

RED ROSE TEA "is good tea"

Folks who want the very best use
RED ROSE ORANGE PEKOE

The BEST Is The CHEAPEST

Quality articles are made for people who are tired of the extravagance of cheap things—E. W. Howe.

When men realize the extravagance of cheap clothing they turn to the custom tailor. Once a man experiences the joy and economy of wearing a custom-made suit he will wear no other. He finds he gets quality in material, in workmanship, and distinctiveness in style almost impossible to obtain in clothes made under factory conditions.

In order to bring the facts home to the man who has not experienced the satisfaction of clothes built to his individual measure, we are using this space to direct his attention to their importance. Every week this space will tell of the economy in clothes made to your measure.

NOVA SCOTIA

Persons who are inclined to disparage Nova Scotia as an agricultural country will be interested to read some of the comments of a prominent Irish journalist and contributor to Agricultural papers in the Old Country. This gentleman, Mr. Charles Reid, visited the Province last Summer, also making a tour of other parts of the Dominion. His article on his impressions of Nova Scotia appeared in the Belfast Weekly News late in the Autumn. The entire article is exceedingly interesting as the observations of a disinterested outsider. However, we have room here for only a few selections.

Mr. Reid was greatly impressed with the marsh lands about the head waters of the Bay of Fundy. "They consist of the alluvial deposits for centuries from the flooding of the narrow inlets that pierce the land on the top of the Bay of Fundy, where the tides reach a height of forty to fifty feet. The early French settlers a century and a half ago, when France owned Canada, conceived the idea of building dykes to keep back those high tides, and thus secured thousands of acres of the richest lands in the world which have been bearing heavy crops of hay, reaching sometimes over three tons an acre year after year without any manuring. It is said the only thing required to renew fertility is to admit the tide to overflow once in a hundred years."

"All through the Valley of Truro and on towards Halifax I saw the heaviest crop of timothy and clover hay I have yet seen anywhere reaching sometimes to three and four ton acreages. There seems to be no attempt to use a seeds mixture, and consequently the timothy does not afford a good sod for grazing."

The writer goes on to say that the artificial fertilizers used in these regions are of lower grade than those used in the Old Land, suggesting that better results would accrue from the general use of higher grade materials.

Commenting on the root and silage crops, he suggests that the acreage of roots is lower than one might expect to find, but this is partially explained by the necessity of hustling the Spring work on account of the lateness of the start. He is deeply impressed with the growth of silage crops, especially sunflower on good land. "The land of Nova Scotia is generally of a light clay loam and very fertile in the valleys, while the sheltering hills are mostly clothed with timber, chiefly spruce, pines and white birch."

He is surprised at the cheapness of many farms with good buildings, especially those which are located near the market towns, remarking at the close of the paragraph dealing with this, "One might go further than Nova Scotia and fare worse. It is a land of valleys and richly-wooded hills, while the roadsteads are gay with wild flowers, such as briar, golden rod, and the sweet scented evening primrose."

"What is perhaps of most interest to Northern farmers is the orchard valley of Annapolis, generally so-called, but comprising a number of valleys sheltered by low well-wooded hills. These stretch over a length of from 50 to 60 miles and up to 10 miles wide, comprising from 62,000 to 63,000 acres of orchards, mostly of those rich, juicy, finely colored apples for which Nova Scotia is famous. Land is, of course, more expensive about this district, which looks rich and prosperous, there being seldom failures under the system carried out." The writer goes on to speak of the yields of the orchard lands and to commend in the highest terms the care given to the trees in pruning, manuring, spraying, etc. The article throughout, as may be inferred from these quotations, is exceedingly appreciative of the good features and advantages of Nova Scotia.

FOR U. S. ANGLERS

Camp Cottages To Be Erected At
Ship Harbor Lake For
Visitors.

Among sportsmen visiting Ship Harbor lakes have been several parties from the United States and among such, a few years ago, was J. Pierpont Morgan, of New York. Evidently those beautiful angling waters have been made rather widely known, for word was received in the city that work is about starting on erection of about a dozen camp cottages for United States parties. The cottages are to be built near the lower end of the big lake on land leased for the purpose.—Chronicle.

"TEA POT DONE"

We have read a great deal about the oil scandal in Washington. It may be very bad in some instances, but is it really necessary to besmirch every one within reach? We thought before the developments took place that the Standard Oil Co. was one of the chief sufferers from competition of the Sinclair Oil Co. Could it be that they are at the bottom of this whole mess?

