Panama Showed Deliberation in Carrying Out Revolution.

Were Incensed at Action of Colombia in La Patrie, Mr. Tarte's paper, but in Rejecting the United States Offer.

Panama, Colombia, Nov. 4. - The revolution which occurred here yesterday and which resulted in the proclamation of the independence of the Isthmus of Panama, was not unexpected, Since Sunday last all kinds of rumors had been in circulation, but it was not until Tuesday night that the hour so long looked forward to by the inhab-Jose Arango and Frederico Boyd and other leaders of the popular movement were watched by the police. But the revolutionists fearlessly went in and out of their residences, issued their orders, and their plans were carried out. It was at first arranged that the revolution should take place at 2 a.m. on Wednesday, but when a telegram was received from Colon announcing that General Tovar, with , a detachment of 500 troops, had arrived there from Savanilla, on the cruiser Carthagena, some of the revolutionists discouraged, and it seemed likely that the movement would col-lapse. But the more determined leadof the revolutionists called on Dr. Amador and urged taking immediate action, while others advised postponing the uprising. But Dr. Amador was full of enthusiasm, and would not listen to any proposals to postpone the outbreak until later than Tuesday, This was the ously awaiting for orders

Thereu signal was given to General Huertas, of the revolutionary forces, who, in the name of the Republic of Panama, arrested General Tovar and his staff, and escorted them to police headquar-ters amidst wild cheering for the new republic, for Dr. Amador and for the other leaders of the revolution. The flag of the Republic of Panama was then formally hoisted. It consists of four squares. The first upper square, to the left, is blue. The first square to the left is white, with a blue star in its center. The second in its center, and the second lower

# UNITED STATES

Would Like to See Her in Control of Panama Isthmus.

GERMANY WILL KEEP HANDS OFF phalia.

And the Other European Powers Are Expec'ed to Follow

London, Nov. 5.-The question of the recognition of Panama's independence entirely depends on the action of the United States. If Washington communicates to the powers that it intends to recognize the independence of Panama it is not likely that there will British troops and tribesmen in British be the slightest objection on the part of Great Britain, while according to the views of the diplomats here, the other European powers probably will encountered the tribesmen on the quickly follow suit. There has long been a strong feeling in British official circles that it would be an excellent arrangement if the United States would undertake the preservation of good order and the stability of all the Central American states. This feeling is well known to the American diplomats in England.

At the German embassy here a representative of the Associated Presswas informed that there was not the faintest likelihood that Germany would take any steps in the matter. On all sides the United States' paramount interests and right to deal with the situation single handed are frankly recognized by the diplomats, though the Globe declares that on account of the proximity of the West Indies. the British Government should take hand in the matter.
