

C. OF C. OBJECT TO
NEW REGULATIONS

Customs Law Requiring the Marking of Goods, Impracticable.

The committee of the chamber of commerce will shortly submit to the department of customs objections to the proposed new customs regulations regarding the marking of imported goods. These, it was first intimated, should go into effect on the 1st of October last, but owing to protests lodged, postponement was authorized until Dec. 31, of this year. As some of the regulations are considered to be impracticable it is hoped that there may be a further postponement, or at any rate considerable modification of present requirements.

The regulations provide that all goods imported into Canada, which are capable of being marked, stamped, branded or labeled without injury, shall be marked in legible English or French words in a conspicuous place that shall not be covered or obscured by any subsequent attachments, so as to indicate the country of origin, the marking to be nearly indelible and permanent as the nature of the goods will permit.

Where the goods are not so marked an additional 10 per cent ad valorem will be levied on the value for duty purposes, and the goods shall be held by the customs until the marking is done. Violation of the terms of the regulations is punishable by a fine of \$1,000 or a year's imprisonment, or both.

Importers interested in this matter are asked to communicate immediately with the Chamber of Commerce.

GENEROUS RESPONSE TO
CHARITABLE REQUESTS

Woodgreen Sunday School Gives Two Truckloads to City Needy.

As the first response for aid during the coming winter for the needy of London comes a substantial gift from the Union Sunday School of Woodgreen, West Middlesex, in the form of two truckloads of apples, potatoes and other vegetables for the Children's Aid Society.

This follows the commencement recently, of a vigorous campaign by members of the Rotary, Kiwanis and similar clubs in the cities, to interest their friends and relatives in the rural districts with such undertakings.

It was suggested at recent gatherings of these various organizations that every member pass the word along to country friends.

50 Proud Gobblers Die To
Fill London Tables
On Thanksgiving

THERE are at least fifty Londoners who believe in shopping early for Thanksgiving turkeys. There were some fifty fat plump gobblers on the market Thursday, which had given up the ghost in order that London tables might be properly laden on Monday.

The price paid in the majority of cases was 40 cents a pound, although a few turkeys changed hands at from 37 to 42 cents.

There was a large supply of other poultry on hand, which found a ready sale. Chickens sold from 23 to 28 cents a pound, and geese at 22 to 25 cents.

VERDICT OF JURY FREES
CAR DRIVER FROM BLAME

C. E. Marley Not Responsible for Death of James Quinn.

Charles E. Marley was held blameless in connection with the death of James Quinn, 596 Waterloo street, who died as a result of injuries received when he was struck by Marley's auto last week, by a jury at the inquest at the police station on Wednesday night.

The accident occurred on Waterloo street, just north of Central avenue, at night. Quinn stepped off the curb, just eight feet in front of the auto, which was south bound. He had on his shoulder a stick of cordwood, three feet long, which crashed through the windshield of the car. Marley was the only witness of the accident. Shortly afterward Bryden H. Campbell, an insurance agent, and Constable Joseph Miles arrived on the scene.

Dr. U. E. Bateson, who attended Quinn, declared death was due to shock caused by numerous injuries.

REAL ESTATE MEN HEAR
TALK ON TOWN PLANNING

T. J. Murphy Addresses Meeting of London Board.

A meeting of the London real estate board was held in their board room Wednesday. Bert Weil, occupying the chair, introduced T. J. Murphy, the speaker of the evening, who gave an interesting and profitable address to the realtors on town planning.

Mr. Murphy, who has just returned from a town planners' convention held at Toronto, where he was elected chairman of the London district, convinced all present that any city introducing town planning will be greatly benefited.

He stated that Toronto spent three million dollars on the viaduct over the Don Valley, which increased the value of the taxable property in that vicinity twenty-five million dollars.

A hearty vote of thanks was tendered Mr. Murphy, who was then notified that he had been elected an honorary member of the board.

Urges Efforts To Perpetuate
World Friendship Born of War

New York, Nov. 3.—The New York Sun says today: "Canada's announcement that she intends to send her oldest Victoria Cross bearer to place a floral tribute on the bier of the 'unknown American' helps bring to mind the universality of the war dead, American, English, French or other."

"He is international, this boy bound for Arlington. The friendships that the stress of battle instilled among the al-

lied nations have surveyed their origin. The ex-doughboy who keeps his French fresh in correspondence with peasants 'over there,' and the French statesman who places a wreath on the tomb of our unknown hero have alike realized that certain memories of the war should not be permitted to die. Both are determined to retain the friendship that served so well in days of suffering, and both are splendidly right."

CONTRACTORS DISOBEY
ORDER TO RE-LAY ROOFS

Housing Commission Meets to Determine Action Taken.

The order of the housing commission that the architect and contractors who were responsible for the erection of the 41 Pine Lawn houses relay the roofs has so far brought no action.

The commission is meeting tonight, and will go into the matter. Commissioner D. Tallant, vice-chairman, will urge that the commission itself proceed with the work of relaying the roofs. There is believed to be sufficient money held back by the commission from the architect and contractors to do the work if not the money will be used, and then perhaps action started to recover the balance.

The action of the commission in ordering the roofs relaid was taken on the recommendation of the provincial housing commission architect, J. A. Ellis, in a report by one of his architects.

FIVE KILLED WHEN ARABS
ATTACK JEWISH QUARTERS

Bomb and Knives Used in Jerusalem Riots.

Jerusalem, Nov. 2.—Five persons were killed and thirteen others were wounded in disorders here today, which included the throwing of a bomb. The trouble, the police report, originated in an attack by Arab rioters on the Jewish quarters.

Of the killed, four were Jews and one an Arab.

There were a few cases of knifing and shots were exchanged between the factions.

The police frustrated the Arab attack. Later, while troops patrolled the city, the governor, with the officer commanding the troops and the principal Moslem notables, went through the streets and restored order.

CITY TO STOP PAYING
DEBENTURES IN GOLD

London is going to depart from the war-time experiment of making city debentures payable in gold. The city, in common with the province and dominion, for the period of the war, set forth in all debenture issues that the interest and principal were payable in gold. City Treasurer Bell is of the opinion that this is no longer necessary, and after taking the matter up with the solicitor, decided that it could be eliminated. The council, on Monday next, will be asked to sanction the change.

DARING PORCH CLIMBERS
BAFFLE OTTAWA POLICE

Ottawa, Nov. 3.—A gang of second story artists are operating in the city and have already committed a number of burglaries in the residential districts. So far the police have been completely baffled owing to the astuteness of the burglars, who left no clues behind at any of the places they visited. They apparently are professionals, as their searches through the houses have been very thorough, with the minimum amount of noise and risk.

The most daring of these burglaries was committed early Wednesday morning when the home of J. H. McMoran, Hopewell avenue, was entered and cash amounting to \$80 stolen.

URGE EFFORTS TO
PREVENT DISEASE

Continued From Page One

three and a half of these infectious diseases, measles, diphtheria, scarlet fever. In a population of 9,000,000 this means 30,000,000 attacks of these diseases before the age of 16.

"After the age of 16 comes the train of such communicable diseases as tuberculosis, pneumonia, on an average of 54,000,000 infections for one generation of Canadians. At a dollar each think of the cost to the country, apart from the sorrow, sickness and waste of time. Infinitely better to spend \$100,000,000 in prevention than \$4,000,000,000 in attempting to cure."

Touching upon the service of women in connection with public health work, Dr. Hill referred to woman's patience and persistence as an invaluable asset where the working out of details is concerned.