OBSERVER.

HELP FOR YOUNG WOMEN

Mrs. Holmberg Tells How
Lydia E. Pinkham's Vegetable
Compound Helped Her

Viking, Alta.—"From the time I was 15 years old I would get such sick feelings in the lower part of my abdomen, followed by cramps and vomiting. This kept me from my work (I help my parents on the farm) as I usually had to go to bed for the rest of the day. Or at times I would have to walk the floor. I suffered in this way until a friend induced me to try Lydia E. Pinkham's Vegetable Compound. I have had very satisfactory results so far and am recommending the Vegetable Compound to my friends. I surely am glad I tried it for I feel like a different person now that I don't have these troubles."

Letters like this establish the merits of Lydia E. Pinkham's Vegetable Compound. They tell of the relief from such pains and ailments after taking it.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today holds the record of being the most successful remedy for female ills in this country, and thousands of voluntary testimonials prove this fact.

If you doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to the Lydia E. Pinkham Medicine Co., Cohasset, Ontario, for Mrs. Pinkham's private text-book and learn more about it.

MOSCHELLE

Miss Gladys Whitman, of Round Hill, was a guest last week of her grandparents, Mr. and Mrs. G. A. Barteaux.

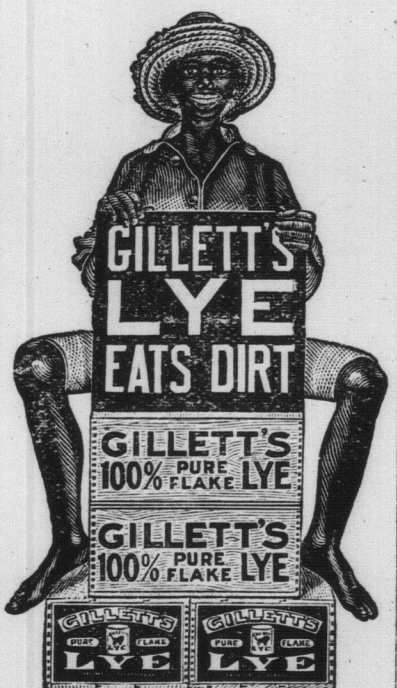

Mrs. W. F. Ritchie went to Kentville on Friday to visit Mr. and Mrs. Wentford Ritchie.

Miss May Ritchie returned on Friday from a few days' visit with her aunt, Mrs. Buckler, Granville Ferry.

Mrs. Modena Wear and daughter, Pauline, of Annapolis Royal, spent the past week at the home of Mr. and Mrs. Harold Ritchie.

Arthur Barteaux, of Kentville, is spending a few days at the home of Mr. and Mrs. Guy Barteaux.

Messrs. Edward Fair and Merrill Barteaux returned from Lawrenceville on Friday after attending the Short Course the past three weeks.

GRANVILLE FERRY

The ladies of the Baptist Church and their husbands gave Capt. and Mrs. C. W. Croscup a surprise on Thursday evening, it being Mrs. Croscup's birthday. The first part of the evening was spent very pleasantly in piano music, reading, etc., the latter part by radio concert. The presentation of a very nice box of stationery and correspondence cards, etc., being made by Mrs. J. H. Rhodes.

Rev. A. J. Prosser gave a very interesting talk on Child's Welfare in the Baptist Church on Sunday, March 16th.

Mrs. S. C. Shaffner, who has been spending the Winter months with Mrs. Calnek, returned to her home last week.

Mr. Gordon Mills spent the week-end in Dalhousie.

Mr. Carmen Mills, of Bridgetown, is cleaning and repairing engines on steamer Valinda this week.

Mrs. Holmes Masters, who has been a guest at the home of Capt. and Mrs. C. W. Croscup, returned to her home in Berwick on Friday.

Few men are capable of answering the arguments of a pretty woman.

How to Purify the Blood

"Fifteen to thirty drops of Extract of Root, commonly called Mother Seigel's Curative Syrup, may be taken in water with meals and at bedtime, for indigestion, constipation and bad blood. Persistence in this treatment will give permanent relief in nearly every case." Get the genuine at druggists.

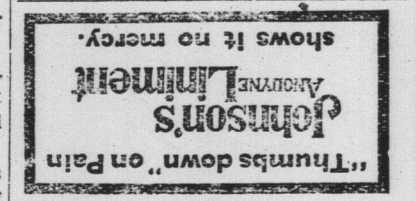

CONVICTION UPHOLD IN SCOTT CASE

Full Bench Upholds Magistrate's
Action in Imposing \$500
Fine.

