of somnambulism, and when picked up was a mangled corpse on the pavement.

THERE has been an explosion in one coal mine in Pictou County, Nova Scotia, and a crushing in of the roof of another. The ground above has sunk about three feet, and the depression, if it spreads further, may possibly cause the destruction of the village of Westville.

BEVERLY FLOODING MATCH.—The annual match of the Beverly Township Agricultural Society, will take place on Mr. John Cowes' farm, lot 28, 8th con., on Tuesday, 22nd October, when prizes will be awarded in three classes—mens', boys from 15 to 18, and boys under 15. Ploughs to be on the ground at 9, a.m.

BIRTHS.
