The Dominion Iron and Steel Co. has opened an office in New York.

Major Woodside, the census commissioner for the Yukon, estimates the population of that territory at 21,000.

It is estimated that there remains in the anthracite field of Pennsylvania 3,075,770,000 tons of unmined coal, which is nearly all owned by the eight railways that enter the anthracite territory. Based on the present demand, it is estimated that 50,000,000 tons of anthracite coal will be mined and marketed this year.

It is reported that Sir Thomas Lipson has a project on hand of establishing farming schools in Georgia and will have a line of steamers running from Georgia to carry the produce of the old country to supply the 3,000 stores owned by his company. This move is to be made, it is said, owing to the difficulty of obtaining fresh vegetables cheap enough.
