A New Mountain Road

As further particulars are received from the exploration party under Mr. A. O. Wheeler Director of the Canadian Alpine Club, regarding the great expedition over the Grand Trunk Pacific Railway through the Rocky Mountains, it is known that the new Transcontinental Railway will be able to offer to the patron the finest scenery of any of the Transcontinental Railways in America.

In the last report received the territory in the vicinity of the head waters of the Athabasca and Whistler rivers is touched upon, and Mr. Wheeler states, opening up a field for exploration and research, mountaineering and camping that is absolutely new, and of which practically nothing is known. This group of mountains is approximately 12,000 feet above sea level, and shows contours of the wildest and boldest possible forms. Immense snow fields and huge glaciers are everywhere. Boldest and most inaccessible are the great black precipices of Mount Gerkie, the central point of the group. Again to the south are an endless array of peaks, towers, pyramids, domes, castles, and ramparts in bewildering confusion.

An attempt was made to identify the much talked of "plains of Columbia," Bryce, Lyall, Forbes, etc., but in the chaotic whole it found no place with any certainty.

Your Good Looks

Should be a source of pride to you. Sallow skin, pimples, blotches, and wrinkles call for immediate attention. It should be your aim to get rid of these disfiguring signs of impure blood—quickly, certainly, impersonally. No outward application will help.

BEECHAM'S PILLS

Readily seen within the face, the beautiful complexion is the result of the action of the blood. This is the reason why the blood is so important to the health of the body. The blood is the life of the body, and it is the duty of every person to keep it pure and healthy.
