suits for damages for alleged il-distress are becoming more and legal distress are becoming more and more numerous with each succeeding session of the Civil Assize Court. Yesterday the suit of Denton v. Lucas was before Judge Street for settlement. The plaintiff, M. H. Denton, formerly occupied the store, 418 Spadina-avenue, owned by the defendant, Henry Lucas. On June 5, 1893, Denton paid the rent for the preceding month, and on June 8 was asked for the rent for June. He refused to pay it, as he claimed the lease contained no condition stipulating the payment of the rent in advance. The same afternoon Lucas issued a writ, upon which Bailiff Cox distrained the whole of the plaintiff's household goods and grocery stock. Cox was named as co-defendant in the suit.

Lucas put in a counter-claim for \$700 due him on the lease. The judgment allowed this claim, but also gave Denton \$100 damages and full costs of the case.

Sealed tenders addressed to the undersigned, and endorsed "Tender for Trent Canal," will be received at this Office until noon on Saturday, 23rd March, 1895, for the construction of about six and a half miles of Canal on the Peterboro and Lakefield Division.

Plans and specifications of the work can be seen at the office of the Chief Engineer of the Department of Kailways and Canals, at Ottawa, or at the Superintending Engineer's Office, Peterboro', where forms of tender can be obtained on and after Monday, 18th February, 1985.

In the case of firms there must be attached the actual signatures of the full name, the nature of the occupation and place of residence of each member of the same; and, further, an accepted bank cheque for the sum of \$7500 must accompany the tender; this accepted cheque must be endorsed over to the Minister of Railways and Canals, and will be forfeited if the party tendering declines entering into contract for work at the rates and on the terms stated in the offer submitted. The accepted cheque hus sent in will be returned to the respective parties whose tenders are not accepted.

King and Victoria-streets Toronto.

Henry A. King & Co.'s special wire from F. G. Logan & Co., Chicago: Wheat has been strong all day, with light offerings. Weather influences are being a little felt and will become a factor for the near future. Foreign advices are all tending to higher prices, for a sharp advance we require larger exports. Corn-been moderately active; the market is very firm, with good cash demand. Provisions—Heavy receipts of hogs and to-morrow being a holiday had rather a depressnig effect on product; until receipts do look up we do not look for any improvement. The money to be in the product will be by buying it when the proper time comes.

McIntyre & Wardwell (John J. Dixon) received the following despatch from Schwartz, Dupee & Co., Chicago: Wheat opened a shade below yesterday's closing and acted in an uncertain manher until corn started up, when it rallied from 53s to 53 1-2a to 53 5-8a. On the advance the offerings were large and the market broke to 53c, closing at 53 1-8a to 53 1-4c. Seaboard clearances only equal to 130,000 bushels and the new business at the seaboard was light. Corn, after a duil opening, advanced from 44 5-8a to 45 1-2c. The prospect of mild weather and a break up in the roads started shorts to covering and light offerings caused the advance, half of which was lost after the demand from that source was supplied. There seemed to be a difference of opinion among shippers in relgard to the New England demands. Some reported no business and others a fair inquiry. But for the sudden demand from shorts, corn would have shown no improvement to-day. We think both corn and wheat can be safely bought for moderate profits, at any rate, on any decline from to-day's closing prices. Packer's are sellers and but little cash demand was reported for meats and none Packers are sellers and but little cash de-mand was reported for meats and none for lard. The tendendy of the market is still lower, but on any break we favor buying ribs.