Following a decision given by the Full Bench in the case of the King vs. Percy Scott, of Montreal, convicted in Sydney for sending liquor into Nova Scotia from Montreal, sustaining that conviction, announcement was made from the Attorney General's department that similar proceedings would probably be instituted against other offenders. With Mr. Justice Mellich dissenting, the Full Bench upheld the conviction of Stipendiary Magistrate Hill in the Scott case.

Charged with shipping liquor from Montreal to Sydney Percy Scott, who is manager of Dow's Brewery, was arrested in November last at the instance of the Attorney General's department. The prosecution was a test case resulting from complaints about the wholesale shipping of ale by Quebec breweries into Nova Scotia. While in many cases, seizures of the goods had been made there had been no actual proceedings against the actual parties instituted. Scott was tried at Sydney, convicted and fined \$500 and costs.

The decision is regarded as an important one from many standpoints as it establishes clearly that a company cannot mask itself behind the actual individual who is responsible for the shipment of the goods in question. Further the case applies the principle established by the so-called National Bell case decided in the Privy Council in July 1922 to the effect that where there is no appeal and the conviction is good on its face, the evidence before the lower court cannot be inspected on certiorari proceedings.—Herald.

AGITATORS A MENACE TO THE MINERS

Archie Terris Says MacLachlan Speeches
Are Designed To Disrupt The
U. M. W. of Nova Scotia.

Archie Terris, Labor Member for Cumberland in the Nova Scotia Legislature, and delegate to the International Convention of the U. M. W., sees only added confusion in the public expressions of opinions, both by members of the International and opponents of the U. M. W. policy in Nova Scotia, according to what he said to the Morning Chronicle.

Mr. Terris, like all other U. M. W. members, is disappointed in the present agreement between the U. M. W. and the British Empire Steel Corporation. It was not what the men were led to expect; but all things considered it is not an unprofitable contract. When the International Convention was held at Indianapolis, practically all of the delegates from Nova Scotia were refused recognition by the International. The locals were not in good standing, being in arrears. In spite of this, the International supported the district in their negotiations; sanctioned the stoppage of work and instructed the International delegates in the district to endeavor to negotiate a contract.

The district was faced on January 16th with a 20 per cent reduction in Cape Breton, and, instead, had obtained some advance.

The speeches of James B. MacLachlan, since his release from Dorchester, Mr. Terris declared, were deliberate attempts to disrupt the U. M. W. of Nova Scotia. He says that all agitators of this type should be discounted by the United Mine Workers and by the public generally. They are no help in the present and may do much harm toward peaceful settlement of differences in the future.

Mr. Terris takes a purely practical view of the attitude of the Nova Scotia District toward an election to replace the present provisional officers. There will be no election, Mr. Terris says, until the locals have paid up their levies and are in good standing with the International Union. As soon as this standing has been made, it will be time to talk of the election of permanent officers for the district.

In any event, the only policy possible for the members of the district to pursue will be accepted with good grace the terms of the contract that has been made for them by the provisional officers and to keep the production up to its best standard under it.

WANT THEIR \$75,000

Sydney Mines.—The merchants of North Sydney and Sydney Mines are taking joint action to recover monies by the U. M. W. Provisional Board for relief orders issued to the miners during the progress of the recent industrial suspension. The Herald is informed that the International President, J. L. Lewis, has repudiated the action of the U. M. W. executive in District 26, and until the whole matter is investigated the merchants will have to await the decision of the International Board. The merchants claim it in the vicinity of \$75,000.

Great Interest In Results Of Syrup Used By Noted Doctor

Many Now Use Prescription
For Stomach Trouble, Colds,
Headache, Nervousness and
Run Down Condition.

BUILDS UP SYSTEM INCREASES STRENGTH

With men and women in all walks of life pointing to their own quick relief, there is little wonder that everyone is talking about the syrup used by Dr. Thacher, or that druggists report a constant increase in its use.

These people have demonstrated that symptoms such as those described above are often the result of a sluggish condition of the liver. They now know that relief comes quickly when the liver is properly cleansed with Dr. Thacher's Liver & Blood Syrup.

Gives Quick Relief
There is a scientific reason for this quick relief! When working as Nature intended your liver purifies your blood, every drop of which filters

through the liver every fifteen minutes. Your liver furnishes the secretions that are essential to proper digestion and nourishment. Also, your liver supplies the secretions Nature uses to lubricate your bowels so that they can move naturally, gently and regularly every day. And, how can your liver do these three things properly when it needs to be cleansed and toned? The result is you often wake up feeling dull and tired and frequently suffer from one or more symptoms, such as sick headache, acid stomach, gas, constipation, colds or a nervous, upset condition.

