General News.

— Mr. Gladstone, England's premier, who was lately reported to be in decided ill health, is much better.

— About three thousand pounds of salmon have been taken from the Port Medway River already this season and shipped to Boston.

—Charles Reade, the novelist, died on the 18th inst. He was a brilliant writer, and his works are the favorites of many persons.

—On Fridry of last week, the wife of Wm. Binns, Cardigan Bridge, P. E. I., was safely delivered of triplets—girls. The children are reported healthy and doing well.

—The London *Standard's* correspondent at Paris asserts that the dynamite used in the London outrages was procured from an authorized factory in France, and that £200 was paid for it.

— Another lunatic named John Traynor, is going to attempt to cross the Atlantic ocean in a dory 12½ ft. keel, 5 ft. wide and 22 inches deep.

— Mr. Barnum offers a prize of $500 for the best poem (not to exceed fifty lines) on the white elephant that has cost him so much money and care to secure and bring to America all the way from Siam.

— A Moshierville correspondent of the Hants *Journal* says a white pine tree 5 feet in diameter was recently felled in that place. The tree was branched into six trees after reaching a height of 10 feet.

—Mr. Thos Clarke has received a magnificent gold medal bearing the following inscription: "Awarded by the American humane accociation to Thos. Clarke, in recognition of his Improved Cattle Car, Truro, Nova Scotia, 1884."

— Great depression in shipping is reported to exist in England. Public subscriptions are being made for the relief of unemployed men.

Died on the Train.—Mrs. Pemberton, a lady who was coming from Ohio after an absence of several years to visit friends at Shubenacadie, died on the train yesterday just before reaching her destination, and the friends assembled to welcome her after a long and tedious journey were horrified to find only her corpse. She had been somewhat unwell, and her illness was aggravated by the long ride in the cars.—*Chronicle.*

—The Woodstock, N. B., *Sentinel* states that a fine pair of horses, worth $400, and owned by Mr. Robert Tompkins Peel, became frightened by an approaching train and took the track, instead of the road and following it until overtaken by the engine and were dashed to pieces.

The Cotton Industry.—Montreal, April 15.—A largely attended meeting of manufacturers of white cotton was held yester day afternoon in the office of David Morrice & Co., for the purpose of deciding the best means to be taken. It was fully discussed, and it was finally decided not to close the mills, but to curtail the manufacture until the surplus had worked off. A committee representing the interest involved was appointed to make the necessary arrangements.

The Coming Russian-English Marriage.—The granddaughter of the Queen, who is to marry the brother of the Russian Czar, and to become the sister-in-law of her aunt the Duchess of Edinburgh, is the Princess Elizabeth Alexandria Louisa Alice, second daughter of the Grand Duchess of Hesse. She is not yet 20 years of age, but is exactly like her mother, the Princess Alice, and is said to resemble her closely in intellectual power and in character. She is a great favorite with the Queen. The Russian Grand Duke Sergius, whom she is to marry, is 27 years of age, is a soldier and a man of very determined character. He is popular among the Princes of Russia, and great affection is said to subsist between him and his sister, the imperial and royal wife of the Duke of Edinburgh. It is always said, of course, that these marriages are contracts of affection and no one wishes to say the contrary in this case. But there has been a great deal of family management to bring the match about and it is peculiarly gratifying both to the Queen and her daughter-in-law.

Fifty Percent of Renewals.

This being the fourth of April, when a great quantity of dry goods paper falls due, our reporter called upon a number of wholesale firms to discover how it had been met. One firm stated that owing to the Western mail being delayed only about two fifths of their paper had been met and they thought that about fifty per cent would be renewed.

Mr. Hugh McKay, of the firm of McKay Brothers, said that the day had passed off rather badly and fully sixty per cent would be renewals. The reason was that there was no money in the country. The banks had it all.

A member of a large fancy goods firm said that if the Western mail had arrived in time the outlook would be more cheerful. As it was fully fifty per cent would be renewals. Owing to the horrible roads no business had been done throughout the country for some time; this looked worse than it was.

Messrs. J. G. Meckenizie & Co. reported that the day had passed off far better than then had had expected. Only about twenty-five per cent were renewals, under the adverse circumstances an excellent showing.—*Montreal Witness.*

Business Embarrassments.

R. V. Barker & Co., owe about $20,000; the assets nominally are over that amount. A compromise will probably be effected.

W. H. Morley, general trader, Sydney, C. B., has assigned to T. & E. Kenny, Halifax, with liabilities amounting to $9,000.

After about 15 years of business, Douglas H. Storey, Halifax, N. S., has assigned, with liabilities of $18,600 of which $4,635 are preferred; the assets are placed at $5,000.

O. Delmore & Co., wholesale leather merchants, Montreal, have failed, with liabilities of $60,000, and only nominal assets. The creditors have accepted a trifling composition.

