

ASSAYERS' SUPPLIES AND ENGINEERING INSTRUMENTS.

No. 034 Button Balance—10-inch Beam. Brunton's Patent Pocket Mine Transit.

Sensitive to 1-100 milligramme.  
 This is a double-column Button Balance with all latest improvements including our new adjusting device and rider rod lock.  
 It is accurate and as rapid as a beam of this length can be.  
 For an office doing a moderate amount of work it is the best Balance to be had for both gold and silver.  
 For complete description and prices of this and other Balances send for catalogue A to

This illustration shows an operator taking an incline above the horizontal with Brunton's Patent Pocket Mine Transit.  
 The instrument is made especially for mining engineers, mine managers and superintendents, but its light weight and the ease with which it can be handled render it admirably adapted to the taking of topography and for geological field work.  
 Write for catalogue B giving full description of the instrument and all its uses, to
