

The Colonist.

FRIDAY, OCTOBER 2, 1891.

THE REPORTS.

It is surprising, after all, to see how little difference there is between the report of the majority and the report of the minority of the sub-committee in the matter of the Tarco charges...

To put the case in brief, Thomas McGreevy is found guilty, by both sides, on every count, while Sir Hector is exonerated, by both sides, on every count...

The substantial agreement of the two reports also strikes the Toronto Empire most forcibly. Among its comments on the subject are the following:

Yet, strongly biased as the framers of the minority report plainly show themselves to be, it is strikingly significant to see how they are forced to follow the main reports in all its essential findings...

Both reports agree in finding that Larkin, Connolly & Co., the contractors for a number of public works, were nothing short of swindlers and robbers...

Both reports agree that Thomas McGreevy, member for Quebec West, was a party to this swindling conspiracy, and that he acted to some extent as agent for the firm in procuring information and assisting them in their operations.

Both reports agree frankly in acquitting Sir Hector Langevin of the charge of personally receiving money from Larkin, Connolly & Co. for himself, or for any other purpose.

The Empire, though generally considered a partisan, does not attempt to whitewash Sir Hector Langevin. Like the report of the majority it is silent on some subjects on which it is best for the Conservative party and the country to be outspoken...

While the minority report goes to an extreme in its conclusions as to the facts, which the evidence does not warrant, it makes no suggestion of any action which ought to be taken in pursuance of the findings...

To show how far Conservatives are from endeavoring to frame excuses for Sir Hector Langevin or to palliate his conduct as Minister of Public Works in any way, we will quote a few sentences from the Hamilton Spectator, which is justly regarded, wherever it is read, as one of the strongest of the party newspapers...

Public Works, and they hold him responsible for the workings of his office. He cannot evade that responsibility. But Sir Hector has—and justly has—the reputation of being the most painstaking of all the ministers at Ottawa...

It is pleasant and encouraging to see the Conservative Press rising above mere partisanship in this way. It is abundantly evident that there is a strong and a healthy public opinion among Conservatives with respect to the scandals...

It will be remembered that a few weeks ago the miners in a district in Tennessee protested with arms in their hands, against the employment of convicts in the Baccville mines. The Governor of the State called out the militia, but rather than that blood should be shed in such a cause, he entered into negotiations with the armed miners...

Governor Buchanan was as good as his word. He called a meeting of the Legislature, but when it met it would not do the work that the striking miners and their friends and upholders demanded that it should do...

Both reports agree in finding that Larkin, Connolly & Co., the contractors for a number of public works, were nothing short of swindlers and robbers, who deliberately conspired to defraud the Government out of immense sums of money in connection with their contracts.

Both reports agree that Thomas McGreevy, member for Quebec West, was a party to this swindling conspiracy, and that he acted to some extent as agent for the firm in procuring information and assisting them in their operations.

MINISTERIAL RESPONSIBILITY.

The question of ministerial responsibility is one that forces itself upon the readers of the reports on the Tarco charges, and the articles that have been written on those reports. Those who say that the report of the majority "exonerates" Sir Hector Langevin, late Minister of Public Works, would have the public believe that the representative of the people who accepts the portfolio of a Department, and is, by courtesy, addressed as the Minister of that Department, is a mere figure-head...

SCENES IN CHINA.

TO THE EDITOR.—It may afford some pleasure to the Europeans who were present during the evening at the China Mission chapel, on Figard street, to know some particulars of scenes exhibited by the magic lantern which interested the Cantonese. One of these, the Tomb of Yoh Fei, a general who flourished during the reign of Fy Chong, a sovereign of the Tai Song dynasty, 1185, A.D. It appears that Fy Chong in fighting the invading army of a neighboring sovereign was taken prisoner, and that his officers offered great rewards to any of the officers of his army who should accomplish the overthrow of the enemy, and the restoration of her husband to his throne...

Most people will conclude that the report which condemns officials of the Department of Public Works and finds that men who had dealings with it were guilty of glaring frauds does not exonerate the Minister who was, while the frauds were committed, the head of that department.

STATE ELECTIONS. Elections are to be held in ten States on the 3rd of November next. The campaigns in some of these States have commenced, and their progress is viewed with great interest by the whole country. It is believed that the result in some of them will indicate pretty clearly how the Presidential election of next year will go. This is particularly the case with the Ohio election, where Mr. McKinley, of tariff fame, and the candidate of the Republican Party, the issues at that election have, it would appear, been purposely made general. It was at first believed that the trade policy of the United States would have been made the sole issue, but the Republicans have contrived to import the silver question into the contest...