Nerland & Gosslen, furniture manufacturers, Montreal, have assigned, with liabilities of $40,000 and assets half that.

A. J. Pilon, grocer, Montreal, has assigned with liabilities of $20,000 and assets of $12,000.—*Ex.*

Proof Everywhere.

If any invalid or sick person has the least doubt of the power and efficacy of Hop Bitters to cure them, they can find cases exactly like their own, in their own neighbourhood, with proof positive that they can be easily permanently cured at a trifling cost—or ask druggist or physician.

Greenwich, Feb. 11, 1880.

Hop Bitters Co.—Sirs—I was given up by the doctors to die of scrofula consumption. Two bottles of your Bitters cured me.

LEROY BREWER.

Fruit Growers' Association.

The Fruit Growers' Association met in quarterly session at Berwick, on the 11th inst., at 1 o'clock. The attendance was fair. Owing to the death of the late President, Avard Longley, Esq., W. C. Newcomb, Esq., Vice President, took the chair.

Mr. N., in a few well chosen words opened the proceedings. He paid a fitting tribute to the memory of the deceased President.

R. Starr, moved a resolution seconded by William Miller, expressive of sincere regret, and of the great loss sustained to the Association and the country at large in the death of Mr. Longley. It further resolved to send a copy of the resolution to the family of the deceased. The publication committee gave notice that they had taken the liberty of procuring the portrait of the late President to be bound with the forthcoming report of the Association. The action of the Committee was approved by the meeting.

A committe consisting of Rev. J R. Hart, C. R. H. Starr, Esq., and Rev. H. F. P. Axford, was appointed to revise the constitution and submit such revision to the annual meeting.

A communication was read by the Secretary, from the American Pomological Society, being rules recently adopted by that Society in regard to nomenclature and exhibits of fruits. The rules referred to were by motion given to the committee on revision, to be reported upon to the annual meeting.

The premium list of exhibits of fruit in connection with the exhibition to be held at New Orleans, 1884-85, was brought to the notice of the meeting.

It was Resolved: That if arrangements can be made, whereby the expense of transmitting and exhibiting our fruit at New Orleans can be met, this Association will prepare an exhibit of our best apples.

2, That a deputation be appointed to urge upon the Government of Nova Scotia the necessity of giving aid in this matter.

Deputation appointed, Revs. J. R. Hart and H. F. P. Axford.

3, That a Committee be appointed to collect and prepare the fruit for transmission, and that the sum of three hundred dollars be apportioned to meet the necessary expenses. Executive Committee, the Secretary, R. W. Starr and D. Johnson, with power to add to their number.

It was Resolved, To allow individual exhibitors as members of the Association to forward their exhibits under the auspices of the Society.

It was stated that an exhibition of fruit will be held in the Crystal Palace, London, in October next, though no official communication of the fact had been received. The matter of preparing and forwarding fruit for exhibition there was referred to the committee in connection with the New Orleans Exhibition.

Rev. J. R. Hart was appointed President of the Association in place of A. Longley, deceased.

The question of grafting and pruning was discussed. Upon the former, no new ideas were advanced, and little interest appeared to gather about it, as most at least of those present appeared to be familiar with the common modes practised.

Most interest appeared to be taken in the matter of pruning, and the opinion most prevailing seemed to coincide with the advice of the oft quoted authority who said, "that the best time to prune was when you are beside the tree and have a sharp knife or even hatchet." An exception, however, was made in this advice, that it was not well to prune just before or during weather in which the limb of the tree might be frozen. It was the opinion of most of those who took part in the discussion, that by adopting summer pruning we escaped the growth of suckers, which were apt to follow when winter or early spring pruning was adopted.

Prorogation.—The second session of the fifth Parliament of the Dominion prorogued its session on Saturday last. The Governor General made the customary closing speech, in which he referred to the loan made to the Canadian Pacific R. R., as being one calculated to secure its speedy completion; congratulated Parliament on the adjustment of differences between the Dominion and the Province of British Columbia; said that the appropriations made for the furtherance of railway construction would assist materially in the developement of commerce, and open up desirable country for settlement; that the "readjustment of the annual subsidies to the several Provinces while adding to their resources will place their pecuniary relations with the Dominion on a satisfactory and permanent basis;" referred to the Indian legislation of the session, and to that concerning Dominion lands in the N. W. T. The remainder of the work of the session was then mentioned in general complimentery terms.

PROVINCIAL PARLIAMENT.

also concluded its labors for this session on Saturday. In the Lieut. Governor's closing speech, reference was made to the work of the session as being calculated to further the interests of the country; to the late bereavement our beloved Queen has been called upon to suffer; to the revision and consolidation of the statutes, as being a most important feature of the session; to the address it is proposed to lay before the Governor General for a larger allowance from the Federal treasury; to the railway transfer eastward, that it would reduce the public debt of the Province one and a half million of dollars, and to extension westward, and it was hoped that the proposed subsides from the Dominion treasury, would enable this important work to be done.

