

unchanging love in keeping them united in the past, they desire to praise him for the brighter prospects that gladden their hearts for the future. Much fruit has been the result of Mr Davidson's labours here during the last six weeks, inasmuch as the Church has been stirred up to fresh life and energy, and many new members have been added to it. May it prove but the droppings of a rich shower of spiritual blessings, and to our Jesus we will ascribe the praise.—*Christian Times*.

E. U. HOME MISSION.—We understand that the Rev. T. G. Salmon has tendered his resignation as agent of this mission, in consequence of his having accepted a call from the church in Kilwinning. Mr. Salmon's resignation will be a loss to the mission, but a gain to the church. We believe that his engagement with the mission continues till the end of September, when he will enter upon his pastoral duties at Kilwinning.—*Ibid*.

SANDWICH ISLANDS.—Letters from Dr. Anderson announce his safe arrival, with his wife and daughter, at Honolulu, February 27, where, he says, "We were received in the most cordial, and even joyful manner by our brethren and sisters, and by the pious natives." The king was absent, but the queen, Mr. Wyllie, Minister for Foreign Affairs, and other officials extended gratifying attentions to the family. The king also, when subsequently met, on another island, appeared very friendly. After remaining a few days at Honolulu, Dr. Anderson sailed for Hawaii, expecting to devote March and April to that island and Maui, and May to Oahu. The general meeting of the mission was to be in June.—*Missionary Herald*.

We observe in the *Herald* of July and August, two letters from Dr. Anderson, respecting the Sandwich Islands. He says, "The Lord has done great things here, through the self-denying labours of our dear brethren in Christ, whereof we are glad."

CHURCH OF ENGLAND-FRENCH MISSIONS.—We have been favoured with the perusal of the ninth occasional paper issued by the Committee of the Church of England French Missions. We observe that during last winter the work presented various encouraging features. The Rev. B. P. Lewis, missionary at Sabrevois attempted with some success to introduce controversial meetings, at which the points in dispute between Protestants and Roman Catholics were discussed. In the college at Sabrevois, two of the pupils have apparently been converted from Romanism. The missionary students labour in Sabbath Schools and in preaching. The girls' school under Mrs. Lewis has succeeded well, though owing to the parsonage being small only a few pupils have been received. Mr. Roy, a student from the school at Sabrevois has opened a new station at Ramsay, Kildare, and Maskinogny. The mission employs two colporteurs, who are labouring diligently to spread the truth. Some Protestant families of the Abenaki indians located on the St. Francis River, has applied to the committee for the preaching of the Gospel among them. A preacher visits them every alternate Sabbath. The paper closes with an appeal for aid from the friends of missions.