It will be remembered that a few weeks ago the miners in a district in Tennessee protested with arms in their hands, against the employment of convicts in the Baccville mines. The Governor of the State called out the militia, but rather than that blood should be shed in such a cause, he entered into negotiations with the armed miners...

THE OWEN ELECTRIC BELT & APPLIANCE CO.

(HEAD OFFICE, CHICAGO, ILL.) Incorporated June 17, 1887, with Cash Capital of \$50,000. Patented in Canada, December. 71 King Street West, Toronto, Ont. O PATTERSON, Manager for Canada.

Electricity as Applied by the Owen Electric Belt and Appliances. It now recognizes the most scientific and most efficacious means of curing suffering humanity. It has done and will effect cures in seemingly hopeless cases where every other known means has failed. Remedies cannot exist where it is properly used. By its steady, soothing current, that is easily felt, it will cure...

RHEUMATISM. It is not pleasant to be compelled to refer to the indisputable fact that medical science has utterly failed to afford relief in rheumatic cases. We venture the assertion that although electricity has only been in use as a remedial agent for a few years, it has cured more cases of Rheumatism than all other means combined. Some of our leading physicians recognize this fact, and availing themselves of this most potent of Nature's forces...

RESTORE MANHOOD AND WOMANHOOD. As man has not yet discovered all of Nature's laws for giving life, it follows that every one has committed more or less errors which have left visible blemishes. To erase these rights of nature, there is nothing to equal electricity as applied by the Owen Electric Belt. It has cured more cases of Rheumatism than all other means combined. Some of our leading physicians recognize this fact, and availing themselves of this most potent of Nature's forces...

EXTRACTS FROM CANADIAN TESTIMONIALS. "For eight years I have suffered with rheumatism, and am now out of pain and growing better daily and in my 70th year. Can confidently recommend the Owen Belt when every other remedy has failed." A. Menzies, Niagara Falls. "Having some knowledge of electricity and its power, and having used other means prior to my use of yours, I can say that it is the best I have ever worn." Jas. Blair, Port Dalhousie. "Am much pleased with belt, it has done me a great deal of good already." J. Bergin, Gait, Ont.

BEWARE OF IMITATIONS AND COUNTERFEITS. Our attention having been attracted to base imitations of "The Owen Electric Belt," we desire to warn the public against purchasing these worthless imitations upon the market by unprincipled men who, calling themselves electricians, prey upon the unsuspecting by offering the worthless imitations of the Owen Electric Belt. The Owen Electric Belt cannot be manufactured and sold at cheap prices. Send six cents for illustrated catalogue of information, testimonials, etc.

THE OWEN ELECTRIC BELT CO., 71 KING ST. WEST. (Mention this paper.) TORONTO. TO THE EDITOR: Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. I shall be glad to send you a copy of my remedy FREE to any of your readers who believe in my remedy. If they will send me their Address and Post-Office Address. Respectfully, T. A. BLOOMING, M.D., 129 West Adelaide St., TORONTO, ONTARIO.

DR. JORDAN & CO'S Great Museum of Anatomy 1051 Market St., San Francisco (between 6th and 7th Sts.) Go and learn how wonderfully you are made and how to avoid sickness and disease. Museum enlarged with thousands of new objects. Admission 25 cents. Private Office, 211 Geary St. Diseases of men: stricture, loss of manhood, discharges of the kidneys, gonorrhoea, etc. cured without the use of mercury. Treatment personally or by letter. Send for book.

DR. J. COLLIS BROWNE'S CHLORODYNE. THE ORIGINAL AND ONLY GENUINE. Vice-Chancellor Sir W. PAKE Wood stated publicly in the case of J. COLLIS BROWNE vs. J. T. DAVENPORT that he was undoubtedly the inventor of Chlorodyne, and that the whole story of the defendant Freeman was literally untrue and he regretted to say that it had been sworn to.—Times, July 13, 1885.

DR. J. COLLIS BROWNE'S CHLORODYNE. THE BEST AND MOST CERTAIN REMEDY IN CHOLERA, COLIC, DYSENTERY, CONSUMPTION, NEURALGIA, RHEUMATISM, ETC. Boucher, the real estate man, is booming up Port Simpson, and if he meets with the same success he met with in booming up Victoria and Port Angeles, to say nothing of success he deserves, he will get there!