— A Lunenburg County lumber camp has a stove 24 x 22 x 17 inches, which has done duty for 135 years.

The Press.—It is reported that Mr. Robert McConnell, of the Truro *Guardian*, will assume the editorial management of the Moncton *Transcript* after May 1st. Negotiations to that end have been in progress, but whether completed or not, is not generally known. Mr. McConnell is a gentleman of considerable experience in news paper work, having been connected with several journalistic ventures in the sister Province of Nova Scotia.—*Moncton Times.*

Turpentine in Infectious Diseases.

The *Med. Record* tell us that H. Vilandt writes in the *Ugeskrift for Leager*, concerning the value of oil of turpentine in the treatment and prophylaxis of diphtheria and the exanthematous diseases. He states that he has never seen any of these diseases spread from a sick child to other members of the family when this remedy was employed. In many of his cases no insolation could be attempted, as the mother was the only female in the family, and was obliged to take care of both the sick and the well, continually passing back and forth from one to the other. His method was to pour from twenty to forty drops of a mixture of equal parts of turpentine and carbolic acid into a kettle of water, which was kept simmering over a slow fire, so that the air of the sick room was constantly impregnated with the odor of these two substances. He claims also that by this means a favorable influence is exerted upon the exudation in diphtheria, although it is by no means curative of the disease, and should never be relied upon to the exclusion of other remedies.

DOMINION PARLIAMENT.

THE BILL AMENDING THE SCOTT ACT PASSED.

Ottawa, April 16.

In the House this evening,

Sir John Macdonald moved the second reading of the "Bill to Amend the Canada Temperance Act." He explained that the amendment was intended to meet difficulty regarding enforcement of the Act in certain counties in Nova Scotia and New Brunswick where no licenses are granted. The Act states that in any counties where licenses are granted the same shall be annulled after the adoption of the first part of the Act by a majority of the voters, while in Nova Scotia there are several counties wherein no licenses are now granted, and thus they are incapacitated from adoption of the Act. The amendment provides that in such counties the Act shall come in force thirty days after a proclamation by Order-in-Council.

The House then went into committee on the bill. The committee after some discussion reported the bill without amendment.

On motion for the third reading. The bill was then read and passed.

Ottawa, April 14.—The further supplementary estimates were brought down in the House to-night. The total amount asked for chargeable to capital is $774,910; to income, $47,700; total, $812,616.

SIR LEONARD INTRODUCES A NEW RESOLUTION ON PROVINCIAL SUBSIDIES.

Ottawa, April 15.—This evening after routine business, Sir Leonard Tilley moved the House into Committee of the Whole to consider the following resolution:

"That it is expedient to provide,

1st—That in the accounts between the several Provinces and the Dominion the amounts by which the yearly subsidy to each was increased by the Act 36 Vic., chap 30,[as explained by the Act 37 Vic., chap. 3, as to Nova Scotia], shall be calculated and allowed to Ontario and Quebec jointly, as having formed the late Province of Canada, and to Nova Scotia and New Brunswick as if the said Acts had directed that such increase should be allowed from the day of the coming into force of the British North America Act of 1867, and that the total amount of the half yearly payments which would in that case have been made on account of such increase from the 1st July, 1867, up to and including the 1st January, 1873, with interest on each at five per cent. per annum from the day on which it would have been paid to 1st July, 1884, shall be deemed capital owing to the said provinces respectively, bearing interest at five per cent. per annum, which interest shall be payable to them as part of their yearly subsidies from the Dominion on and after 1st July, 1884.

"2nd. In the accounts between the Dominion and the provinces of British Columbia, Manitoba, Prince Edward Island, the amounts now collected and allowed as the debts of these provinces respectively on which they are now paid interest by the Dominion shall be increased by amounts bearing the same proportion to the respective populations of the said provinces as ascertained by the census of 1881 as the total of the amounts to be added under these resolutions as capital owing to Ontario and Quebec, Nova Scotia and New Brunswick bear to the combined population of the four last named provinces, as ascertained by the said census of 1881, and the amounts of such increase to the said provinces of British Columbia, Manitoba and Prince Edward Island shall be deemed capital owing to the said provinces respectively, bearing interest at the rate of five per cent. per annum, which interest shall be payable to them as part of their respective subsidies from the Dominion on and after 1st July, 1884."

In explaining his resolutions, Sir Leonard showed that the debt of the country would be increased nine million dollars by the proposed readjustment of the provincial subsidies.

TELEGRAPH NOTES FOR THE WEEK.

London, April 12.—The *Times* remarks that the dynamite fund so far from being a myth is a very real affair and that no other country would tolerate the stigma incurred by America in suffering dynamiters to form their plans and secure their supplies unchecked. The article also denounces the Ministry's *Laissez faire* policy on the dynamite question.