Get quick relief, yourself! Try just a spoonful of Dr. Thacher's Liver & Blood Syrup after the next few meals to cleanse and tone your liver and help Nature build up your system. Notice the quick difference in the way you look, eat, sleep and feel. You will be completely satisfied; otherwise druggists are authorized to return your money.

Dr. Thacher's Liver & Blood Syrup is sold by W. A. Warren in Bridgetown; by Watson E. Porter, Pharmacy in Lawrenceville, and by leading druggists in every city and town.

KING'S COUNTY SPORTSMEN ARE ENTHUSIASTIC

Constitution Adopted At Second Meeting
Of The Association—Some
Of The Rules.

Wolfville.—The Fish, Forest and Game Protective Association formed in Wolfville on March 4th (as fully reported in The Herald) held its adjourned meeting in the Town Hall Tuesday evening, the attendance being larger and the proceedings even more enthusiastic than on the former occasion. The President, Rev. Dr. Douglas Hemmeon, presided, and was supported by all the officers and executive.

Ernest Redden, who was elected Secretary-Treasurer at the previous meeting, resigned, and on his nomination, A. L. Guest, local manager of the Bank of Montreal, was voted his successor.

Dr. Leslie Eaton, on behalf of the executive, submitted a draft of the proposed constitution, was discussed clause by clause and adopted.

Article 9, of the constitution, contains the following interesting rules and pledge:—

1. Never in sport endanger human life.
2. Never kill wantonly or needlessly or brutally.
3. Obey the laws, both Provincial and Federal. Work for better laws and uphold the law-enforcing authorities.
4. Never be a fish or game hog.
5. Respect the rights of farmers and property owners, and also their feelings.
6. Always leave seed birds in covers.
7. Love the woodland and its denizens, and be a gentleman.
9. Protect the woodland by care in kindling and extinguishing all fires.

—Herald.

GERMANY CAN PAY!

It is part of the German propaganda he covers it up with the figures of to so belittle her means of paying the Reparation Commission. Imparting to the public the sympathy of persons who have studied German and the pity of the other powers, resources concede that the demands addition to this, there is gross misrepresentation of the total amount that Germany is called upon to pay. man National wealth, according to her own statisticians, "was close to \$100,000,000,000. Since, not injured by war operations, it has increased, thru the decline of the purchasing power of units of gold, to something like \$140,000,000,000. To say that Germany can't pay \$13,000,000,000 is to say she can't realize on ten per cent of her assets and convert them into gold credits. Some cases can be made out in the neighborhood of \$13,000,000,000. This would lift the German mortgage. Yet steadily the public is told by those who must know better, that the total is more than double the real sum. As to Germany's capacity for paying \$13,000,000,000, Bernard M. Baruch, chief U. S. financial expert in Paris in 1919, estimated that she could pay \$15,000,000,000, and the American delegation supported this figure, which was regarded moderate. Keynes, whose pro-German bias is notorious, estimated in his first book that Germany could pay \$10,000,000,000. He has since admitted that he underestimated her capacity and is now in substantial agreement, though 400 is beyond her strength.

You Can't Says

"The Tanlac Treatment
Made Me Look And
Like A Different Man"
Says Petro.

"The Tanlac treatment has made me look and feel like a different man. It is the positive statement of Petro, well known citizen of O. Alberta, Canada.

"Before taking Tanlac I was troubled with indigestion, gas and a tightness in my chest. I made me short of breath. My appetite was gone, my circulation poor."

WEDDING

Sabine-Comeau.

A very quiet wedding was celebrated at the Baptist Parsonage, Mar. 24, on Monday evening, Mar. 24, when Miss Mildred Comeau, of Bridgetown, formerly of Meteghan, was united in marriage to Cl. W. Sabine, second operator at Bridgetown Power Station, and son of Mr. H. R. Sabine. The ceremony was performed by Rev. Prosser.

The bride was attired in a gown of brown tulle, with hat of plush and was attended by Mrs. Sabine, while the groom was attended by his cousin, Mr. Gordon Neill.

The bride received many gifts including china and silver. Both Mr. and Mrs. Sabine have many friends who join in wishing them many years of happy life. They will reside in Bridgetown in the future.