London, April 12.— The *Times* prints a communication from its Paris correspondent which gives much information concerning the dynamiters and Clan na Gael societies' constitution and form of oaths. These organizations are described and an account is also given how dynamite is obtained in France. It is asserted the Clan na Gael has received a letter bearing the Russian postmark from the informer McDermott in which he pleads his innocence and begs mercy. The society treated the letter with contempt. Its agents are tracking him. The same article says Matthias Brady recently arrived in Paris from New York to investigate the truth of the rumor that Peter Carey was hidden there. A careful search was instituted but proved fruitless. Brady returned to New York leaving orders that he should be informed at once if any of the Carey's were discovered. Constant watch is kept upon the informers Lamie and Coleman.

London, April 18.—The *Times* to-day speaking editorially of the political outlook in America says: "At no time since the civil war in America has so little attention been paid in England to the affairs of the United States as during the last four months."

Cairo, April 18.—Sir Evelyn Baring, the English Minister, has received a despatch from Gen. Gordon of April 9th. In this he says a merchant had reached Khartoum from El Obeid after a journey of twelve days. The merchant reports that Tegeba tribes had twice defeated El Mahdi, who suffered heavy losses. El Mahdi is now as completely hemmed in as Gen. Gordon is.

Montpelier, Vt., April 15.—A young man named Long, at work in a saw mill near Plainfield, was struck this afternoon by a chain used in hauling logs, thrown upon a circular saw and beheaded.

Cairo, April 17.—General Gordon has telegraphed to Sir Evelyn Baring that his position is hopeless unless Zebehr Pasha be sent to Khartoum immediately.

London, April 20.—General Gordon telegraphs as follows, under date of April 8th: "Owing to delay and uncertainty of communication, I will hereafter act upon my own judgment and responsibility. Our position will be much better when the Nile rises. Senaar, Kassala, Dongola and Berber are quite safe for the present. Do you think that if an appeal was made to the millionaires of England and the United States for £200,000 it would be available? If the Sultan of Turkey will send two or three thousand Nizams to Berber under Zebehr Pasha, it would not only settle affairs at Khartoum, but do for El Mahdi, in whose collapse the Sultan is necessarily interested. I am sure that if it is known how loyally the inhabitants and garrison of Khartoum held to me and how my lot is involved in theirs, my appeal would be considered fully justified."

London, April 19.—A despatch to the *Times* from Khartoum, dated April 7, says: The people are heart-sick of hoping for English relief. The town is now in the centre of an enormous rebel horde. Our Krupp ammunition is rather short. The situation is critical. The rebels have frustrated an attempt to send a steamer to Berber. Gen. Gordon will probably be driven to retreat by Central Africa. A retreat to Berber is impossible.

London, April 17.—Advices from the far east state that a great fire is raging at Rangoon, the capital of British Burmah, and that Mandalay, the capital of Burmah proper which was recently half destroyed by conflagration, has been afflicted with another extensive fire.

Worcester, Mass., April 15.—Jacob Paul Weigher, who was a drummer boy at the battle of Waterloo, died in this city tonight, aged 84.

☞ A life saved for thirty-five cents! A lady in Boston had Diphtheria and was almost dead from strangulation, but was instantly relieved and finally cured by *Johnson's Anodyne Liniment.* Every family should have a bottle ready for instant use

☞ Profitable investment. One dollar's worth of *Sheridan's Cavalry Condition Powders* fed to a coop of thirty hens will yield a profit of three dollars, besides preventing all manner of diseases. Be sure to get Sheridan's. The *large* packs are worthless.

☞ It is wise to provide against emergencies that are liable to arise in every family. A cold may be a dangerous thing, or not, depending upon the means at hand to combat it. In sudden attacks of cold, croup, asthma, etc., Ayer's Cherry Pectoral will prove the quickest and most effective cure, and your best friend.

—Charles Barrett, of Ashburnham, Mass., took out a $1,000 policy in 1846, when he was fifty-eight. He is now ninety-six, and the company has just sent him a cheque for the full amount, with the explanation that he has outlived the mortality table, being the only member of that company, or of any other in the country, who has thus beaten the record.

SERVICES ON SUNDAY NEXT.

Deaths.

Sprowl.—At Litchfield, Lower Granville, on Saturday, April 12th, Sybil, wife of Edwin Sprowl, aged 20 years. A large circle of friends mourn her loss. Five and a half months ago she was a bride.

Ansley.—At Peoria, Ill., on the 5th inst., of disease of the heart, Mr. A. C. Ansley aged 57 years.

Snow.—At Hampton, on the 11th inst., Mr. Sylvanus Snow, aged 80 years.

Advice To Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, their is no mistake about it. It cures dysentry and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces the inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.
